expounds on the vision of an administration determined to take bold steps to close the country's infrastructure gap and the key persons who pushed hard to realize this ambitious program. This book reveals the strong political will of President Rodrigo Duterte and his people to uplift the quality of our countrymen's lives. Night Owl is as much an undisputable record of what President Duterte and his team have achieved to upgrade our country's physical infrastructure as it is a well-documented tribute to the sacrifices of the men and women of this administration, both the early birds and the night owls who toiled day and night to deliver on their commitments. For the next set of technocrats who want to know what must come with political will to accomplish such a tremendous undertaking, the doubters who won't believe unless presented with figures and photos, the armchair travelers who wish to experience our provinces vicariously, and the families and friends of the people who took part in constructing these school buildings, evacuation and health centers, roads, bridges, flood control projects, seaports and airports, this book is a good read.

HON. GLORIA MACAPAGAL ARROYO, 14th President of the Philippines

Night Owl is a compelling visual and informative storytelling of Philippine's journey of change and transformation as it rallies the Philippines from a tiger cub economy to a first world country. Anna Mae Lamentillo's book Night Owl provides a bird's eye view of the government's Build, Build, Build program. It's her finishing touches, her additional contribution to her work as the project's chairperson while she was with the DPWH. Inside the pages of Night Owl, one can read about and see the developments that have helped move the country forward, even during the most challenging years brought by the Covid-19 pandemic.
