Motorcycling and Leisure Paul Broughton, Linda Walker, 2016-12-05 Despite the fact that there are around 1.2 million powered two wheelers PTWs within the United Kingdom riders are often misconceived as living at the edge of society however this is often far from the truth Riding a PTW is a high risk activity and those who ride are often perceived as being risk junkies but through an in depth exploration of this leisure activity Motorcycling and Leisure explains that riders ride because they enjoy it and do not necessarily enjoy the risk involved The book presents a range of contemporary research on riders and how they find enjoyment The book further explores the rider goal of enjoyment and utilises Fuller's task homeostasis theory along with Csikszentmihalyi's theory of flow to develop an understanding of the interaction between risk and goals In conclusion it develops principles of interventions with the aim of guiding intervention design and reducing the number of motorcycle crashes

Escorting the Monarch Chris Jagger, 2017-10-30 Escorting the Monarch is as close to an official history of the Metropolitan Police's Special Escort Group SEG as one could hope for You may have seen the team at work as the combination of motorcycles and cars pass you by they glide elegantly and seemingly effortlessly through busy traffic Developing a dedicated and diligent team culture they are masters of their trade They hold a well earned reputation for excellence amongst their peers delivering their passengers and cargo on time safely in a great deal of style and without fuss or mishap Professional and precise in the execution of their operations they are neither shaken nor stirred Although the work of the SEG demands exquisitely high levels of presentation there is little room for gloss or glitter The individuals and property they are charged to protect are assessed by government to need the highest possible levels of protection From
