*Political Governance and the African Peer Review Mechanism* Omololu Fagbadebo, Isioma U. Ile, 2025-04-15 This

book presents a comparative analysis of political governance and includes case studies from various African countries. It further sheds light on the paradox of poverty despite Africa's plentiful resources and traces its roots in historical legacies of colonialism and leadership failures. The book examines the African Peer Review Mechanism (APRM) initiated by the African Union (AU) in 2003 and explores the APRM's role in promoting sustainable development, political stability, and integration. Against this background, the book dissects the four thematic areas of the APRM with a focal point on democratic and political governance, illuminating challenges and proposing solutions. In case studies on selected African countries, contributors present governance structures highlighting the struggle for accountability, representation, and public participation. The book highlights alarming indicators of weak governance, including corruption and declining public engagement, and reflects Africa's journey toward effective governance. By doing so, the book scrutinizes African governing systems' responses to crises and offers valuable insights into the continent's quest for progress and transformation. **Designing Equitable and Accessible**

**Online Learning Environments** Kyeyi-Blankson, Lydia, Keengwe, Jared, Ntuli, Esther, 2024-02-07. As the educational sphere witnessed an unprecedented shift to online learning during the COVID-19 pandemic, a pivotal transformation was set in motion. The surge in online enrollment, spanning synchronous, asynchronous, hybrid, and mobile formats, has established the digital domain as a formidable medium of education. However, this transition comes with a responsibility to uphold the principles of equality and accessibility, a responsibility that mirrors the concerns long prevalent in traditional brick-and-mortar classrooms. *Designing Equitable and Accessible Online Learning Environments* is a pioneering endeavor which delves into the multifaceted dimensions of online education and reveals a crucial revelation: that students from disadvantaged backgrounds exhibit a pronounced affinity for online courses. This book magnifies the essence of this observation, venturing beyond the surface to uncover the means to cultivate a genuinely inclusive online pedagogical experience. Meticulously curated, this book amalgamates diverse perspectives from luminaries in the field. The ultimate aspiration is to empower educators, administrators, researchers, and students with a profound understanding of the symbiotic relationship between inclusivity and technology. From theoretical underpinnings to practical strategies, every chapter resonates with the heartbeat of equitable education in the digital age. Embarking on a comprehensive journey, this book is an exploration of design theories that embrace the ethos of diversity, equity, inclusion, and accessibility. Topics span the spectrum from deciphering the architecture of accessible digital tools to unraveling the tapestry of culturally responsive teaching in the virtual classroom.

With the history of multilateral governance and the impact of the global pandemic, there is no doubt that we are at a transition between the system that marked the decades after the Second World War and a more extensive system of international governance that will characterize the world for the next generation. That system may keep the long standing promise to serve the world's least advantaged or it may serve to marginalize them further. For more than a century and a half, the most powerful national governments have created institutions of multilateral governance that promise to make a more inclusive world, a world serving women, working people, the colonized, the backward, the destitute and the despised. That promise and the real impact need deliberation and discussion. The *Handbook of Research on Global Institutional Roles for Inclusive Development* examines the concepts that have powerfully influenced development policy and more broadly examines the role of ideas in these institutions and how they have affected the current development discourse. It enhances the understanding of how these ideas travel within systems and how they are translated into policy, modified, distorted or resisted. Covering topics such as ethical consumption, academic migration and sustainable global capitalism, this book is an essential resource for government officials, activists, management academicians, researchers, students and educators of higher education and educational administration and faculty. **Positioning Women in Conflict Studies**

Hardis Family Assistant Professor of Government, Sabrina Karim, Sabrina Karim, Associate Professor of International Affairs, Daniel W. Hill Jr., Daniel W. Hill (Jr.), 2024. In *Positioning Women in Conflict Studies*, Sabrina Karim and Daniel W. Hill Jr. re-evaluate the literature on gender, international politics and conflict to reveal that the term gender equality is often used to refer to four distinct concepts: women's inclusion, women's rights, harm to women and beliefs about women's roles. They develop original measures for each of these concepts and examine their impact on inter-state war, onset intra-state conflict, onset state repression, human rights violations and terrorism. Overall, Karim and Hill demonstrate how the conceptualization and measurement of gender equality and women's status is critical in understanding how to reduce political violence globally.
