Caryl Phillips, David Dabydeen and Fred D'Aguiar Abigail Ward, 2013-07-19 Slavery is a recurring subject in works by the contemporary black writers in Britain Caryl Phillips David Dabydeen and Fred D Aguiar yet their return to this past arises from an urgent need to understand the racial anxieties of twentieth and twenty first century Britain This book examines the ways in which their literary explorations of slavery may shed light on current issues in Britain today or what might be thought of as the continuing legacies of the UK s largely forgotten slave past In this highly original study of contemporary postcolonial literature Abigail Ward explores a range of novels poetry and non fictional works by these authors in order to investigate their creative responses to the slave past This is the first study to focus exclusively on British literary representations of slavery and thoughtfully engages with

such notions as the ethics of exploring slavery the memory and trauma of this past and the problems of taking a purely historical approach to Britain's involvement in slavery or Indian indenture Although all three authors are concerned with the problem of how to commence representing slavery their approaches to this problem vary immensely and this book investigates these differences Fred D'Aguiar and Caribbean Literature Leo Courbot, 2019-02-26 With Fred D Aguiar and Caribbean Literature Metaphor Myth Memory Leo Courbot offers the first research monograph entirely dedicated to a comprehensive reading of the verse and prose works of Fred D Aguiar prized American author of Anglo Guyanese origin Postcolonial criticism when related to the history of the African diaspora regularly inscribes itself in the wake of Sartrean philosophy However Fred D Aguiar's both typical and untypical Caribbean background in addition to the singularity of his diction call for a different approach which Leo Courbot convincingly carries out by reading literature in the light of Jacques Derrida and douard Glissant's less conventional sense of the intrinsically metaphorical and cross cultural nature of language

Authority and Displacement in the English-Speaking World (Volume II) Florence Labaune-Demeule, 2016-01-14 Whether one thinks of the modern world or of more remote times both seem to have been affected if not moulded by the interaction between the concepts of authority and displacement Indeed political and social sources of authority have often been the causes of major geographical displacements as can be illustrated by the numerous waves of migration which have been observed in the past and which are still present today such as the transportation of slaves from African to American coasts in colonial times If displacement can often be understood as spatial displacement it can also be synonymous with psychological social and even aesthetic displacement for instance through different artistic means or through the use of stylistic discursive devices Displacement also entails displacement as well as dislocation or chaos This suggests that the etymological meaning of the term authority auctoritas has to be highlighted thus referring to the author of a particular work and to the different manifestations of the authorial persona in a work of art This collection of essays in two volumes examines the relationships between the concepts of authority and displacement in the English speaking world without restricting the analysis to a particular area or to the field of literature Some essays do indeed deal with literature from different spatial areas and temporal eras while others look into these concepts from a more cultural or aesthetic point of view Volume Two *Exploring American Shores* includes essays on the place of famous fugitives in American culture notably through the story of Bonnie and Clyde as well as on the links between displacement authority and sculpture on the one hand Placing and Replacing the Capitol Sculptures and on the links between displacement and photography on the other through a study of Joel Sternfeld's *Walking the High Line* In addition to investigations of Louise Erdrich's novel *Books and Islands* in Ojibwe Country Canadian landscapes in transit will be studied to highlight the displacement of the Western landscape tradition in English Canada The volume concludes with a study of some literary works by several writers of Guyanese origin first with an essay comparing Martin Carter's and L. on Gontran Damas's literary productions and then with an essay devoted to Fred D Aguiar's novel *The Longest Memory* 1994 **Talk Yuh Talk** Kwame Senu Neville Dawes, 2001 In the past 30 years most Caribbean poetry written in English has come to the US in the lyrics of reggae music but that is only one aspect of a tradition characterized by continuing tension within a diverse heritage Interviews in this collection reflect a range of Caribbean voices

from several generations from those poets influenced by a dynamic interplay between the popular culture of reggae music and yard theater to those whose work is closer to classical forms of literature and oral narrative Dawes teaches English at the University of South Carolina Annotation copyrighted by Book News Inc Portland OR The Oxford History of the Novel in English Simon Gikandi, 2016-09-05 Why did the novel take such a long time to emerge in the colonial world And what cultural work did it come to perform in societies where subjects were not free and modes of social organization diverged from the European cultural centers where the novel gained its form and audience Answering these questions and more Volume 11 The Novel in Africa and the Caribbean since 1950 explores the institutions of cultural production that exerted influence in late colonialism from missionary schools and metropolitan publishers to universities and small presses How these structures provoke and respond to the literary trends and social peculiarities of Africa and the Caribbean impacts not only the writing and reading of novels in those regions but also has a transformative effect on the novel as a global phenomenon Together the volume s 32 contributing experts tell a story about the close relationship between the novel and the project of decolonization and explore the multiple ways in which novels enable readers to imagine communities beyond their own and thus made this form of literature a compelling catalyst for cultural transformation The authors show that even as the novel grows in Africa and the Caribbean as a mark of the elites mastery of European form it becomes the essential instrument for critiquing colonialism and for articulating the new horizons of cultural nationalism Within this historical context the volume examines works by authors such as Chinua Achebe Nadine Gordimer George Lamming Jamaica Kincaid V S Naipaul Zoe Wicomb J M Coetzee and many others *Narrative Projections of a Black British History* Eva Ulrike Pirker, 2012-03-29 This book analyses narratives that center on construct or comment on black British history Outlining the emergence of black history in Britain and shifts in the politics of history it principally focuses on recent narratives that engage critically with the historical culture surrounding black Britain Epic Performances from the Middle Ages into the Twenty-First Century Fiona Macintosh, Justine McConnell, Stephen Harrison, Claire Kenward, 2018-11-01 Greek and Roman epic poetry has always provided creative artists in the modern world with a rich storehouse of themes Tim Supple and Simon Reade s 1999 stage adaptation of Ted Hughes Tales from Ovid for the RSC heralded a new lease of life for receptions of the genre and it now routinely provides raw material for the performance repertoire of both major cultural institutions and emergent experimental theatre companies This volume represents the first systematic attempt to chart the afterlife of epic in modern performance traditions with chapters covering not only a significant chronological span but also ranging widely across both place and genre analysing lyric film dance and opera from Europe to Asia and the Americas What emerges most clearly is how anxieties about the ability to write epic in the early modern world together with the ancient precedent of Greek tragedy s reworking of epic material explain its migration to the theatre This move though was not without problems as epic encountered the barriers imposed by neo classicists who sought to restrict serious theatre to a narrowly defined reality that

precluded its broad sweeps across time and place In many instances in recent years the fact that the Homeric epics were composed orally has rendered reinvention not only legitimate but also deeply appropriate opening up a range of forms and traditions within which epic themes and structures may be explored Drawing on the expertise of specialists from the fields of classical studies English and comparative literature modern languages music dance and theatre and performance studies as well as from practitioners within the creative industries the volume is able to offer an unprecedented modern and dynamic study of epic content and form across myriad diverse performance arenas
