Canadian literary landscape For as Neilson wisely asks What s the matter with taking pride in any kind of regional identity that we articulate

The Routledge Introduction to Twentieth- and Twenty-First-Century Canadian Poetry Erin Wunker,2022-11-21 When asked the question what is the power of poetry writer Ian Williams said poetry punctures the surface Williams statement that poetry matters and that it does something is at the heart of this book Building from this core idea that poetry perforates the everyday to give greater range to our lives and our thinking the practical and pedagogical aim of this book is twofold the first aim is to provide students with an introduction to the key cultural political and historical events that inform twentieth and twenty first century Canadian poetry and to familiarize those same readers with poetic movements trends and forms of the same time period This book addresses the aesthetic and social contexts of Canadian poetry written in the twentieth and twenty first centuries it models for its readers the critical and theoretical discourses needed to understand the contexts of literary production in Canada Put differently readers need a sense of the where and how of poetic production to help situate them in the what of poetry itself In addition to offering a historically contextualized overview of the significant movements developments and poets of this time period this book also familiarizes readers with key moments of reflection and rupture such as the effects of economic and ecological crisis global conflicts and debates around appropriation of culture This book is built on the premise that poetry in Canada does not happen outside of political social and cultural contexts

Keepers of the Code Robert Lecker,2013-02-07 Keepers of the Code explores the complex network of associations and negotiations that influenced the development of literary anthologies in English Canada from 1837 to the present Lecker shows that these anthologies are deeply conflicted narratives that embody the tensions and anxieties felt by their editors when faced with the challenge of constructing or rejecting national ideals He argues that these are intensely self conscious works with their own literary mechanisms and architecture In reading the history of these anthologies he witnesses a complex narrative of nation a compelling story about the values and interests informing English Canadian literary history
