Bureaucratic Culture and Escalating World Problems Bernard S Phillips, J. David Knottnerus, 2015-12-03 On the fiftieth anniversary of the publication of *The Sociological Imagination* by C Wright Mills the bureaucratic ethos that he described continues to define our world more than ever before In *Bureaucratic Culture and Escalating World Problems* eleven contributors systematically continue and develop Mills broad vision of the scientific method They analyse escalating bureaucratic barriers that prevent us from solving our many pressing social environmental and economic problems

Documentary Aesthetics in the Long 1960s in Eastern Europe and Beyond, 2023-12-18 This book is the first to deal with documentary aesthetic practices of the post war period in Eastern Europe in a comparative perspective The contributions examine the specific forms and modes of documentary representations and the role they played in the formation of new aesthetic trends during the cultural political transition of the long 1960s This documentary first hand approach to the world aimed to break up unquestioned ideological structures and expose tabooed truths in order to engender much needed social changes New ways of depicting daily life writing testimony or subjective reportage emerged that still shape cultural debates today

The Soviet Union at War, 1941-1945 David Stone, 2010-11-10 Hitlers invasion of the Soviet Union in 1941 precipitated a massive clash of arms

that gave rise to destruction and suffering on an unprecedented scale The outcome of this ruthless struggle on the Eastern Front was decisive for the course of the war in Europe Yet the campaigns fought there still receive less attention than those fought by the Western Allies and are less well understood That is why this new survey of the Soviet Union during the Second World War edited by David R Stone is so timely and significant Stone has brought together a distinguished group of experts who give a penetrating reassessment of the Soviet war effort and economy They offer a telling insight into the way in which enormous obstacles were overcome and sacrifices were made in order to achieve an overwhelming victory that changed the shape of Europe Their wide ranging analysis seeks to dispel myths and misperceptions that have distorted our understanding of the performance of the Red Army and the Soviet people Editor David R Stone is professor of history at Kansas State University He is a leading authority on the military and political history of the Soviet Union in the 1920s and 1930s As well as writing numerous journal articles he is the author of two major studies *A Military History of Russia From Ivan the Terrible to the War in Chechnya* and *Hammer and Rifle The Militarization of the Soviet Union 1926-1933*

The Lost Spy: An American in Stalin's Secret Service Andrew Meier, 2009-08-10 Filled with dramatic revelations The Lost Spy may be the most important American spy story to come along in a generation exploring the life and death of Isaiah Oggins one of the first Americans to spy for the Soviets of illustrations

History Is a Contemporary Literature Ivan Jablonka, 2018-05-15 Ivan Jablonka's *History Is a Contemporary Literature* offers highly innovative perspectives on the writing of history the relationship between literature and the social sciences and the way that both social scientific inquiry and literary explorations contribute to our understanding of the world Jablonka argues that the act and art of writing far from being an afterthought in the social sciences should play a vital role in the production of knowledge in all stages of the researcher's work and embody or even constitute the understanding obtained History along with sociology and anthropology can he contends achieve both greater rigor and wider audiences by creating a literary experience through a broad spectrum of narrative modes Challenging scholars to adopt investigative testimonial and other experimental writing techniques as a way of creating and sharing knowledge Jablonka envisions a social science literature that will inspire readers to become actively engaged in understanding their own pasts and to relate their histories to the present day Lamenting the specialization that has isolated the academy from the rest of society *History Is a Contemporary Literature* aims to bring imagination and audacity into the practice of scholarship drawing on the techniques of literature to strengthen the methods of the social sciences

Eleven Winters of Discontent Sherzod Muminov, 2022-01-04 The odyssey of 600 000 imperial Japanese soldiers incarcerated in Soviet labor camps after World War II and their fraught repatriation to postwar Japan In August 1945 the Soviet Union seized the Japanese puppet state of Manchukuo and the colony of Southern Sakhalin capturing more than 600 000 Japanese soldiers who were transported to labor camps across the Soviet Union but primarily concentrated in Siberia and the Far East Imprisonment came as a surprise to the soldiers who thought they were being shipped home The Japanese

prisoners became a workforce for the rebuilding Soviets as well as pawns in the Cold War. Alongside other Axis POWs they did backbreaking jobs from mining and logging to agriculture and construction. They were routinely subjected to reeducation glorifying the Soviet system and urging them to support the newly legalized Japanese Communist Party and to resist American influence in Japan upon repatriation. About 60 000 Japanese didn't survive Siberia. The rest were sent home in waves, the last lingering in the camps until 1956. Already laid low by war and years of hard labor, returnees faced the final shock and alienation of an unrecognizable homeland transformed after the demise of the imperial state. Sherzod Muminov draws on extensive Japanese, Russian and English archives including memoirs and survivor interviews to piece together a portrait of life in Siberia and in Japan afterward. *Eleven Winters of Discontent* reveals the real people underneath facile tropes of the prisoner of war and expands our understanding of the Cold War front. Superpower confrontation played out in the Siberian camps as surely as it did in Berlin or the Bay of Pigs. *Imagined Dialogues* Gordana Crnković, 2000. By conducting imagined dialogues between selected literary works, Eastern Europeans like Kis and Borowski on one hand, American and English writers like Cage and Ishiguro on the other, this book proposes an effective new way of reading literature, one that goes beyond the narrowing categories of contemporary critical trends. A new perspective on each of the works emerges as well as a heightened sense of the liberating power of literature. **Homo Poeticus** Danilo Kis, 2003-11. Serbian writer Danilo Kis was preoccupied with man's dehumanization in a mechanized totalitarian world. His dazzling fiction established him as one of the most artful and eloquent authors of postwar Europe. In this first collection of his non-fiction, Kis displays the dynamic, sensitive and insistently questioning approach to the dilemmas of the modern world that distinguishes his novels and stories and confirms his reputation as one of the most important voices of our time. *The Soviet Sixties* Robert Hornsby, 2023-01-01. The story of a remarkable era of reform, controversy, optimism and Cold War confrontation in the Soviet Union. Beginning with the death of Stalin in 1953, the sixties era in the Soviet Union was just as vibrant and transformative as in the West. The ideological romanticism of the revolutionary years was revived with renewed emphasis on egalitarianism, equality and the building of a communist utopia. Mass terror was reined in, great victories were won in the space race, Stalinist cultural dogmas were challenged and young people danced to jazz and rock and roll. Robert Hornsby examines this remarkable and surprising period, showing that even as living standards rose, aspects of earlier days endured. Censorship and policing remained tight and massacres during protests in Tbilisi and Novocherkassk, alongside invasions of Hungary and Czechoslovakia, showed the limits of reform. The rivalry with the United States reached perhaps its most volatile point, friendship with China turned to bitter enmity and global decolonization opened up new horizons for the USSR in the developing world. These tumultuous years transformed the lives of Soviet citizens and helped reshape the wider world. **Criminal Subculture in the Gulag** Mark Vincent, 2020-05-14. Despite growing academic interest in the Gulag, our knowledge of the camps as a lived experience remains relatively incomplete. *Criminal Subculture in the Gulag* in its

sophisticated analysis of crime punishment and everyday life in Soviet labour camps rectifies this From Gulag journals and song collections to tattoo drawings and dictionaries of slang Mark Vincent draws on often overlooked archival material from the Moscow Criminological Bureau to reconstruct a fuller picture of Gulag daily life and society In thematic chapters Vincent maps the Gulag penal arc of prisoners across initiation tests means of communication the importance of card playing punishment rituals and the notorious 1948 52 cyka bitches internal prison war between military veterans and vory v zakone Most importantly this timely examination of crime and punishment in modern Russia also highlights the lines of continuity between the Gulag systems late Imperial Katorga and today s Russian mafia As such this impressively interdisciplinary volume is important reading for all scholars of 20th century Russia as well as those interested in international criminality and penology

Gulag Literature and the Literature of Nazi Camps Leona Toker, 2019-08-28 A literary scholar examines survival narratives from Russian and German concentration camps shedding new light on testimony in the face of evil In this illuminating study Leona Toker demonstrates how Holocaust literature and Gulag literature provide contexts for each other especially how the prominent features of one shed light on the veiled features and methods of the other Toker s analysis concentrates on the narrative qualities of the works as well as how each text documents the writer s experience in a form where fictionalized narrative can double as historical testimony Toker also views these texts against the background of historical information about the Soviet and the Nazi regimes of repression Writers at the center of this work include Varlam Shalamov Primo Levi Elie Wiesel and Ka Tzetnik and others including Aleksandr Solzhenitsyn Evgeniya Ginzburg and Jorge Sempr n illuminate the discussion Toker also provides context for references to potentially obscure historical events and shows how they form new meaning in the text
