Understanding Caricature Greg Houston,2021-04-27 A truly comprehensive and laser focused examination of a really wonderful expressive art form Understanding Caricature offers artists aspiring artists students journalists bloggers etc a lively guide to an old and respected art form A great caricature is one that not only captures the subject s look and personality but amplifies them significantly They are almost always funny and very often but not always mean spirited Eyes ears nose mouth hairline cheeks eyebrows teeth chin There s no facial feature or any other body part for that matter that can escape the sardonic scrutiny of caricaturist and illustrator Greg Houston But though he cleverly twists exaggerates and distorts each subject s image he always makes sure the person remains recognizable an absolute must for successful caricature Whether on assignment or simply drawing for his own perverse pleasure Houston loves skewering the high and

mighty movie stars moguls politicians and assorted other VIPs especially when they misbehave Caricature says Houston is a very sharp weapon for the powerless to use against the powerful and he can teach you to wield it too After defining caricature differentiating it from other forms of portraiture and delving into its centuries long history Houston gets down to the nitty gritty of how to do it He focuses sequentially on the face the hair the body and what he calls accoutrements distinctive items of clothing that help viewers immediately identify celebrities You yourself will learn to poke artistic fun at the famous through a series of demonstrations that let you follow Houston as he constructs caricatures of Jake Gyllenhaal Masie Williams Dwayne Johnson Rainn Wilson and other notable victims of his wicked pen But Houston doesn't focus solely on his own approach A whole chapter of Understanding Caricature is devoted to other contemporary caricaturists and the signature mediums they work in ranging from traditional oils and watercolors to digital drawing and painting to sculpture and even puppet making And the book's final chapter displays the work of students who've studied with Houston at his Baltimore academy Brilliant in their own right these pieces also demonstrate how any artist with Houston's guidance can become a skilled practitioner of the caricaturist's art
