Dolby, 2010-10-01 Understanding instead of lamenting the popularity of self help books Based on a reading of more than three hundred self help books Sandra K Dolby examines this remarkably popular genre to define self help in a way that s compelling to academics and lay readers alike Self Help Books also offers an interpretation of why these books are so popular arguing that they continue the well established American penchant for self education they articulate problems of daily life and their supposed solutions and that they present their content in a form and style that is accessible rather than arcane Using tools associated with folklore studies Dolby then examines how the genre makes use of stories aphorisms and a worldview that is at once traditional and contemporary The overarching premise of the study is that self help books much like fairy tales take traditional materials especially stories and ideas and recast them into extended essays that people happily read think about try to apply and then set aside when a new embodiment of the genre comes along *The Newt Gingrich Quiz Book* Ted Rueter, Theodore Rueter, 1995 Since he was elected Speaker of the House in December 1994 Newt Gingrich has been a subject of nationwide fascination Two seats away from the presidency the Speaker wields power in his own stalwart style and has become his own sort of celebrity In Reuter s assessment everyone captivated by this consummate politician will learn and laugh about the details that make Newt so compelling *The 700 Habits of Highly Ineffective Parents* Jonathan Biggins, 2010-09-01 Catering to the generation that has been handed the world on an Ikea plate and has prospered in an unprecedented age of peace and economic growth this entertaining reference contains laugh out loud anecdotes on parents and parenting Equally perfect for those who jump at the slightest cough from a baby thermometer in one hand telephone in the other and finger poised to speed dial the doctor as it is for those who cover the fridge with the scrawled masterpieces of their toddlers to encourage their artistic genius this guide both satirizes and comforts parents From documenting the lives of parents who lie awake at night fretting that they didn t inculcate their eight year old with enough self esteem to those who anticipate disaster if anyone has undocumented nut allergies at a birthday party this hilarious handbook is guaranteed to give peace of mind to even the most high strung moms and dads **Professors Are from Mars®, Students Are from Snickers®** Ronald A.
