Setting Up Home:

Establishing Home Jean Stoffer, September Vaudrey, 2022 When Jean Stoffer's husband announced he was quitting his extremely stressful job to look for another career she suddenly needed to bring in a lot more of the family income. The problem was while she had a degree in business her part time job paid very little and she had few obvious options for earning more anytime soon. In *Establishing Home* Jean tells how necessity sparked her journey from part time receptionist to founder of an award winning home design company and star of the Magnolia Network's show *The Established Home*. Along the way she shares what she learned about design, business, parenting and relationships.

If God Intended the Sabbath, Why Did He Create Home Ownership? Ronald Citron, 2015-02-20 Why do we waste the Sabbath? Travel through time for the ways home ownership just seems to prevent us from enjoying this holy day of rest. The intention is not to preach; this is not a scholarly religious book. Rather, *If God Intended the Sabbath, Why Did He Create Home Ownership* explores why this day of the week should be designated as a day of rest and introspection. Take this soul searching, sometimes poignant, sometimes humorous but always personal trip through the years. Take an insightful, prophetic and wistful venture through the events causing lost Sabbaths. Questions are raised: why do we have to do our home projects on the Sabbath and which aspects of home ownership rob us of this special day? Sometimes the deed is thrust upon us, such as when the roof leaks during a stormy weekend. At times we thrust the deed upon ourselves, such as installing outside lights or repairing a creaky floor. Delve into this book for a journey through Sabbaths lost, with hope for the future where this day can be held precious.

Home Alison Blunt, Robyn Dowling, 2006-09-27 Home is a significant geographical and social concept. It is not only a three dimensional structure, a shelter, but it is also a matrix of social relations and has wide symbolic and ideological meanings. Home can be feelings of belonging or of alienation; feelings of home can be stretched across the world, connected to a nation or attached to a house. The spaces and imaginaries of home are central to the construction of people's identities. An essential guide to studying home and domesticity, this book locates home within wider traditions of thought. It analyzes different sources, methods and examples in both historical and contemporary contexts, ranging from homes on the American frontier and imperial domesticity in British India to Australian suburbs, multicultural London and South Asian diasporic homes. The core argument of the book has three main parts that cut across each of its chapters: home making, identity and belonging, homely and unhomely spaces. Each chapter includes text boxes and exercises and is well illustrated with cartoons, line drawings and photographs. Outlining the social relations shaping and being influenced by the geographies of home and the imaginative as well as material importance of home, this book will be a valuable reference for students of geography, sociology, gender studies and those interested in the home and domesticity.
