**Sex as Bait** S. Giora Shoham,1983      **Art, Crime and Madness** Shlomo Giora Shoham,2003-01-01 Art Crime and Madness explores the relationship between creative innovation deviance and morbidity To innovate one has to be able to view the medium and the object of creativity in a different hitherto unexplored manner The essence of art is creative innovation coupled with an ability in varying degrees to transcend the boundaries of consciousness But this ability is also the prerogative of the mentally deranged Likewise the criminal and the deviant are more likely to transcend normative barriers while creating hence the wide range of criminal and deviant behaviour in society Although the inverse hypothesis does not hold the mere existence of deviance or morbidity does not predispose the individual to creativity nevertheless criminal and mad behaviour are often very innovative This thesis is illustrated by historical case histories of creative deviance and genius madness and contemporary observations The painter Michelangelo Merisi Caravaggio killed a man while still a teenager and a second victim during a ball game In his lifetime he was considered degenerate but today he is considered the greatest painter of the Italian Settecento and his portrait adorns the Hundred Thousand Lira note Jean Genet the homosexual thief was born out of wedlock and as a teenager he transgressed almost all the paragraphs of the French criminal code But he became a famous French playwright the mouthpiece for criminals and deviants His plays built up a philosophical apology for the *raison d'être* of the criminal group      *A Psychoanalytic History of the Jews* Avner Falk,1996 This includes the evolution of the Hebrew religion as a projective response to the inner conflicts produced by the human family the sociopsychological development of the Israelite kingdoms in Canaan the fascinating duality of Jewish life in the Diaspora and the emotional ties of the Jews to their idealized motherland from the Babylonian exile to modern political Zionism      **An Existentialist**

*And Man Created God* Shlomo Giora Shoham,2011-08-08 And Man Created God presents a new theory of mytho empiricism based on the mythological concepts of Claude L vi Strauss and the structuralism of Jeanne Piaget The whole nature of mythogenes as the creative force linking history and transcendence is then elucidated The corpus of myths in the books of Genesis and Exodus are presented in a new light and then compared with the Egyptian Mesopotamian and Greek mythologies to highlight the Judaic myths with the pagan contrast

Giora Shoham,2000 *God as the Shadow of Man* is based on the pioneering work of Claude Levi Strauss who postulated that myths are links between nature and culture Shoham enlarges this concept and claims that myth in the form of a mythogene the structural longings and experiences of the individual as projected onto mythology links history and transcendence the individual and society and consciousness and energy matter The mythogenes are related to Shoham's personality theory which in essence postulates that personality types can be paxonomized along a continuum with one pole having the Tantallic type which aims to melt into the object and the other pole having the Sisyphean type which aims to overpower and control the object      **A Primer in the Sociology of Crime** S. Giora Shoham,John P. Hoffmann,1991 An English language adaptation of a Hebrew textbook introduces theories of crime and delinquency drawn from sociology Chapter topics include criminology and social deviance theoretical and methodological issues in criminology ecological theories strain theories differential association and learning theories control theories social reactions to crime conflict and radical perspectives on crime and recent developments      *The Bridge to Nothingness* S. Giora Shoham,1994 In *The Bridge to Nothingness* author Shlomo Giora Shoham explicates myth as a projection of human experience Human development dynamics according to Shoham are represented by myths and reflected in religious creeds Myths constitute projective evidence of the development of psychic processes at early orality they at once reveal and conceal their psychological content In this work Shoham deals with ideas that are common to Gnosticism Kabala and existentialism irrespective of their historical interrelationships He compares the Heideggerian notion of the thrownness of the individual into the world with the Gnostic teaching of the divine descent and incarnation the incarceration of the divine in objects and life forms All three ideologies speak of God as the spiritual core of human being Union with God is unachievable but one can achieve symbiosis with God and humanness through creativity and revelation The author's integration of psychology and mythic symbolism is stimulating *The Bridge to Nothingness* is filled with deep psychological and spiritual insights His portrayal of kabalistic thought is

perceptive and erudite He makes use of the latest scholarship and more importantly what he says will contribute to the field and provoke discussion and debate His sensitivity to the dynamics of mystical experience enables him to see clearly its positive dimension Very little has been written on the interface between Gnosticism Kabala and psychology Shoham s work is original provocative and insightful The Bridge to Nothingness will break new ground in these studies and enrich the understanding of psychological and religious symbolism BOOK JACKET Title Summary field provided by Blackwell North America Inc All Rights Reserved

**The Promethean Bridge** S. Giora Shoham, 2004 This is not a work on physics nor is it a tract on personality but rather an effort to link them together in order to examine the cognitive relationship of humans with their surroundings We explore the interaction between the human mind and energy matter the adoption of quantum mechanics allows us to bridge the distinction between physics and psychology We invoke here the principles of quantum mechanics symbols and great myths from Tantalus Sisyphus and Prometheus through the Kabbalah and the Gnostic religions to great historical figures in art and literature Our personality theory first expounded in The Myth of Tantalus 1979 is expanded here into truly interdisciplinary research examining the relationship of humans with God and the universe We claim that myths reflect the human mind more profoundly than any other means available they serve as a bridge to unknown parts of the human psyche and history and form the basis for human behavior for centuries We therefore use a method we call myth empiricism It is indeed amazing to see the connection between the structure of the human mind and that of energy matter as it is reflected in the mytho empirical context
