Loo Falconry:

The Loo Falconry Joost Willem Marinus Wall, 2004 Author Dr J W M Van de Wall has dug deep into historical records and accounts and offers readers an impressive compilation on the Club its origins patrons falcons and falconers In the nineteenth century in Europe falconry was carried out in a spectacular and vibrant way And there was no more impressive activity than that taking place at the Dutch palace of the House of Orange Nassau It was there that the Royal Loo Hawking Club came into being Founded by passionate falconry advocates famous for their Haut Vol falconry flying falcons at the graceful and high flying heron all too soon the Club passed into oblivion The Loo Falconry celebrates the colorful history and prestige of this international society In addition to detailed and organized data the book is filled with magnificent reproductions of watercolors and sketches by J Wolf J B Sonderland P L Dubourcq and others who recorded pictorially all the facts and events of falconry at The Loo *Coursing and Falconry* Harding Cox and The Hon. Gerald Lascelles, 1892

Rulers and Raptors Nadir Weber, 2025-10-01 *Rulers and Raptors* argues that by studying animal biographies we gain a new perspective on early modern court society Combining court studies and historical animal studies it brings together two vibrant but rarely combined fields of research and shows how the presence of non human creatures shaped everyday life and political representation in Europe s dynastic centres Through an in depth analysis of the symbolic and practical functions of birds of prey in courtly life the book demonstrates that in the seventeenth and eighteenth centuries falconry was much more than a hunting technique it served as a model for the mutual empowerment of the sovereign and his noble subjects the essence of the Baroque style of government that gave rise to European court society Weber pays close attention to the birds life trajectories and thereby shines a spotlight on a large network of agents including rural bird catchers bourgeois animal traders and noble falconers at court who made the aerial spectacles possible Focusing on these peoples interactions with the raptors the book proposes to rethink early modern human animal relations showing that falcons escaped clear distinctions between wild and domestic nature and civilization The book thus simultaneously shows how early modern European rulers valued raptors as a key symbol of their power and how this very symbol of monarchical sovereignty pointed to the limits of human control over the animal kingdom on the eve of the Anthropocene This is an open access title available under the terms of a CC BY NC ND 4 0 International licence It is free to read on the Oxford Academic platform and offered as a free PDF download from OUP and selected open access locations *Coursing and Falconry* Harding Cox, 1892 **Gyrfalcon** Norman Barichello, 2020-03-13 Gyrfalcons and humans have shared a remarkable relationship since prehistoric times These extraordinary arctic falcons have been revered coveted as an item of commerce persecuted and enjoyed as a spectacle of sport for at least ten thousand years Today climate change has brought new challenges with habitat in the far north changing rapidly as natural cycles begin to break down Drawn from over thirty years of study and observation this in depth study provides a comprehensive view of the gyrfalcon s place in the arctic ecosystem including their inextricable link to their

primary prey the ptarmigan and their antagonistic relationship with golden eagles It explores the connection the bird has had with humanity in both legend and practice and the challenges it faces as its habitat continues to change This definitive look at the gyrfalcon shows us both sides of the majestic bird the master of its domain and a threatened species facing an uncertain future

Feasting, Fowling and Feathers Michael Shrubbs, 2013-09-26 A highly readable review of some 700 years of avian exploitation The way wild birds have been exploited over the centuries forms the focus of this remarkable new book by Michael Shrubbs It looks at the use of birds as food for feathers and skins for eggs as cage birds as specimens and for hunting focusing on Britain northern Europe and the North Atlantic Never before has a book brought the huge amount of information on these topics in the academic literature together under one cover Introductory chapters on what was taken when why and its impact are followed by a number of sections looking in detail at important bird groups Along with discussions of broader themes of exploitation the book is packed with amazing facts For example we learn why Grey Herons were so important in medieval falconry why the Black Death was good news for bustards why Napoleon is to blame for the scarcity of Quail in Britain today when tame plover stew was all the rage The book concludes with discussions of the cage bird and plumage trades both now consigned to the annals of history in Britain at any rate As well as summarising and condensing the material into a readable and entertaining account Shrubbs goes back to the original sources This has allowed him to shed new and surprising light on the biogeography

of a number of British birds *The Art of Falconry, by Frederick II of Hohenstaufen* Frederick II (Holy Roman Emperor), Casey Albert Wood, Florence Marjorie Fyfe, 1943-06 *De Arte Venandi cum Avibus* was written shortly before the year 1250 by Frederick II Holy Roman Emperor King of Sicily and Jerusalem in whose court with its remarkably cosmopolitan and highly intellectual life may be found the real beginning of the Italian Renaissance In spite of its title it is far more than a dissertation on hunting There is a lengthy introduction dealing with the anatomy of birds an intensely interesting description of avian habits and the excursions of migratory birds Indeed this ancient book has long been recognized as the first zoological treatise written in the critical spirit of modern science The sumptuous volume now in hand is however the first translation into English of the complete text originally divided into a prologue and size books Together the translators and editors have at last made available this classic work and have adorned it with notes comments bibliographies and glossary They have produced a work of great value to zoologists especially the ornithologist and also to everyone interested in the history of science and in medieval art and letters
