artillery at Toulon and the whiff of grapeshot in Paris that netted him control of the Army of Italy where his incredible performance catapulted him to fame The author vividly traces Napoleon s campaigns as a general of the French Revolution and emperor of the French knowledgeably analyzing each battle s successes and failures The author depicts Napoleon s art of war as a system of engaging the enemy waiting for him to make a mistake improvising a plan on the spot and winning Far from detracting from Bonaparte s reputation his blunders rather made him a great general a natural who depended on his intuition and ability to read battlefields and his enemy to win Exploring this neglected aspect of Napoleon s battlefield genius Connelly at the same time offers stirring and complete accounts of all the Napoleonic campaigns **Battling the Elements**

LeDonne,2004 At its height the Russian empire covered eleven time zones and stretched from Scandinavia to the Pacific Ocean Arguing against the traditional historical view that Russia surrounded and threatened by enemies was always on the defensive John P LeDonne contends that Russia developed a long term strategy not in response to immediate threats but in line with its own expansionist urges to control the Eurasian Heartland LeDonne narrates how the government from Moscow and Petersburg expanded the empire by deploying its army as well as by extending its patronage to frontier societies in return for their serving the interests of the empire He considers three theaters on which the Russians expanded the Western Baltic Germany Poland the Southern Ottoman and Persian Empires and the Eastern China Siberia Central Asia In his analysis of military power he weighs the role of geography and locale as well as economic issues in the evolution of a larger imperial strategy Rather than viewing Russia as peripheral to European Great Power politics LeDonne makes a powerful case for Russia as an expansionist militaristic and authoritarian regime that challenged the great states and empires of its time **Air University Periodical Index** ,1958 **Air University Library Index to Military**

ruler of Russia for the first quarter of the nineteenth century is remembered today mainly on three counts as the Tsar who refused to make peace with the French when Moscow fell in 1812 as the idealist who sought to bind Europe's sovereigns in a Holy Alliance in 1815 and as the Emperor who died or gave the impression of having died at the remote southern seaport of Taganrog in the winter of 1825 Recent interest has concentrated perhaps excessively on the third of these dramatic episodes although it is natural that the epic years of the struggle with Napoleon should continue to excite the historical imagination He has been dubbed The Enigmatic Tsar There are many contrasting opinions of him Thomas Jefferson declared A more virtuous man I believe does not exist nor one who is more enthusiastically devoted to better the condition of mankind Castlereagh thought well of him too but both Metternich and Napoleon considered him inconsistent and untrustworthy And Pushkin famously described him as a Sphinx who carried his riddle with him to the tomb an assessment even more piquant if it is true as some maintain his tomb is empty With his customary blend of meticulous scholarship and agreeable writing Alan Palmer provides the most balanced and engaging portrait imaginable A pleasure to read and unlikely to be replaced for many years Philip Ziegler The Times Excellent a major biographical achievement a notable contribution to our understanding of this still enigmatic monarch Robert Blake Spectator Annual Report of the State Board of Public Roads of the State of Rhode Island Rhode Island.
