Enabling Environments in the Early

Years Liz Hodgman, 2012-05-21 This title focuses on how to ensure your setting's physical space and equipment provides the most challenging and interesting environment for children in your care This book covers Assessing and improving the learning environment making the most of your outdoor space and inclusive settings

The Dynamics of Changing Higher Education in the Global South Busani Mpofu, Sabelo Ndlovu-Gatsheni, 2020-06-29 Today there are generally universities in Africa rather than African universities The legitimacy of the university in Africa is under serious questions now because of its complicity in racism patriarchy sexism colonialism capitalism genocide epistemicide linguicide culturecide and alienation In other words the university in Africa as we know it today is elitist and exclusionary Therefore rethinking the idea of the university is fundamental to overcoming its current deficiencies in the Global South This volume bringing together a number of national case studies and macro analyses on the dynamics of changing higher education in the Global South gestures towards the desired imagined decolonial African university which should be a site of multilingualism where African indigenous languages cosmologies and ontologies become a central part of its identity and soul intolerant of epistemicides linguicides and cultural imperialism but a site of cognitive and social justice that fully embraces the idea that all human beings are born into valid useful relevant and legitimate knowledge systems

Enhancing Science Learning through Learning Experiences outside School (LEOS) Sandhya Devi Coll, Richard K. Coll, 2019-09-24 The authors provide practical research informed guidelines and detailed lesson plans that improve learning of chemical physical biological and Earth space sciences The context for learning is the myriad of exciting opportunities provided by informal science institutions such as zoos museums space centers and the outdoors Many such institutions seek to educate the public and inspire budding scientists Visits outside school help students relate science to everyday life providing strong motivation to learn science for all abilities This book shows the key to making such visits effective is when they are linked to classroom learning using a learning management system drawing upon modern students fascination with digital technologies and mobile devices

The Inverted Classroom Model Eva-Marie Großkurth, Jürgen Handke, 2014-11-10 Only two years after its first run the Inverted Classroom Conference has become a familiar event at Marburg University Most conference participants not only knew about this digital teaching and learning scenario but were experienced users and developers While during its predecessors most participants wanted to familiarize themselves with the central components of the Inverted Classroom Model the focus of the 3rd German Inverted Classroom Conference in 2014 to which this conference volume is dedicated was not only a discussion of variants of the model but also for the first time the inclusion of long term evaluations and aspects of student behavior This shift of emphasis is reflected in the contributions to this volume Even though all central aspects of the ICM content production and delivery testing and the in class phase are still addressed we can now find recommendations concerning digital material acquisition in class tuition the role of student tutors as well as first long term studies about ICM effects In general then the focus was much wider than that of the first two ICM conferences from a new and originally non

familiar teaching and learning scenario to more general aspects of digitization of teaching and learning in the 21st century
