The American South William J. Cooper Jr., Thomas E. Terrill, Christopher Childers, 2016-11-17 In *The American South A History* Fifth Edition William J. Cooper Jr and Thomas E. Relative Races Brigitte Fielder, 2020-09-21 In *Relative Races* Brigitte Fielder presents an alternative theory of how race is ascribed Contrary to notions of genealogies by which race is transmitted from parents to children the examples Fielder discusses from nineteenth century literature history and popular culture show how race can follow other directions Desdemona becomes less than fully white when she is smudged with Othello's blackface a white woman becomes Native American when she is adopted by a Seneca family and a mixed race baby casts doubt on the whiteness of his mother Fielder shows that the genealogies of race are especially visible in the racialization of white women whose whiteness often depends on their ability to reproduce white family and white supremacy Using black feminist and queer theories Fielder presents readings of personal narratives novels plays stories poems and images to illustrate how interracial kinship follows non heteronormative non biological and non patrilineal models of inheritance in nineteenth century literary culture

Faithful Bodies Heather Miyano Kopelson, 2019-03-12 In the seventeenth century English Atlantic religious beliefs and practices played a central role in creating racial identity English Protestantism provided a vocabulary and structure to describe and maintain boundaries between insider and outsider In this path breaking study Heather Miyano Kopelson peels back the layers of conflicting definitions of bodies and competing practices of faith in the puritan Atlantic demonstrating how the categories of white black and Indian developed alongside religious boundaries between Christian and heathen and between Catholic and Protestant *Faithful Bodies* focuses on three communities of Protestant dissent in the Atlantic World Bermuda Massachusetts and Rhode Island In this puritan Atlantic religion determined insider and outsider status at times Africans and Natives could belong as long as they embraced the Protestant faith while Irish Catholics and English Quakers remained suspect Colonists interactions with indigenous peoples of the Americas and with West Central Africans shaped their understandings of human difference and its acceptable boundaries Prayer religious instruction sexual behavior and other public and private acts became markers of whether or not blacks and Indians were sinning Christians or godless heathens As slavery became law transgressing people of color counted less and less as sinners in English puritans eyes even as some of them made Christianity an integral part of their communities As Kopelson shows this transformation proceeded unevenly but inexorably during the long seventeenth century

Sommerville, 2005-10-12 Challenging notions of race and sexuality presumed to have originated and flourished in the slave South Diane Miller Sommerville traces the evolution of white southerners' fears of black rape by examining actual cases of black on white rape throughout the nineteenth century Sommerville demonstrates that despite draconian statutes, accused black rapists frequently avoided execution or castration largely due to intervention by members of the white community This leniency belies claims that antebellum white southerners were overcome with anxiety about black rape In fact Sommerville argues there was great fluidity across racial and sexual lines as well as a greater tolerance among whites for intimacy between black males and white females According to Sommerville, pervasive misogyny fused with class prejudices to shape white responses to accusations of black rape even during the Civil War and Reconstruction periods a testament to the staying power of ideas about poor women's innate depravity Based predominantly on court records and supporting legal documentation, Sommerville's examination forces a reassessment of long-held assumptions about the South and race relations as she remaps the social and racial terrain on which southerners black and white rich and poor related to one another over the long nineteenth century
