Social Sciences Gregory R. Hancock,Laura M. Stapleton,Ralph O. Mueller,2018-11-15 The Reviewer's Guide to Quantitative Methods in the Social Sciences provides evaluators of research manuscripts and proposals in the social and behavioral sciences with the resources they need to read understand and assess quantitative work 35 uniquely structured chapters cover both traditional and emerging methods of quantitative data analysis which neither junior nor veteran reviewers can be expected to know in detail The second edition of this valuable resource updates readers on each technique s key principles appropriate usage underlying assumptions and limitations providing reviewers with the information they need to offer constructive commentary on works they evaluate Written by methodological and applied scholars this volume is also an indispensable author s reference for preparing sound research manuscripts and proposals **Rulers and Ruled in Late**

Medieval England G. L. Harriss,Rowena E. Archer,Simon Walker,1995-01-01 How power was distributed and exercised is a key issue in understanding attitudes and assumptions in late medieval England The essays in this volume all deal with those

who had the power to make political decisions whether kings nobles or gentry courtiers or clergy While ultimately power rested on force it was enshrined in the law and more usually exercised by influence and by the dangling of reward Most disputes were settled without violence if often with recourse to prolonged struggles in the courts but those who offended against established interests could be punished severely as the cases of Sir John Mortimer and of Bishop Reginald Pecock show These essays presented to Gerald Harriss who has done so much to illuminate the history of the period show not only how power was exercised but also how men of the time thought about it Contributors Rowena E Archer Christine Carpenter Jeremy Catto Rosemary Horrox R W Hoyle Maurice Keen Dominic Luckett Philippa Maddern S J Payling Edward Powell Anthony Smith Simon Walker Christopher Woolgar Edmund Wright **House of Commons Debates, Official Report**

Canada. Parliament. House of Commons,1925 **How Does it Feel? Point of View in Translation** Charlotte

Bosseaux,2007-01-01 Narratology is concerned with the study of narratives but surprisingly it does not usually distinguish between original and translated texts This lack of distinction is regrettable In recent years the visibility of translations and translators has become a widely discussed topic in Translation Studies yet the issue of translating a novel s point of view has remained relatively unexplored It seems crucial to ask how far a translator s choices affect the novel s point of view and whether characters or narrators come across similarly in originals and translations This book addresses exactly these questions It proposes a method by which it becomes possible to investigate how the point of view of a work of fiction is created in an original and adapted in translation It shows that there are potential problems involved in the translation of linguistic features that constitute point of view deixis modality transitivity and free indirect discourse and that this has an impact on the way works are translated Traditionally comparative analysis of originals and their translations have relied on manual examinations this book demonstrates that corpus based tools can greatly facilitate and sharpen the process of comparison The method is demonstrated using Virginia Woolf s *To The Lighthouse* 1927 and *The Waves* 1931 and their French translations *Official Reports of the Debates of the House of Commons of the Dominion of Canada* Canada.

Parliament. House of Commons,1925 **Annual Report of the State Board of Health and Vital Statistics of the**

Commonwealth of Pennsylvania Pennsylvania. State Board of Health and Vital Statistics,1899 *Thomas Mann in English* David Horton,2013-04-11 Thomas Mann owes his place in world literature to the dissemination of his works through translation Indeed it was the monumental success of the original English translations that earned him the title of the greatest living man of letters during his years in American exile 1938 52 This book provides the first systematic exploration of the English versions illustrating the vicissitudes of literary translation through a principled discussion of a major author The study illuminates the contexts in which the translations were produced before exploring the transformations Mann s work has undergone in the process of transfer An exemplary analysis of selected textual dimensions demonstrates the multiplicity of factors which impinge upon literary translation leading far beyond the traditional preoccupation with issues of equivalence

Thomas Mann in English thus fills a gap both in translation studies where Thomas Mann serves as a constant but ill defined point of reference and in literary studies which has focused increasingly on the author's wider reception Longitudinal Research in Occupational Health Psychology Toon Taris, 2017-10-02 Occupational health psychology OHP involves the application of psychology to improving the quality of work life and to promoting and protecting the safety health and well being of employees Achieving these aims requires researchers and practitioners to possess in depth knowledge of the processes that are presumed to bring about the desired outcomes To date most studies in OHP have relied on cross sectional designs in examining these processes In such designs all variables of interest are measured simultaneously Although this has generated useful insights in how particular phenomena are associated such designs cannot be trusted when it comes to drawing causal inferences association is not causation This book therefore focuses on longitudinal research designs in OHP whereby the concepts of interest are measured several times offering much stronger evidence for causal relationships The authors focus on design issues in longitudinal research such as the number of measurements chosen and the length of the time lags between these measurements and illustrate these issues in the context of applied research on topics such as the work family interface conflict at work and employee well being By doing so this volume provides a state of the art overview of current research in OHP both in terms of its findings and methodologies This book is based on a special issue of the journal Work Stress **Miscellaneous pieces on moral science and philosophy, and on doctrinal and practical theology; with public letters on various important subjects** Edward Williams, 1862
