**Riding the Wind** Peter Marshall, 2009-06-10 Where do we come from What are we Where are we going In seeking answers to these fundamental questions Peter Marshall develops a dynamic and organic philosophy for the third millennium which he calls liberation ecology Deep social and libertarian it seeks to free nature society and individuals from their existing burdens so that they can realize together their full potential Riding the Wind presents a fresh and inspired vision which combines ancient wisdom and modern insights reason and intuition science and myth It is an exciting and uplifting work on how to live well and in harmony with oneself with others and with nature It will appeal to all those adventurous spirits who are searching for meaning and who wish to find their rightful place within the universe **Riding the Wind** Peter H.

Marshall, 2000 *Thinking with Animation* Joff P. N. Bradley, Catherine Ju-yu Cheng, 2021-08-09 This volume brings together scholars based predominantly in Asia to contribute provocative and experimental essays on the dynamic relationship between animation and philosophy In an inventive and playful philosophical way they address not only the mainstay of Japanese animation but also Korean film picture books and Mickey Mouse to understand what we might call film philosophy in Asia In thinking animation with concepts from the technicolour philosophies of Deleuze Guattari Stiegler Benjamin Kristeva and Heidegger the book sees animation not as a representation of a philosophical idea per se but conceptualizes it as a philosophical thinking device In the images themselves what is at work is not just the thinking of a particular director or manga artist but rather thinking as such through and by the images themselves The scholars in this collection are committed to thinking images themselves as thought experiments and thinking machines **The Tao of the West** J.J.

Clarke, 2002-01-04 In this book J J Clarke shows us how Taoist texts ideas and practices have been assimilated within a whole range of Western ideas and agendas We see how Chinese thinkers such as Lao tzu and Chuang tzu along with practices such as Feng Shui and Tai Chi have been used as a key Western inspiration in religion philosophy ethics politics ecology and health The Tao of the West not only provides a fascinating introduction to Taoism it also offers a timely insight into the history of the West's encounter with this ancient tradition and into the issues arising from inter cultural dialogue Anyone interested in understanding the key influence Taoism has had on the West will welcome and embrace this book

Anarchism in Local Governance Stephen Condit, 2019-06-28 Through accounts of his experience as a local politician and elected once holder Stephen Condit examines in *Anarchism in Local Governance* how his anarchist convictions may have contributed to the administration of his community in a way that empowers citizens towards self governance and prefiguration of communal anarchist ideals The hypothesis is that municipal governance and anarchist thought and praxis can both benefit by this kind of encounter Condit also investigates the emergence of anarchism through citizen participation in civil society as a reality to which the municipality is accountable *Post-Modern Pilgrims* Leonard Sweet, 2000-07-15

There is a legend of a Welsh Prince Madoc whose ship became stuck in Chesapeake Bay After trying unsuccessfully to escape

he had his men row out with the anchor drop it as far into the sea as they could and then the ship winched its way forward The image of the church as a boat and tradition as an anchor is prevalent in Christian art If we examine the biblical view of an anchor we find like Prince Madoc we are to cast our anchor into the future and pull the church forward Postmodern pilgrims must strive to keep the past and the future in perpetual conversation so every generation will find a fresh expression of the Gospel that is anchored solidly to the faith that was once for all delivered

**Revolutionary Romanticism** Max Blechman, 1999-10 Revolutionary Romanticism draws on almost two centuries of intertwined traditions of cultural and political subversion In this rich collection of writings by artists scholars and revolutionaries the transgressions of the past are recaptured and transvalued for the benefit of the struggles of today and tomorrow Along the way new light is shed on the radical sensibilities of Novalis Friedrich Holderlin and Friedrich Schlegel while the poetics of Percy Bysshe Shelley John Keats Lord Byron and William Blake are revealed to be profoundly oppositional to the reigning culture The social romanticism of Jules Michelet the nineteenth century historian of the French Revolution is acclaimed for its visionary quasi religious breadth The Paris Commune is figured by the arch Romantics Karl Marx Jules Valles and Arthur Rimbaud The all but forgotten Bavarian Council Republic of 1919 is recalled a milieu steeped in Expressionism and anarchism the matrix out of which B Traven author of *The Treasure of the Sierra Madre* emerged by the skin of his teeth The romantic outlook of Walter Benjamin and Herbert Marcuse both strongly influenced by Surrealism the prehensile tail of Romanticism is relocated in their absolute negation of the social order And at the end of the twentieth century there s Guy Debord and the Situationist International the passionate detournement of the Romantic project Max Blechman writes When today aesthetic life is increasingly defined by advertising and corporate culture and democracy has more to do with the power of private interests than the power of the public imagination the romantic insistence on the liberatory dimension of aesthetics and on radical democracy may yet prove crucial to contemporary efforts to envision a new political freedom Revolutionary Romanticism includes Blechman s investigation of the German idealist roots of European Romanticism Annie Le Brun on the possibility of romantic women Peter Marshall on William Blake Maurice Hindle on the political language of the early English Romantics Arthur Mitzman on Jules Michelet Christopher Winks on the Paris Commune Miguel Abensour on William Morris Peter Lamborn Wilson on the 1919 Bavarian Workers Council Michael Lowy on Walter Benjamin and Herbert Marcuse Marie Dominique Massoni on Surrealism and Daniel Blanchard on his youthful friendship with Guy Debord

knowledge as well as bio anthropological issues      **Resurgence** ,2009      **The Theatre of the World** Peter H. Marshall,2011-03-22 A captivating portrait of the crucible of magic science and religion at the court of the doomed dreamer Rudolf II in Renaissance Prague At the end of the sixteenth century the greatest philosophers alchemists astronomers and mathematicians of the day flocked to Prague to work under the patronage of the Holy Roman Emperor Rudolf II The Theatre of the World is the enchanting story of Rudolf II an emperor more interested in the great talents and minds of his times than in the exercise of his power Rarely leaving Prague Castle he gathered around him a galaxy of famous figures the Italian painter Giuseppe Arcimboldo the Danish astronomer Tycho Brahe the German mathematician Johannes Kepler and the English magus John Dee Entranced like Hamlet by the new Renaissance learning Rudolf found it nearly impossible to make decisions He faced the threats of religious discord and the Ottoman Empire along with deepening melancholy and an ambitious younger brother As a result he lost his empire and nearly his sanity but he enabled Prague to enjoy a golden age of peace and creativity before Europe was engulfed in the Thirty Years War The Theatre of the World is a beguiling and dramatic human story filled with angels and devils high art and low cunning talismans and stars It offers a captivating perspective on a pivotal moment in the history of Western Civilization From the Hardcover edition      [The Magic Circle of Rudolf II](#) Peter Marshall,2009-05-26 Rudolf II Habsburg heir Holy Roman Emperor king of Hungary Germany and the Romans is one of history s great characters and yet he remains largely an unknown figure His reign 1576 1612 roughly mirrored that of Queen Elizabeth I of England and while her famous court is widely recognized as a sixteenth century Who s Who Rudolf s collection of mathematicians alchemists artists philosophers and astronomers among them the greatest and most subversive minds of the time was no less prestigious and perhaps even more influential Driven to understand the deepest secrets of nature and the riddle of existence Rudolf invited to his court an endless stream of genius Danish astronomer Tycho Brahe German mathematician Johannes Kepler English magus John Dee Francis Bacon and mannerist painter Giuseppe Archimboldo among many others Prague became the artistic and scientific center of the known world an island of intellectual tolerance between Catholicism Protestantism and Islam Combining the wonders and architectural beauty of sixteenth century Prague with the larger than life characters of Rudolf s court Peter Marshall provides an exciting new perspective on the pivotal moment of transition between medieval and modern when the foundation was laid for the Scientific Revolution and the Enlightenment      *The British National Bibliography* Arthur James Wells,2002      **The Political Theory of Global Citizenship** April Carter,2013-07-04 This book provides a comprehensive overview of the meaning of cosmopolitanism and world citizenship in the history of Western political thought and in the evolution of international politics since 1500 Providing an invaluable overview of earlier political thought recent theoretical literature and current debates this book also discusses recent developments in international politics and transnational protest It will be of great interest to those specialising in political theory International Relations and peace conflict studies It will also interest

those already acting as global citizens      *Globalization and Education* Marcelo Sánchez Sorondo, Edmond Malinvaud, Pierre Léna, 2008-07-14 This book presents the results of a joint meeting organized by the Pontifical Academy of Sciences and the Pontifical Academy of Social Sciences where renowned international scholars discussed the importance of education in an increasingly globalized world The papers cover a wide range of topics including immigration education in developing countries knowledge transfer social economic cultural and political conditions in global education technology communication access to information and knowledge as well as bio anthropological issues      Bioregionalism and Global Ethics Richard Evanoff, 2010-09-13 While a number of schools of environmental thought including social ecology ecofeminism ecological Marxism ecoanarchism and bioregionalism have attempted to link social issues to a concern for the environment environmental ethics as an academic discipline has tended to focus more narrowly on ethics related either to changes in personal values or behavior or to the various ways in which nature might be valued What is lacking is a framework in which individual social and environmental concerns can be looked at not in isolation from each other but rather in terms of their interrelationships In this book Evanoff aims to develop just such a philosophical framework one in which ethical questions related to interactions between self society and nature can be discussed across disciplines and from a variety of different perspectives The central problem his study investigates is the extent to which a dichotomized view of the relationship between nature and culture perpetuated in ongoing debates over anthropocentric vs ecocentric approaches to environmental ethics might be overcome through the adoption of a transactional perspective which offers a more dynamic and coevolutionary understanding of how humans interact with their natural environments Unlike anthropocentric approaches to environmental ethics which often privilege human concerns over ecological preservation and some ecocentric approaches which place more emphasis on preserving natural environments than on meeting human needs a transactional approach attempts to create more symbiotic and less conflictual modes of interaction between human cultures and natural environments which allow for the flourishing of both      **Anthropology, Ecology, and Anarchism** Brian Morris, 2015-01-01 Over the course of a long career Brian Morris has created an impressive body of engaging and insightful writings from social anthropology and ethnography to politics history and philosophy that have made these subjects accessible to the layperson without sacrificing analytical rigor But until now the essays collected here originally published in obscure journals and political magazines have been largely unavailable to the broad readership to which they are so naturally suited The opposite of arcane specialized writing Morris's work takes an interdisciplinary approach that moves seamlessly among topics offering up coherent and practical connections between his various scholarly interests and his deeply held commitment to anarchist politics and thought Approached in this way anthropology and ecology are largely untapped veins whose relevance for anarchism and other traditions of social thought have only recently begun to be explored and debated But there is a long history of anarchist writers drawing upon works in those related fields Morris's essays both explore past connections and

suggest ways that broad currents of anarchist thought will have new and ever emerging relevance for anthropology and many other ways of understanding social relationships His writings avoid the constraints of dogma and reach across an impressive array of topics to give readers a lucid orientation within these traditions and point to new ways to confront common challenges

**Anarchist Seeds Beneath the Snow** David Goodway, 2006-10-01 From William Morris to Oscar Wilde to George Orwell left libertarian thought has long been an important but neglected part of British cultural and political history In *Anarchist Seeds beneath the Snow* David Goodway seeks to recover and revitalize that indigenous anarchist tradition This book succeeds as simultaneously a cultural history of left libertarian thought in Britain and a demonstration of the applicability of that history to current politics Goodway argues that a recovered anarchist tradition could and should be a touchstone for contemporary political radicals Moving seamlessly from Aldous Huxley and John Cowper Powys to the war in Iraq this challenging volume will energize leftist movements throughout Britain and the rest of the world

*Index to Jewish Periodicals*, 2001 An author and subject index to selected and American Anglo Jewish journals of general and scholarly interests

**Anarchism and utopianism** Laurence Davis, Ruth Kinna, 2024-06-04 This collection of original essays examines the relationship between anarchism and utopianism exploring the intersections and overlaps between these two fields of study and providing novel perspectives for the analysis of both The book opens with an historical and philosophical survey of the subject matter and goes on to examine antecedents of the anarchist literary utopia anti capitalism and the anarchist utopian literary imagination free love as an expression of anarchist politics and utopian desire and revolutionary practice Contributors explore the creative interchange of anarchism and utopianism in both theory and modern political practice debunk some widely held myths about the inherent utopianism of anarchy uncover the anarchistic influences active in the history of utopian thought and provide fresh perspectives on contemporary academic and activist debates about ecology alternatives to capitalism revolutionary theory and practice and the politics of art gender and sexuality Scholars in both anarchist and utopian studies have for many years acknowledged a relationship between these two areas but this is the first time that the historical and philosophical dimensions of the relationship have been investigated as a primary focus for research and its political significance given full and detailed consideration
