SEVEN METAPHYSICAL POETS

A STRUCTURAL STUDY OF THE
UNCHANGING SELF

Seven Metaphysical Poets:

Seven Metaphysical Poets Robert Ellrodt, 2000 Robert Ellrodt's study of seven poets springing from his wide-ranging three-volume work *Les Poètes métaphysiques anglais* challenges the postmodernist assumption that no definite or constant self can be traced in the works of a writer. Distinct modes of self-awareness, different emphases in the perception of time and space, and various ways of grasping the sensible and the spiritual, the human and the divine, jointly or separately, characterize the minds of Donne and George Herbert, Crashaw and Vaughan, Lord Herbert Marvell and Traherne. Fundamental mental structures affect their attitudes to love, death, and God, and dictate their privileged modes of composition and expression. Without neglecting the relations between these individual traits and the general evolution of thought from classical antiquity to the Renaissance or the immediate cultural environment in which each poet wrote, this critical study maintains the primacy of individual choice of the unchanging self. The book is not based on a theory but on a close scrutiny of the characteristic interplay of personal modes of thought and sensibility.

Seven Metaphysical Poets Robert Ellrodt, 2000 This critical study of seven metaphysical poets challenges the postmodernist assumption that no definite or constant self can be traced in the works of a writer, maintaining the primacy of individual choice and the interplay of personal modes.

Lawson, 2012-03-22 How important is childhood in the spiritual formation of a person How do children experience God in the context of their lives as they grow What does God do in the lives of children to draw them to himself and help them grow into a vital relationship with him How can adults who care about children better support their spiritual growth and direct it toward relationship with God through Jesus Christ These are critical questions that church leaders face as they consider how best to nurture the faith of the children God brings into our lives In this book over two dozen Christian scholars and ministry leaders explore important issues about the spiritual life of children and ways parents church leaders and others who care about children can promote their spiritual formation **Courtier, Scholar, and Man of the Sword** Christine Jackson, 2021 Lord Herbert of Cherbury was a flamboyant Stuart courtier soldier and diplomat known for his duelling and extravagance but also for his great intellect His life and writings offer a unique window into the aristocratic world and culture of the early seventeenth century and the outbreak and impact of the Thirty Years War and British Civil Wars *Coming To* Timothy M. Harrison, 2020-10-10 In *Coming To* Timothy M Harrison uncovers the forgotten role of poetry in the history of the idea of consciousness Drawing our attention to a sea change in the English seventeenth century when over the course of a half century conscience made a sudden shift to consciousness he traces a line that leads from the philosophy of Ren Descartes to the poetry of John Milton from the prenatal memories of theologian Thomas Traherne to the unresolved perspective on natality consciousness and ethics in the philosophy of John Locke Each of these figures responded to the first person perspective by turning to the origins of how human thought began Taken together as Harrison shows this unlikely group of thinkers sheds new light on the emergence of the concept of consciousness and the significance of human natality to central questions in the fields of literature philosophy and the history of science *The Rhetoric of the Conscience in Donne, Herbert, and Vaughan* Ceri Sullivan, 2008-09-11 There is a kind of conscience some men keepe Is like a Member that s benumb d with sleepe Which as it gathers Blood and wakes agen It shoots and pricks and feeles as bigg as ten Donne Herbert and Vaughan see the conscience as only partly theirs only partly under their control Of course as theologians said it ought to be a simple syllogism comparing actions to God s law and giving judgement in a joint procedure of the soul and its maker Inevitably though there are

Literature and the Encounter with God in Post-Reformation England Michael Martin, 2016-05-23 Each of the figures examined in this study John Dee John Donne Sir Kenelm Digby Henry and Thomas Vaughan and Jane Lead is concerned with the ways in which God can be approached or experienced Michael Martin analyzes the ways in which the encounter with God is figured among these early modern writers who inhabit the shared cultural space of poets and preachers mystics and scientists The three main themes that inform this study are Cura animarum the care of souls and the diminished role of spiritual direction in post Reformation religious life the rise of scientific rationality and the struggle against the disappearance of the Holy Arising from the methods and commitments of phenomenology the primary mode of inquiry of this study resides in contemplation not in a religious sense but in the realm of perception attendance and acceptance Martin portrays figures such as Dee Digby and Thomas Vaughan not as the eccentrics they are often depicted to have been but rather as participating in a religious mainstream that had been radically altered by the disappearance of any kind of mandatory or regular spiritual direction a problem which was further complicated and exacerbated by the rise of science Thus this study contributes to a reconfiguration of our notion of what religious orthodoxy really meant during the period and calls into question our own assumptions about what is or was orthodox and heterodox **Shakespeare and the**

D. Cousins,2016-03-02 This monograph studies how across the Folio of 1681 Marvell s poems engage not merely with different kinds of loss and aspiration but with experiences of both that were in mid seventeenth century England disturbingly new and unfamiliar It particularly examines Marvell s preoccupation with the search for home and with redefining the homeland in times of civil upheaval In doing so it traces his progression from being a poet who plays sophisticatedly with received myth to being one who is a national mythmaker in rivalry with his poetic contemporaries such as Waller and Davenant Although focusing primarily on poems in the Folio of 1681 this book considers those poems in relation to others from the Marvell canon including the Latin poems and the satires from the reign of Charles II It closely considers them as well in relation to verse by poets from the classical past and the European especially English present
