The Court Artist in

Seventeenth-Century Italy Elena Fumagalli, Raffaella Morselli, 2015-05-08T00:00:00+02:00 Up to now the theme of the artist in the service of Italian courts has been examined in various studies focused mostly on the High Renaissance as though the phenomenon was relevant only to the XV and XVI centuries It actually lasted much longer spanning the whole longue dur e of the lives of the courts of the ancient regime The present volume intends to fill this gap presenting for the first time a comprehensive examination of the subject of the court artist from sixteenth to seventeenth century and the transformations of this role Court artist is here defined as one who received a regular salary and was therefore attached to the court by a more or less exclusive service relationship The book is divided in six chapters each of them examines the position of the court artist in the service of the most important ruling families in Italy the Savoy in Turin the Gonzaga in Mantua the Este in Modena the Della Rovere in Pesaro and Urbino the Medici in Florence and in papal Rome a particular and unique center of power Art and Identity in Early Modern Rome Jill Burke, 2017-07-05

From the late fifteenth to the late seventeenth century Rome was one of the most vibrant and productive centres for the visual arts in the West Artists from all over Europe came to the city to see its classical remains and its celebrated contemporary art works as well as for the opportunity to work for its many wealthy patrons They contributed to the eclecticism of the Roman artistic scene and to the diffusion of Roman artistic styles in Europe and beyond Art and Identity in Early Modern Rome is the first book length study to consider identity creation and artistic development in Rome during this period Drawing together an international cast of key scholars in the field of Renaissance studies the book adroitly demonstrates how the exceptional quality of Roman court and urban culture with its elected monarchy its large foreign population and unique sense of civic identity interacted with developments in the visual arts With its distinctive chronological span and uniquely interdisciplinary approach Art and Identity in Early Modern Rome puts forward an alternative history of the visual arts in early modern Rome one that questions traditional periodisation and stylistic categorisation **Art, Patronage, and Nepotism in Early Modern Rome** Karen J. Lloyd, 2022-08-19

Drawing on rich archival research and focusing on works by leading artists including Guido Reni and Gian Lorenzo Bernini Karen J Lloyd demonstrates that cardinal nephews in seventeenth century Rome those nephews who were raised to the cardinalate as princes of the Church used the arts to cultivate more than splendid social status Through politically savvy frescos and emotionally evocative displays of paintings sculptures and curiosities cardinal nephews aimed to define nepotism as good Catholic rule Their commissions took advantage of their unique position close to the pope embedding the defense of their role into the physical fabric of authority from the storied vaults of the Vatican Palace to the sensuous garden villas that fused business and pleasure in the Eternal City This book uncovers how cardinal nephews crafted a seductively potent dialogue on the nature of power fuelling the development of innovative visual forms that championed themselves as the indispensable

heart of papal politics The book will be of interest to scholars working in art history early modern studies religious history and political history

Patrons and Adversaries Caroline Castiglione, 2005-02-03 The early modern Roman countryside was a site of contestation between great aristocratic families and an expanding papal political regime Rarely has the role of the inhabitants of this landscape the villagers been considered as part of that power struggle As Caroline Castiglione shows in this compelling revisionist work one Roman aristocratic family the Barberini was not squeezed out of governing by the extension of the papal bureaucracy but rather became increasingly engaged with it during the long eighteenth century Through their participation in the rural commune villagers in an extensive territory belonging to the Barberini became active participants in the governing of the countryside Villagers cultivated and exploited interference from the aristocratic family and the papal government but they also kept urban elites at bay defending their rights through the strategies of adversarial literacy Such literate practices drew on village mastery of local constitutions debates in the village assembly and brilliant use of the legal system of the papacy to thwart the designs of the Barberini Later villagers created and interpreted sources for themselves effectively challenging the

elite monopoly on making and interpreting texts A lost world of increasingly savvy villagers irate nobles and exasperated bureaucrats emerges here in an engaging narrative that chronicles how seemingly marginalized villagers challenged the pragmatic control of the Roman countryside using texts and ideas that urban elites had exported to the countryside for other purposes

of a modern artistic practice in the Greek manner Reconstruction of Duquesnoy's Greek ideal enables Lingo to offer new interpretations of his exquisite marble and bronze sculptures Moreover she demonstrates that the archeological and poetic vision of Greek art developed by Duquesnoy and his circle formed the basis of Johann Joachim Winckelmann's influential *Reflections on the Imitation of Greek Works in Painting and Sculpture* thus overturning the long held assumption that no meaningful distinction was made between ancient Greek and Roman art prior to Winckelmann's work in the eighteenth century Examining in detail how Duquesnoy developed and employed his Greek manner Lingo brings to light the extent of his contributions to European culture and aesthetics and to the rise of Neoclassicism
