A Butterfly's Journey Barbara J. Hopkinson, 2013-04-18 **A Butterfly's Journey** offers a unique approach to enduring the loss of a child with the author's diverse perspective as a multiple-bereaved parent and support group facilitator. In this gripping memoir that commences with the day she got the call alerting her that her 21-year-old son had been seriously injured in a motorcycle accident, Hopkinson bares her

soul in moving through a journey of grief that changed her life forever She also gives families a reason to believe in their child's continued spiritual existence With great skill Hopkinson's approach helps bereaved parents and families understand the variety of ways grief can be felt expressed and supported For example genders grieve differently and infant loss can be as traumatic as the death of an older or adult child She gently reminds us to be tolerant we all grieve in our own way and on our own schedule Courageously sharing the impact of grief in her own life Hopkinson reveals that her 30 year marriage did not survive the untimely death of her adult son Additionally while going through a divorce that dramatically altered her lifestyle her remaining son flunked out of college as a result of the loss of his brother Like many bereaved parents Hopkinson briefly contemplated suicide after these and other unexpected events In *A Butterfly's Journey* she details finding an inner strength she now believes has prepared her to handle any life challenge with greater ease She also models how she found love hope and happiness again by turning outward and helping others

Loss, Survive, Thrive
Meryl Hershey Beck, 2019-11-22

No one is prepared for the loss of a child No one It feels completely unnatural for children to predecease their parents Although it is not widely known each year there are over 135 000 under 40 year old deaths in the U S alone And according to one study 19% of parents outlive their children often carrying the weight of horrendous grief to their own graves Isolated and alone is how parents often describe the grief process Well meaning friends and family members usually rush to their side in the beginning Once the floral arrangements have wilted and the dinners from caring friends diminish there isn t really much that can be said to bring comfort to a suffering parent especially if those friends haven t experienced it themselves Unfortunately when these caring friends do bring up the loss quite often they say the wrong things Loss Survive Thrive offers a lifeline of hope Each chapter is an inspirational story written by a parent who also experienced the agony of losing a child reclaimed his her vitality and is now living a fulfilling life Every story is authentic and heartfelt designed to uplift and inspire The collective authors reach out through the pages to virtually hold hands with those

who are suffering We the contributors have all been there We know their pain and we know about survival And now through our stories we offer comfort and support in helping them get through the toughest time of their lives Bereaved parents share an unspeakable bond And Loss Survive Thrive imparts insight from what s likely the only voices that grieving parents can hear others who have walked in their shoes This book is a giant step toward healing the grieving heart Healing a Child's Grieving Heart Alan D. Fosnight,2016-03-29 This Book Presents a Paradigm Shift About Toxic Anger Anger Is An Addiction Using the wisdoms of John Bradshaw Pia Mellody Claudia Black Alice Miller and many other recovery giants Verryl grew to understand himself in the context of his past traumas He was finally able to apply all the theories of these authors to heal his anger and rage This expansion of theory to the emotion of toxic anger results in a revolutionary new concept of anger as an addiction This paradigm shift empowers a person to recover from rage as an ill person seeking to be well as opposed to a bad person trying to act better Telling yourself you are a bad person is a self defeating message to your inner self but an ill person can get well He presents this new simple and enlightened treatment for anger in easy to follow language Ultimately these conclusions are illustrated as a set of simple diagrams that outline the full path of angers development starting from the core emotion of pain from early losses through raging behavior that is life damaging Using the revolutionary model of anger as an addiction he demonstrates that anger can be healed There is no need to rationally manage toxic anger while remaining a bad person Toxic anger practically evaporates as an emotional impulse as the underlying pain is resolved in the good but ill person Included Research survey paper on Anger Management classes by Desiree Harris M C Helping Children to Manage Loss Brenda Mallon,1998 This book explores the territory of loss in childhood using the words of children who have found themselves bereft of hope As well as covering the short and long term implications that arise when loss occurs it provides positive approaches that enable children not only to cope but to grow through their experiences
