16 June 1978 and these are its proceedings This conference was held as a part of the Summer Research Institute in Ring
Theory at Waterloo sponsored by the Canadian Mathematical Society In soliciting speakers and contributors to the
Proceedings we attempted to represent those portions of ring theory which seemed to us interesting There was thus
considerable emphasis on lower K theory and related topics Artinian and Noetherian rings as well as actions and
representations of groups on rings Regrettably we could only obtain one paper in the mainstream of commutative ring theory
but we believe that the lack of quantity is more than made up for by the quality We also took the liberty of including a survey
of results in a field which we feel deserves more attention by ring theorists C algebras from an algebraic point of view
