Set Up Sold Out Find Out What Green Really Means:

Set Up & Sold Out Holly Swanson, 1995 *It's The Sun, Not Us* L.D. den Boer, 2019-08-27 Earth's climate is changing it always has and always will. The cause may be debated but man-made global warming has become the accepted narrative and Big Oil the popular villain. Anyone daring to challenge this consensus is attacked, smeared, demonized as a denier even threatened. Researchers who refuse to toe the line are discredited, dismissed as incompetent and blacklisted regardless of their expertise, experience or credentials. This is not how science is conducted. But not everyone can be silenced. The author of this book is not incompetent. Nor was he paid to write it. He's just someone who cares about the truth, a scientist with a broad understanding of how Earth's climate works and how it has changed over time. His book is divided into two parts: science and ideology. The first part explains in language laypersons can understand how the Sun, cosmic rays and other natural factors control Earth's climate and why carbon dioxide is virtually irrelevant. The second part exposes and refutes the green ideology of man-made global warming, revealing the economic damage it causes. It may be short but it's well researched, packed with information and an enjoyable, rewarding read.

The Takeover Cara Tanamachi, 2024-01-30 Sometimes when you ask the universe for your soulmate you wind up with your hate mate instead. On Nami's 30th birthday she's reminded at every turn that her life isn't what she planned. She's always excelled at everything until now. Her fiancé blew up their engagement. Her pride and joy, the tech company she helped to found, is about to lose funding. And her sister Sora is getting married to the man of her dreams, Jack, and instead of being happy for her as she knows she ought to be, she's fighting off jealousy. Frustrated with her life, she makes a wish on a birthday candle to find her soulmate. Instead, the universe delivers her hate mate, Nami's old high school nemesis, Jae Lee, the most popular kid from high school who also narrowly beat her out for valedictorian. More than a decade later, Jae is still as effortlessly cool, charming and stylish as ever and to make matters worse is planning a hostile takeover of her startup. Cue sharp elbows and even sharper banter as the two go head to head to see who'll win this time. But when their rivalry ignites a different kind of passion, Nami starts to realize that it's not just her company that's in danger of being taken over but her heart as well. Readers will cheer on this pair of sparring hearts. Publishers Weekly Starred Review.
