Rio Tigre and Beyond Frank Bruce Lamb, 1985 Fulfilling Manuel C rdova s promise of another story F Bruce Lamb s *Rio Tigre and Beyond* recounts an unparalleled Amazonian adventure completing the life story of Manuel C rdova Rios who at the beginning of the 20th century was abducted by Native American tribals to be trained as their new shaman Here he remembers the rest of his life a series of missions and adventures guided by his pre Columbian training but in the context of the upper Amazonian Peruvian river city of Iquitos in a world intricately changed by its millennial contact with the imported Columbian civilization **Rio Tigre and Beyond** F. Bruce Lamb, 1985-06-01 Mapping the Amazon Amanda M.

Smith, 2021-05-01 An analysis of the political and ecological consequences of charting the Amazon River basin in narrative fiction *Mapping the Amazon* examines how widely read novels from twentieth century South America attempted to map the region for readers Authors such as Jos Eustasio Rivera R mulo Gallegos Mario Vargas Llosa C sar Calvo M rcio Souza and M rio de Andrade travelled to the Amazonian regions of their respective countries and encountered firsthand a forest divided and despoiled by the spatial logic of extractivism Writing against that logic they fill their novels with geographic human and ecological realities omitted from official accounts of the region Though the plots unfold after the height of the Amazon rubber boom 1850 1920 the authors construct landscapes marked by that first large scale exploitation of Amazonian biodiversity The material practices of rubber extraction resurface in the stories told about the removal of other plants seeds and minerals from the forest as well as its conversion into farmland Smith places the counter discursive impulses of each novel in dialogue with various modernizing projects that carve Amazonia into cultural and economic spaces border commissions extractive infrastructure school geography manuals Indigenous education programs and touristic propaganda Even the novel maps studied however have blind spots and *Mapping the Amazon* considers the legacy of such unintentional omissions today

*National Library of Medicine Current Catalog* National Library of Medicine (U.S.), *Shamanism, History, and the State* Nicholas Thomas, Caroline Humphrey, 1996 Nine case studies of shamanic practice in widely different cultures *Plant Intelligence and the Imaginal Realm* Stephen Harrod Buhner, 2014-05-14 A manual for opening the doors of perception and directly engaging the intelligence of the Natural World Provides exercises to directly perceive and interact with the complex living self organizing being that is Gaia Reveals that every life form on Earth is highly intelligent and communicative Examines the ecological function of invasive plants bacterial resistance to antibiotics psychotropic plants and fungi and the human species In *Plant Intelligence and the Imaginal Realm* Stephen Harrod Buhner reveals that all life forms on Earth possess intelligence language a sense of I and not I and the capacity to dream He shows that by consciously opening the doors of perception we can reconnect with the living intelligences in Nature as kindred beings become again wild scientists nondomesticated explorers of a Gaian world just as Goethe Barbara McClintock James Lovelock and others have done For as

Einstein commented We cannot solve the problems facing us by using the same kind of thinking that created them Buhner explains how to use analogical thinking and imaginal perception to directly experience the inherent meanings that flow through the world that are expressed from each living form that surrounds us and to directly initiate communication in return He delves deeply into the ecological function of invasive plants bacterial resistance to antibiotics psychotropic plants and fungi and most importantly the human species itself He shows that human beings are not a plague on the planet they have a specific ecological function as important to Gaia as that of plants and bacteria Buhner shows that the capacity for depth connection and meaning filled communication with the living world is inherent in every human being It is as natural as breathing as the beating of our own hearts as our own desire for intimacy and love We can change how we think and in so doing begin to address the difficulties of our times
