Man His World A Marxian View:

Man and His World Ivan Sviták,1970 In this important and stimulating book Ivan Svitak the noted Czech philosopher now in exile in the United States presents a view of human culture and its creations that is at once controversial and despite the author s Marxist orientation refreshingly non doctrinaire MAN AND HIS WORLD pleads for a humanistic democratic spirit in all human relationships and activities only through such a spirit Dr Svitak asserts can man and the culture he creates be genuinely meaningful Publisher

A Study of Marx's View of History Xianda Chen,2025-09-30 This book summarizes the process of Marx s foundation of the view of history into two turning points namely from alienation to alienated labor and then from alienated labor to the materialistic view of history Meanwhile this book makes an in depth analysis of the ideas about the materialistic view of history in recent years which is conducive to further clarifying the ideas of Marxist learners and researchers Besides this book on the basis of the human exploration of historical laws analyzes how Marx broke through the limitations of previous historical views and went deep into history that is the process of discovering the laws of history itself thus profoundly revealing the important reference value of Marx s view of history in the transformation of human historical views It is also conducive to building a bridge of communication between Chinese and Western philosophy promoting international exchanges and cooperation and enriching the ideological connotation of contemporary Marxism

Marxism and Education (RLE Edu L) Madan Sarup,2013-05-13 This book introduces the student to the various phenomenological and humanistic Marxist perspectives as they are being applied to education and provides an account of the strengths and weaknesses of these perspectives drawing on a variety of disciplines in order to explain the controversies described The opening chapters deal with the phenomenological perspective in the sociology of education discussing its adoption of a phenomenological model of man its use of anthropological studies the importance of classroom studies and its rejection of the liberal philosophy of education The aim is to show the significance of these ideas for education with a discussion of the concept of alienation and schooling developments in Marxism such as the focus on the mode of production and the labour process and the political economy of education *Spinoza and Other Heretics, Volume 2* Yirmiyahu Yovel,2021-10-12 This ambitious study presents Baruch Spinoza 1632 1677 as the most outstanding and influential thinker of modernity and examines the question of whether he was the first secular Jew A number one bestseller in Israel Spinoza and Other Heretics is made up of two volumes The Marrano of Reason and The Adventures of Immanence Yirmiyahu Yovel shows how Spinoza grounded a philosophical revolution in a radically new principle the philosophy of immanence or the idea that this world is all there is and how he thereby anticipated secularization the Enlightenment the disintegration of ghetto life and the rise of natural science and the liberal democratic state In The Adventures of Immanence Yovel discloses the presence of Spinoza s philosophical revolution in the work of later thinkers who helped shape the modern mind He claims it is no accident that some of the most unorthodox and innovative figures in the past two centuries including Goethe Kant Hegel

Heine Marx Nietzsche Freud and Einstein were profoundly influenced by Spinoza and shared his view that immanent reality is the only source of valid social and political norms and that recognizing this fact is necessary for human liberation But what is immanent reality and how is liberation to be construed In a work that constitutes a retelling of much of Western intellectual history Yovel analyzes the rival answers given to these questions and in so doing provides a fresh view of a wide range of individual thinkers *Investigation of Communist Activities in the New York City Area ...* United States. Congress. House. Committee on Un-American Activities,1953 **Hearings** United States. Congress. House. Committee on Un-American Activities,1953 **Karl Marx on Socialist Theory and Practice** Wei Xiaoping,2022-10-09 This book discusses Marx s thinking on human emancipation based on his critique of capitalism and the prospect of socialism It analyzes the double relations between persons and things and persons and persons by tracking Marx s writings including MEGA2 and taking into consideration the socialist practice and socialist reform of the last century It is a necessary study for social scientists social and political philosophers and students for its deep and wide analysis from the perspective of Marxian theory in practice **Marxism and Morality** Nicholas Churchich,2022-01-01 Karl Marx promised in the preface to his Economic and Philosophic Manuscripts of 1844 that he would write an independent pamphlet on ethics Although he never did so in his later writings he discussed morality extensively Later commentators were more concerned with other aspects of Marx s thought and largely neglected this area As a result Nicholas Churchich s exposition of Marx s thoughts on morality has become the standard work on the subject Thoroughly researched well reasoned and balanced in its argument Marxism and Morality presents a comprehensive and critical analysis of Marx s and Engel s ideas on morality and ethics analysing both strengths and weaknesses Churchich examines morality in its bourgeois and proletarian forms the origin and development of moral ideas moral values and standards egoism and altruism He explores the role of religion and science in communist ethics and discusses the ends and means in the struggle for a classless society Praised by those on both sides of the political divide for his objectivity Churchich s approach remains the definitive evaluation of the ethical arguments of Marxism **Karl Marx and World Literature** S. S. Prawer,2011-07-18 Very few men said Bakunin have read as much and it may be added have read as intelligently as M Marx S S Prawer s highly influential work explores how the world of imaginative literature poems novels plays infused and shaped Marx s writings from his unpublished correspondence to his pamphlets and major works In exploring Marx s use of literary texts from Aeschylus to Balzac and the central role of art and literature in the development of his critical vision Karl Marx and World Literature is a forensic masterpiece of critical analysis *Hearings [and Reports] 83rd Congress, 1st Session* United States. Congress. House. Committee on Un-American Activities,1953 **ThirdWay** ,1979-05 Monthly current affairs magazine from a Christian perspective with a focus on politics society economics and culture *Marx's Theory of Ideology (RLE Marxism)* Bhikhu Parekh,2015-04-17 Although Marx s concept of ideology has been a subject of considerable discussion much of the debate has proved to be rather

disappointing There has been no systematic attempt to examine why Marx needed the concept of ideology why it was an important concept for him and how it related to his views on truth and objectivity This book first published in 1982 considers these and other neglected questions It explains why Marx continued to use the term ideology throughout his life to mean both idealism and apologia and traces the complex ways in which according to Marx such talented writers as Hegel became apologists In conclusion the book outlines the lessons Marx learnt from his investigations into the nature and mechanism of ideology and discusses his theories of objectivity and truth The Vicissitudes of Nature Richard J. Bernstein,2022-09-29

The relation between humans and nature is at the core of the great existential threats of our time from climate change extreme weather and environmental destruction to devastating pandemics We are becoming increasingly aware of the fact that unless we change our behavior radically and quickly the most likely outcome will be the destruction of countless species and forms of life including our own But we also need to change the way we think about nature and think about the relation between humans and nature this is a key intellectual task In this important book Richard J Bernstein argues that an adequate conception of humans and nature capable of facing up to the existential threats of our time requires taking full account of the major projects dealing with nature in the past Focusing on key figures of modernity Spinoza Hume Kant Hegel Marx Nietzsche and Freud Bernstein reconstructs their conceptions of nature and uncovers the reasons that led them to their distinctive views Working through the contradictions and incompatibilities among these diverse thinkers Bernstein identifies common themes that have shaped their struggles in dealing with the relation of humans to nature He offers a critical overview of the challenges illuminated by each perspective that must be confronted in our thinking of nature today As a prolegomenon to rethinking humanity and nature this book uncovers the rich conceptual resources available within the modern tradition that can help us to develop an adequate understanding of nature for our time **Congressional Record**

United States. Congress,1960 The Congressional Record is the official record of the proceedings and debates of the United States Congress It is published daily when Congress is in session The Congressional Record began publication in 1873 Debates for sessions prior to 1873 are recorded in The Debates and Proceedings in the Congress of the United States 1789 1824 the Register of Debates in Congress 1824 1837 and the Congressional Globe 1833 1873 Critical Social Theory and the End of Work Edward Granter,2016-04-22

Critical Social Theory and the End of Work examines the development and sociological significance of the idea that work is being eliminated through the use of advanced production technology Granter s engagement with the work of key American and European figures such as Marx Marcuse Gorz Habermas and Negri focuses his arguments for the abolition of labour as a response to the current socio historical changes affecting our work ethic and consumer ideology By combining history of ideas with social theory this book considers how the end of work thesis has developed and has been critically implemented in the analysis of modern society This book will appeal to scholars of sociology history of ideas social and cultural theory as well as those working in the fields of critical management and

sociology of work *Leo Strauss Between Weimar and America* Adi Armon, 2019-09-25 This is the first book length examination of the impact Leo Strauss immigration to the United States had on his thinking Adi Armon weaves together a close reading of unpublished seminars Strauss taught at the University of Chicago in the 1950s and 1960s with an interpretation of his later works all of which were of course written against the backdrop of the Cold War First the book describes the intellectual environment that shaped the young Strauss worldview in the Weimar Republic tracing those aspects of his thought that changed and others that remained consistent up until his immigration to America Armon then goes on to explore the centrality of Karl Marx to Strauss's intellectual biography By analyzing an unpublished seminar Strauss taught with Joseph Cropsey at the University of Chicago in 1960 Armon shows how Strauss's fragmentary partial engagement with Marx in writing obscured the important role that Marxism actually played as an intellectual challenge to his later political thinking Finally the book explores the manifestations of Straussian doctrine in postwar America through reading Strauss's *The City and Man* 1964 as a representative of his political teaching **Karl Marx's Social and Political Thought** Bob Jessop, Russell Wheatley, 1999 **The Democrat**, 1920 **A Dictionary of Cultural and Critical Theory** Michael Payne, Jessica Rae Barbera, 2013-05-06 Now thoroughly updated and revised this new edition of the highly acclaimed dictionary provides an authoritative and accessible guide to modern ideas in the broad interdisciplinary fields of cultural and critical theory Updated to feature over 40 new entries including pieces on Alain Badiou Ecocriticism Comparative Racialization Ordinary Language Philosophy and Criticism and Graphic Narrative Includes reflective broad ranging articles from leading theorists including Julia Kristeva Stanley Cavell and Simon Critchley Features a fully updated bibliography Wide ranging content makes this an invaluable dictionary for students of a diverse range of disciplines Work Alienation Rabindra Kanungo, 1982-04-15 The major objectives of the book are fourfold First the book attempts to provide a critical assessment of the state of the art and theory concerning work alienation Second objective is to provide a new approach to the study of alienation Third objective is to provide ways of measuring the phenomena of alienation and involvement Final objective is to provide information on the criterion related validity of the new formulation for the study of the phenomena of alienation and involvement
