Rights And Reason An Introduction To The Philosophy Of Rights:

Rights and Reason Jonathan Gorman, 2003-09-23 He begins by contrasting the ideas of Plato Hobbes and Locke and their appeal to reason with the empiricism of Hume showing that the issue of whether rights can express independent authoritative standards is inseparable from the longstanding conflict between empiricism and rationalism By examining Kant's attempt to resolve this conflict he shows that Kant changed our understanding of morality and of rights in particular by basing his philosophy on an analysis of human language An outline of Hohfeld's analysis of the language of rights and duties completes the examination of rights and reason Gorman goes on to investigate some substantive criteria for the application of concepts of rights including the beneficiary view of a right group rights non human rights the nature of the individuals who are the bearers of rights the interest theory of rights and the will theory Finally he examines the view that rights and duties are mutually supporting features of a just situation introducing Rawls's theory of justice Throughout Gorman shows that alongside arguments about the content of rights and the myriad claims to rights there are pluralities of theories that offer some understanding of the moral and legal realm and of the places that rights may hold in it *Legal Naturalism*

Olufemi Taiwo, 2015-11-12 *Legal Naturalism* advances a clear and convincing case that Marx's theory of law is a form of natural law jurisprudence It explicates both Marx's writings and the idea of natural law and makes a forceful contribution to current debates on the foundations of law Olufemi Taiwo argues that embedded in the corpus of Marxist writing is a plausible adequate and coherent legal theory He describes Marx's general concept of law which he calls legal naturalism For Marxism natural law isn't a permanent verity it refers to the basic law of a given epoch or social formation which is an essential aspect of its mode of production Capitalist law is thus natural law in a capitalist society and is politically and morally progressive relative to the laws of preceding social formations Taiwo emphasizes that these formations are dialectical or dynamic not merely static so that the law which is naturally appropriate to a capitalist economy will embody tensions and contradictions that replicate the underlying conflicts of that economy In addition he discusses the enactment and reform of positive law law established by government institutions in a Marxian framework **Marx's Discourse with**

Hegel N. Levine, 2012-02-21 The end of Stalinist Russia China's change under Deng Xiaoping and the publication of previously unexplored documents of Marx in the MEGA2 opened a new epoch in the analysis of Marx Marx's Discourse With Hegel is both a product and contribution to this rebirth of Marxism by its reformulation of the relationship between Hegel and Marx **Reasons, Rights, and Values** Robert Audi, 2015-04-02 A wide ranging collection of essays on reasons rights

values and virtues by a leading philosopher of ethics **Getting Things Right** Conor McHugh, Jonathan Way, 2023-01-28 Some of our attitudes are fitting others unfitting Fitting attitudes get things right Conor McHugh and Jonathan Way argue that fittingness is the key to understanding the normative domain the domain of reasons obligations and value They argue that fittingness is a normatively basic property on which all other normative properties depend *Fagothey's Right &*

Right Practical Reason Daniel Westberg, 1994-09-08 This book is a study of the role of intellect in human action as described by Thomas Aquinas One of its primary aims is to compare the interpretation of Aristotle by Aquinas with the lines of interpretation offered in contemporary Aristotelian scholarship The book seeks to clarify the problems involved in the appropriation of Aristotle's theory by a Christian theologian including such topics as the practical syllogism and the problems of akrasia Professor Westberg argues that Aquinas was much closer to Aristotle than is often recognized and he puts forward important new interpretations of the relation of intellect and will in the stages of intention deliberation decision and execution In the concluding section of the book he shows how this new interpretation yields fruitful insights on a range of theological topics including sin law love and the moral virtues

Human Rights After Deleuze Christos Marneros, 2022-11-03 This book examines the possibility of creating new ways of existing beyond human rights Multiple socio political crises and the dominance of neoliberal and capitalist policies have led legal and political theorists to question the emancipatory promise of human rights and to reconceptualise human rights in theory and practice The possibility of creating new ways of existing beyond human rights has been left significantly under examined until now Having as its starting point the ferocious yet brief critique on human rights of one of the most prominent French philosophers of the 20th century Gilles Deleuze the book argues that Deleuze's critique is not only compatible with his broader thought but that it has the potential to give a new impetus to the current critiques of human rights within the disciplinary borders of legal and political theory The book draws upon Deleuze's broader thought but also radical legal and political theory and continental philosophy In particular it investigates and expands on two of Deleuze's most important notions namely those of immanence and becoming and their relation to the philosopher's critique of human rights In doing so it argues that these two notions are capable of questioning the dominant and dogmatic position that human rights enjoy
