Completed by: _____ Offender Name: _____ Number _____
(Name) (ADC/CJA, or other ID)
Agency: _____ Date: _____ DOB: _____

GENERAL INSTRUCTIONS: Two risk scales will be calculated, including Sex Offense Risk (S) and General Recidivism Risk (G). The combination of the two scales will be used to determine a suggested notification level for the offender. Two risk scores, designated S/G, will be assigned for each of 19 items as indicated below. These scores will be added at the end of the form to arrive at the total assessment score. Unless otherwise noted, use only officially documented data sources (Psd, Dd, NCIC, FBI, prison records); where indicated, self-reported data may be included if considered reliable. Leave items blank that have no information documented only if a reasonable approximation is not possible. In many instances, if data is not available, an item may logically be judged as absent. For example, if alcohol/drug problems are not noted in the case file, item #12 would be scored as A, indicating "no interference with functioning."
