Ann Gray, Erin Bell, 2013-01-03 In recent years non-fiction history programmes have flourished on television This interdisciplinary study of history programming identifies and examines different genres employed by producers and tracks their commissioning production marketing and distribution histories With comparative references to other European nations and North America the authors focus on British history programming over the last two decades and analyse the relationship between the academy and media professionals They outline and discuss often competing discourses about how to do history and the underlying assumptions about who watches history programmes History on Television considers recent changes in the media landscape which have affected to a great degree how history in general and whose history in particular appears onscreen Through a number of case studies using material from interviews by the authors with academic and media professionals the role of the professional historian and that of media professionals commissioning editors and producer directors as mediators of historical material and interpretations is analysed and the ways in which the logics of television shape historical output are outlined and discussed Building on their analysis Ann Gray and Erin Bell ask if history on television fulfils its potential to be a form of public history through offering as it does a range of interpretations of the past to and originating from or including those not based in the academy Through consideration of the representation or absence of the diversity of British identity gender ethnicity and race social status and regional identities the authors substantially extend the scope of existing scholarship into history on television History on Television will be essential reading for all those interested in the complex processes involved in the representation of history on television **The Bayeux Tapestry** John F.

Szabo, Nicholas E. Kuefler, 2015-06-18 Commanding its own museum and over 200 years of examination observation and scholarship the monumental embroidery known popularly as the Bayeux Tapestry and documenting William the Conqueror's invasion of England in October 1066 is perhaps the most important surviving artifact of the Middle Ages This magnificent textile both celebrated and panned is both enigmatic artwork and confounding historical record With over 1780 entries Szabo and Kuefler offer the largest and most heavily annotated bibliography on the Tapestry ever written Notably the Bayeux Tapestry has produced some of the most compelling questions of the medieval period Who commissioned it and for what

purpose What was the intended venue for its display Who was the designer and who executed the enormous task of its manufacture How does it inform our understanding of eleventh century life And who was the mysterious Aelfgyva depicted in the Tapestry s main register This book is an effort to capture and describe the scholarship that attempts to answer these questions But the bibliography also reflects the popularity of the Tapestry in literature covering a surprisingly broad array of subjects The inclusion of this material will assist future scholars who may study references to the work in contemporary non fiction and popular works as well as use of the Bayeux Tapestry as a primary and secondary source in the classroom The monographs articles and other works cited in this bibliography reflect dozens of research areas Major themes are the Tapestry as a source of information for eleventh century material culture its role in telling the story of the Battle of Hastings and events leading up to the invasion patronage of the Tapestry biographical detail on known historical figures in the Tapestry arms and armor medieval warfare strategy and techniques opus anglicanum the Anglo Saxon needlework tradition preservation and display of the artifact the Tapestry s place in medieval art the embroidery s depiction of medieval and Romanesque architecture and the life of the Bayeux Tapestry itself

indefatigable outraged and above all very funny letter writers fail to get the Letters Page to take seriously in 2010 with the result that we have to collect their memorable missives in another book Already there are enough fulminations on Chris Evans replacing Terry Wogan to fill an entire chapter Gordon Brown s temper Bankers bonuses E books The state of Ashley and Cheryl Cole s marriage One thing is for sure the result will be the only review of the year you really need a book to make Victor Meldrew look as pure as driven snow and a handsome little volume to sell once again in its tens of thousands **The Seven Ages of an East Lothian Parish** Marshall Buchanan Lang,1929 Officially known as Whittingham Constitutions Judith Pryor,2007-08-09 Bringing a postcolonial perspective to UK constitutional debates and including a detailed and comparative engagement with the constitutions of Britain s ex colonies this book is an original reflection upon the relationship between the written and the unwritten constitution Can a nation have an unwritten constitution While written constitutions both found and define modern nations Britain is commonly regarded as one of the very few exceptions to this rule Drawing on a range of theories concerning writing law and violence from Robert Cover to Jacques Derrida Constitutions makes a theoretical intervention into conventional constitutional analyses by problematizing the notion of a written constitution on which they are based Situated within the frame of the former British empire this book deconstructs the conventional opposition between the margins and the centre as well as between the written and unwritten by paying very close detailed attention to the constitutional texts under consideration Pryor argues that Britain s unwritten constitution and immemorial common law only take on meaning in a relation of difference with the written constitutions of its former colonies These texts in turn draw on this pre literate origin in order to legitimize themselves The unwritten constitution of Britain can therefore be located and dislocated in postcolonial written constitutions Constitutions is an excellent addition to the bookshelves of all students of the philosophy of law political theory constitutional and administrative law and jurisprudence
