## **Sex And Violence The Psychology Of Crime And Risk Assessment:**

**Sex and Violence** David P. Farrington, Clive R. Hollin, Mary McMurren, 2001 This anthology examines Love's Labours Lost from a variety of perspectives and through a wide range of materials. Selections discuss the play in terms of historical context, dating and sources, character analysis, comic elements and verbal conceits, evidence of authorship, performance analysis and feminist interpretations. Alongside theater reviews, production photographs and critical commentary, the volume also includes essays written by practicing theater artists who have worked on the play. An index by name, literary work and concept rounds out this valuable resource.

**Clinician's Handbook of Adult Behavioral Assessment** Michel Hersen, 2011-04-28 Given the vast amount of research related to behavioral assessment, it is difficult for clinicians to keep abreast of new developments. In recent years, there have been advances in assessment, case conceptualization, treatment planning, treatment strategies for specific disorders, and considerations of new ethical and legal issues. Keeping track of advances requires monitoring diverse resources, limited to specific disorders, many of which are theoretical rather than practical or that offer clinical advice without providing the evidence base for treatment recommendations. This handbook was created to fill this gap, summarizing critical information for adult behavioral assessment. The Clinician's Handbook of Adult Behavioral Assessment provides a single source for understanding new developments in this field, cutting across strategies, techniques, and disorders. Assessment strategies are presented in context with the research behind those strategies, along with discussions of clinical utility and how assessment and conceptualization fit in with treatment planning. The volume is organized in three sections, beginning with general issues, followed by evaluations of specific disorders and problems, and closing with special issues. To ensure cross-chapter consistency in the coverage of disorders, these chapters are formatted to contain an introduction, assessment strategies, research basis, clinical utility, conceptualization, and treatment planning, a case study, and summary. Special issue coverage includes computerized assessment, evaluating older adults, behavioral neuropsychology, ethical/legal issues, work-related issues, and value change in adults with acquired disabilities. Suitable for beginning and established clinicians in practice, this handbook will provide a ready reference toward effective adult behavioral assessment.

**The Psychology of Criminal Conduct** James Bonta, D. A. Andrews, 2016-11-10 The Psychology of Criminal Conduct, Sixth Edition, provides a psychological and evidence-informed perspective of criminal behavior that sets it apart from many criminological and mental health explanations of criminal behavior. Drawing upon the General Personality and Cognitive Social Learning theory, James Bonta and Donald Andrews provide an overview of the theoretical context and major knowledge base of the psychology of criminal conduct, discuss the eight major risk/need factors of criminal conduct, examine the prediction and classification of criminal behavior along with prevention and rehabilitation, and summarize the major issues in understanding criminal conduct. This book also offers the Risk/Need/Responsivity (RNR) model of offender assessment and treatment that has guided developments in the subject throughout the world. In this edition, the first since

Andrews death Bonta carefully maintains the book's original contributions while presenting these core concepts succinctly clearly and elegantly. Appropriate for advanced undergraduates and graduate students as well as for scholars, researchers and practitioners. The Psychology of Criminal Conduct Sixth Edition further extends and refines the author's body of work.

**The SAGE Encyclopedia of Criminal Psychology** Robert D. Morgan, 2019-04-25. The SAGE Encyclopedia of Criminal Psychology will be a modern interdisciplinary resource aimed at students and professionals interested in the intersection of psychology e.g. social, forensic, clinical, criminal justice, sociology and criminology. The interdisciplinary study of human behavior in legal contexts includes numerous topics on criminal behavior, criminal justice policies and legal process, crime detection and prevention, eyewitness identification, prison life, offender assessment and rehabilitation, risk assessment and management, offender mental health, community reintegration and juvenile offending. The study of these topics has been increasing continually since the late 1800s with people trained in many legal professions such as policing, social work, law, academia, mental health and corrections. This will be a comprehensive work that will provide the most current empirical information on those topics of greatest concern to students who desire to work in these fields. This encyclopedia is a unique reference work that looks at criminal behavior primarily through a scientific lens. With over 500 entries, the book brings together top empirically driven researchers and clinicians across multiple fields: psychology, criminology, social work and sociology to explore the field.
