The New Extremism in 21st Century Britain Roger Eatwell,Matthew Goodwin,2012-11-12 Since the 1990s there has been a growing concern about the resurgence of extremist and radical movements in the Western world Although a variety of challenges to the liberal democratic order have emerged the main focus of concern among academics policy

makers and practitioners within Europe and beyond has been on the growth and activities of Islamists and to a lesser extent the extreme right. However, these forms of extremism are seldom placed alongside each other and in a manner that is sensitive to both the causes and consequences of extremist mobilization. This book presents new empirical research on the causes of these two new extremisms in 21st Century Britain and the appropriate responses to it by both the state and civil society. Both forms of extremism pose vital questions for those concerned with the development of a more cohesive and stable society. Unlike many studies, this volume adopts a holistic approach, bringing together experts from a variety of disciplines to examine the factors that cause support and the potential policy responses, including key questions such as: What is the current level of support for Islamism and right wing extremism? Who votes for extreme right parties such as the BNP in modern Britain and despite its recent gains, why has the extreme right achieved only limited success? What are the steps of recruitment into radical violent takfiri jihadism? How effective are current responses to Islamism and the extreme right such as those offered by Preventing Violent Extremism (PVE) wider public policy and policing? What is the potential role of political actors, media and civil society in responding to the extremist challenge? Challenging broad assumptions and bringing together leading scholars in this rapidly developing field, this work is essential reading for all those with an interest in terrorism, fascism, political extremism, social cohesion and the future of race relations.

It explores the current landscape, the factors that give rise to and minimise these extremist groups, strategies for countering these groups and the emergence of the Alt Right. It draws on interviews with law enforcement officials, community activists and current and former right wing activists to inform and offer practical advice, paired with analyses of open source intelligence on the state of the RWE movement in Canada. The historical and contemporary contours of right wing extremism in Canada are situated within the social, political and cultural landscape that has shaped the movement. It will be of particular interest to students and researchers of criminology, sociology, social justice, terrorism and political violence.

The extreme Right in Western Europe Elisabeth Carter, 2013-07-19. Parties of the extreme right have experienced a dramatic rise in electoral support in many countries in Western Europe over the last two and a half decades. This phenomenon has been far from uniform, however, and the considerable attention that the more successful right wing extremist parties have received has sometimes obscured the fact that parties of the extreme right have not recorded high electoral results in all West European democracies. Furthermore, the electoral scores of these parties have also varied over time, with the same party recording low electoral scores in one election but securing high electoral scores in another. This book, available in paperback for the first time, examines the reasons behind the variation in the electoral fortunes of the West European parties of the extreme right in the period since the late 1970s. It proposes a number of different explanations as to

why certain parties have performed better than others at the polls and it investigates each of these different explanations systematically and in depth As well as offering a comprehensive analysis of the reasons behind the uneven electoral success of the West European parties of the extreme right this book provides up to date information on all right wing extremist parties that have contested elections at national level across Western Europe since the late 1970s In addition to examining the parties ideology and organisation it discusses their relationship with the parties of the mainstream and it investigates the impact that electoral institutions have on their ability to attract votes This book is aimed at both scholars and students interested in the extreme right in party politics and in comparative politics more generally

The role of terrorism in twenty-first-century warfare Susanne Martin, Leonard Weinberg, 2016-12-21 This book presents a critical reflection on the major armed conflicts that occurred during the 1990s and the first decade of the twenty first century Conflicts in Bosnia Kosovo Chechnya Iraq Afghanistan and Syria all involved the use of terrorism by one or more groups Looking to the future the book asks what this means for violent conflicts yet to come Using a variety of case studies the authors provide a systematic and comprehensive analysis of the role played by terrorism as a stand alone tactic as well as one used to ignite broad scale conflict They also pose the question on what occasions does terrorism tend to occur as an armed conflict begins to subside and when in other words is it a trailing indicator

Liberal Democracy Into the Twenty-first Century Roland Axtmann, 1996 This book offers a contemporary critique of liberal democracy understood as a set of institutions and as a set of ideas Roland Axtmann asks what democracy means today as it faces the challenges of feminism multiculturalism globalization and European integration Axtmann analyses in turn each of liberal democracy's component parts Firstly he discusses the notions of sovereignty constitutionalism and representation and analyses the liberal concept of citizenship Secondly he surveys the conceptual history of civil society and presents republicanism and deliberative politics after Habermas as alternative conceptualizations of democracy Thirdly he shows how feminism and multi culturalism
