Barry Rutland,1997 It is impossible to imagine a community that is not divided

into at least two gender groups It is equally impossible to imagine a community that does not tell or enact stories The relationship between these universal aspects of human culture is the mainspring of Gender and Narrativity From Genesis to Freud the Western narrative tradition tells the same old story of masculine dominance feminine subservience as a matter of divine will or natural truth Here nine Canadian scholars challenge and interpret this tradition in effect re telling the story of

gender and themselves intervening in the narrative process Critical readings from a wide range of literary texts medieval and modern European and Canadian replace abstract theory in these studies while sociology anthropology psychoanalysis deconstruction and new history are the axes of discussion This book exemplifies the current range and diversity of Canadian critical writing     Storytelling, Narrative, and the Thematic Apperception Test Phebe Cramer,1996-05-03 This volume is about a particular kind of story telling Known as the Thematic Apperception Test TAT it is a systematic approach to story telling that provides clinicians with an effective method for investigating those original and highly personal themes that constitute the unique personality of each individual The first half of the book illuminates the meaning of narratives and the second half explores their implications for therapeutic understanding and treatment Topics covered include The history and development of the TAT The importance of context in storytelling How stories are transformed over time What narratives may reveal about personality organization How narratives may alter according to age gender or as a result of defense mechanisms The use of the TAT for research studies     Modern Ego Psychology and Human Sexual Experience Eric R. Marcus,2022-10-21 This text examines human sexuality through psychoanalytic theory and modern ego psychology which looks at emotional meaning and its organization in symbolic representations of affect as organized by the ego It starts with an exploration of how symbolic representations are applied to the sensory experience of the body in human sexuality both in reality and in fantasy Next the author delves into the phenomenon of romance as an important self state in human growth and development The book concludes with an examination of fetishes and fetish enactments followed by a discussion of relevant treatments With its original and fulsome insights into the workings of human sexuality this book will prove vital for psychoanalysts and psychotherapists in training and in practice as well as all those seeking to understand human sexual experiences in greater depth The Open Access version of this book available at <http://www.taylorfrancis.com> has been made available under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4 0 license     **The Sexual Politics of Jean-Jacques Rousseau** Joel Schwartz,1985-10-15 Joel Schwartz presents the first systematic treatment of Rousseau s understanding of the political importance of women sexuality and the family Using both Rousseau s lesser known literary works and such major writings as *Emile* *Julie* and *The Second Discourse* he offers an original and provocative presentation of Rousseau s argument To read Rousseau Schwartz believes is to enter into a profound discourse about the meaning of sexual equality and the opportunities pitfalls costs and benefits that sexual relationships bestow and impose on us all His own thoughtful reading of Rousseau opens up fresh perspectives on political philosophy and the history of sexual masculine and feminine psychology     *The Sexual Century* Ethel Spector Person,1999-01-01 Over the course of the past century sexual liberation has transformed the way in which most of us regard our bodies and live our sexual lives Now a preeminent psychoanalytic theoretician on sex and gender discusses what has gone into this unquiet revolution the roles played by sexologists and psychoanalysts antibiotics and birth control the liberation movements and Freud s insight that sex

has as much to do with the mind as with the genitals In this collection of new and previously published papers Ethel Person writes of the centrality of sexuality to our identity She describes the role of fantasy in desire its different expression in the sexes and the way in which desire is inevitably intertwined with power Her classic papers on transvestism transsexualism and cross dressing homosexuals written with Lionel Ovesey help us to understand how gender and sex develop in all of us The public acceptance of the transsexual says Person is emblematic of the profound scientific and intellectual shifts that have taken place in the past hundred years The way that sex and gender develop and are experienced and expressed is the result not only of nature and nurture but also of the cultural zeitgeist its unspoken values and biases Love, Tears, and the Male Spectator Kenneth MacKinnon, 2002 Rather it was constructed by the film text Over time though understanding of that position has changed Now the male spectator has begun to be conceived of as an actual male in the audience Woman's Power, Man's Game Joy K.
