The Pauline Letters David Oliver Smith, 2022-06-17 In *The Pauline Letters A Rhetorical Analysis* David Oliver Smith unveils his revolutionary discovery that the apostle Paul divided his letters into structured literary units as he wrote them These literary units are based upon repeated words phrases and abstract concepts and are invariably patterned into chiasmic parallel or hybrid structures Using his technique of rhetorical analysis Smith sets out each literary unit in the seven undisputed letters of Paul After the structures of the literary units have been exposed the units reveal interpolations that disrupt Paul's original structure When the interpolations revealed by this technique are compared with interpolations heretofore proposed by Pauline scholars there are some surprising results Smith also uses his technique to analyze the Deutero Pauline letters to determine whether any of those letters exhibit the same literary attributes as the undisputed letters

The Oxford Handbook of Pauline Studies Matthew V. Novenson, R. Barry Matlock, 2022-04-08 The *Oxford Handbook of Pauline Studies* brings together a diverse international group of experts on the apostle Paul It examines the authentic texts from his own hand other ancient texts falsely attributed to him the numerous early Christian legends about him and the many meanings that have been and still are made of these texts to give a twenty first century snapshot of Pauline Studies Divided into five key sections the Handbook begins by examining Paul the person a largely biographical sketching of the life of Paul himself to the limited extent that it is possible to do so It moves on to explore Paul in context and Pauline Literature looking in detail at the letters manuscripts and canons that constitute most of our extant evidence for the apostle Part Four uses a number of classic motifs to describe what

modern experts describe as Pauline Theology and Part Five considers the many productive reading strategies with which recent interpreters have made meaning of the letters of Paul. It is demonstrated that reading Paul is not and never has been just one thing. It has always been a matter of the particular questions and interests that the reader brings to these very generative texts. The Oxford Handbook of Pauline Studies thoroughly surveys the state of Pauline studies today, paying particular attention to theory and method in interpretation. It considers traditional approaches alongside recent approaches to Paul, including gender, race, and ethnicity, and material culture. Brought together, the chapters are an ideal resource for teachers and students of Paul and his letters.

Text and Paratext Gregory Goswell, 2023-01-25. The neglected contexts for biblical interpretation. Context is king, so the maxim goes. Sensitivity to context of a verse, chapter, or book is essential for proper biblical interpretation. Yet the Bible contains another set of key clues that readers rarely consider. In *Text and Paratext*, Gregory Goswell explores paratext and its implications for biblical interpretation. Paratextual features are the parts of a text that surround the main text itself, such as a book's canonical location, title, and internal divisions. These features have been intentionally added to support the text and direct readers. Different arrangements of the Old and New Testaments reveal connections and associations. A book's title announces the focus of its content. Book divisions create breaks and form units of text. Commentary is baked into paratextual features, making every Bible a study Bible. Rather than veiling the text's meaning, paratext highlights interpretive possibilities, both ancient and fresh. While often overlooked, paratextual features guided interpretation throughout church history and should inform our study of Scripture today. With the help of glossaries and study questions, Goswell's study equips readers to understand paratext and its implications and become better interpreters of the Bible.

New Testament Theology Jon Isaak, 2011-01-01. New Testament theology ought to be both descriptive and constructive; this is the argument of *New Testament Theology: Extending the Table*. According to Isaak, New Testament theology is descriptive in that it deals with the accounts that people narrate of their experience with Yahweh, the God of Israel, in the light of Easter. It is constructive in that it joins the diverse testimonies of the New Testament writers into a textured and thick space within which contemporary followers of Jesus continue to be shaped by the ancient yet living Spirit of God. Isaak's approach is historical, thematic, and theological in orientation. It explores the conversation taking place around the table where the writers of the NT share their guiding vision of God's saving work among them and their passion for the Christian church engaged in God's mission. The differing perspectives of the New Testament authors are held together without reduction, forming a deep and rich space within which ongoing community reflection and praxis can take place.

The Pauline History of Hebrews Assistant Professor Department of Religion Warren Campbell, Warren Campbell, 2025-06-20 The Letter to the Hebrews is a confounding book in the New Testament For one it is not really a letter Nor is the author of this indistinctly titled letter named or identified In fact many of the rudimentary questions surrounding its intended audience date and provenance seem impermeable Rather than see anonymity as an unresolved problem as a lack in the text that needs to be resolved Warren Campbell embraces anonymity as a vantage point from which to observe the Pauline history of the Hebrews in a new way that is how Hebrews was made to be Pauline
