Seven Rays:

Introduction to the Seven Rays Kurt Abraham,1986 **The Seven Rays** Ernest Wood,1989-01-01 Wood examines the intriguing esoteric idea that humanity is divided into seven spiritual groups according to our fundamental drives and aspirations The Seven Rays of Life Alice A. Bailey,1995 The teaching on the seven rays can enable all true servers to work with greater skill and effectiveness in their chosen field of activity As Alice Bailey wrote a study of the rays will mean that we shall have a practical method of analysis whereby we can arrive at a right understanding of ourselves as ensouling entities and at a wiser comprehension of our fellow men We can then deal more intelligently with ourselves with our children and with our friends and associates We shall find ourselves able to co operate more wisely with the Plan as it is seeking expression at any particular time **Psychological Types and the Seven Rays** Kurt Abraham,1983 The Seven Rays and Nations--France and the United States Compared Kurt Abraham,1987 *Esoteric Psychology - The Seven Rays* Dr. Douglas M. Baker,2014-04-09 Esoteric Psychology The Seven Rays The knowledge of the Seven Rays provided by this book will prove of immense value to all who seek to understand human nature and to achieve enhanced self awareness and integration of personality in themselves and others This masterly written and illustrated manual is an absolutely essential starting and reference work for all those who finally respond in this lifetime to their Purpose and Inner Voice This book emphasises that all is energy and that Man is an energy unit affected from both without and within It demonstrates that Ray Psychology is essentially practical and shows how the qualities of these energies may be understood and embraced in human behaviour and today s language It is plain that psychology will play an ever increasing role in the development of new age consciousness Already today millions of people who would be regarded as laymen practise their own psychology in everyday life This tendency has been boosted by the general interest in astrology A glimpse into the future will show that the new psychology will be based on many emerging astrological factors Esoteric psychology takes into account not only hereditary and environment but draws also upon that massive third factor which is the psychic and spiritual nature of Mankind The effect of karma the influence of previous lives etc are major contributions to the behaviour of those who seek to tread the path towards spiritual enlightenment Esoteric Psychology is based on two major precepts Firstly there is a cosmic force conveying seven streams of energy into our solar system that affect the nature behaviour and evolution of all forms within the ring pass not of this system These streams are termed the Seven Rays Secondly spiritual qualities emerging from the immortal component of Man s structure affect his behaviour and modify the contributing factors of his hereditary equipment and the environment into which it is thrust **A Treatise on the Seven Rays** Bailey, Alice A,Djwhal Khul,2012-11-01 Healing is an exact and an exacting science Esoteric healing is equally scientific based on a number of requirements including knowledge of the constitution of man as a spiritual being and of the biology and anatomy of his physical form In this book the seven ray techniques of healing are described the laws and rules of healing are discussed basic causes of disease

are shown and requirements for healing are given in detail *Balancing the Pairs of Opposites; The Seven Rays and Education; and Other Essays in Esoteric Psychology* Kurt Abraham,1993 **Threefold Method for Understanding the Seven Rays** Kurt Abraham,2003-03 Gem Stones of the Seven Rays C. the seven days in the week the seven chakras the seven colors of the rainbow and the seven sacred planets Laying out the key principles behind this spiritual science Michel Coquet explores the seven sacred gemstones of the Seven Rays diamond sapphire emerald jasper topaz ruby and amethyst and shows that not all precious stones have true mystical powers they must be charged either naturally or through ritual with a living deva or angelic presence before they can effect spiritual transformation and physical mental and soul healing Drawing on Hindu Jewish pre Columbian and Greco Roman magical traditions with precious stones as well as their use by great initiates of history including Hildegard von Bingen Paracelsus Cornelius Agrippa Elias Ashmole Nicholas Flamel and the Count de Saint Germain Coquet examines each sacred gem s effects on the seven facets of the soul as well as their spiritual and therapeutic uses the meaning of their colors their influences on the chakras and their use in amulets talismans and other magical tools Illuminating techniques of invoking spirits into gemstones and reports of the power to enlarge diamonds at will stones that produce anesthesia and the use of gem medicines in India Coquet reveals that while gems can influence our physical mental and spiritual well being without daily work toward a gem s corresponding virtue even a consecrated stone will have no effect for the most beautiful gems are within

The Seven Rays of the Sun Helena Petrovna Blavatsky, 2017-07-31 The physical Sun is a mirror of Spiritual Fire The Seven Rays of the Spiritual Sun are Luminous Sons from which will emanate all other luminous and non luminous lives They are the fiery tongues representing the potency of formative creation inherent Logos The First Solar Ray is the most important It is Voice of the Silence It is potentially in everyman s heart Space and Time are One and Nameless the incognisable That which can be sensed only through its Rays A bright star dropped from the Heart of Eternity a beacon of hope on whose Seven Rays hang Seven Worlds of Being Seven Wise Ones the Dhyani Chohans of the Secret Doctrine fashion seven beams of light falling on paths leading to wisdom Seven Lights whose reflections are the human immortal monads each in charge of seven distinct groups of humanity They all proceed from the First Logos and from thence in innumerable series of Hierarchies Thus the Hierarchy of Compassion lights up the torch of Truth The Seven Rays or Divine Hierarchies are symbolised as concentric circles of prismatic colours in their natural order Heptactys stands for the Seven Rishis of the Second Ray the informing souls of the Seven Stars of the Great Bear and their shaktis symbolised by Pleiades or Atlantis Seven Root Races The Seven Rays and their shaktis vibrate everywhere They are personified as Motion Sound Heat Light Cohesion Electric Fluid and Nerve Force When the hour of the Solar Pralaya strikes the Eternal Avyaya First Logos will enter into the Seven Rays of the Sun and drink up all the waters of the Universe Thus fed the Seven Rays will expand to Seven Suns whose radiance will glow above below and on every side and will set the World on fire

Bailey,1995-05-14 Today two rays of great potency are functioning simultaneously The Sixth Ray of Idealism and Devotion is slowly passing out and the Seventh Ray of Ceremonial Order or Ritual is coming into manifestation This is bringing about a situation which is described in ancient archives in the following terms A time of rending when the mountains which have sheltered fall from their high places and the voices of men are lost in the crash and thunder of the fall Such periods come only rarely and each time they come a peculiarly significant period of divine activity is ushered in old things pass away yet the ancient landmarks are restored **Ascension Magick** Christopher Penczak,2007 This practical how to guide brings a new level of clarity and synthesis to the often misunderstood path of ascension the spiritual practice of integrating higher consciousness into everyday life This comprehensive reference work explores ascension theology and techniques from a magickal perspective providing a solid foundation for beginners and greater depth and context for those already on the ascension path Powerful meditations rituals and spells for personal and planetary healing are included along with more fascinating information [The Secret of the Veda](#) Sri Aurobindo,2003 A study of the way of writing of the Vedic mystics their philosophic system their system of symbols and the truths they figure and translations of selected hymns of the Rig Veda Is there at all or is there still a secret of the Veda Sri Aurobindo asks in the opening sentence of this book He examines the ritualistic and naturalistic theory of nineteenth century European scholars and then sets forth his own view The hypothesis I propose is that the Rig veda is itself the one considerable document that remains to us from the early period of human thought of which the historic Eleusinian and Orphic mysteries were the failing remnants when the spiritual and psychological knowledge of the race was concealed for reasons now difficult to determine in a veil of concrete and material figures and symbols which protected the sense from the profane and revealed it to the initiated To disengage this less obvious but more important sense of the Vedic ritual system by fixing the import of Vedic terms the sense of Vedic symbols and the psychological functions of the Gods is thus a difficult but necessary task for which these chapters and the translations that accompany them are only a preparation Contents The Problem and its Solution A Retrospect of Vedic Theory Modern Theories The Philological Method of the Veda Agni and the Truth The Victory of the Fathers The Conquest over the Dasyus Selected Hymns Hymns of the Atris The Origins of Aryan Speech Subjects Indology Philosophy
