Over a period of generations, five basic movements were developed, called the Bone Marrow Washing Exercises. These exercises helped the monks restore their health and will power. As the movements were passed down from generation to generation, the meaning behind the movements of Tai Chi was almost completely lost. Due to the integrity of Kuo Lien-Ying, this information is presented without modification or alteration. This book contains a clear explanation of the physical laws of the art of T'ai Chi that hold true wherever it is practiced. The person who studies the information contained in this book will have the tools to achieve the highest level of mastery and skill to be obtained through the practice of T'ai Chi.
