

Riqueza, pobreza y desarrollo sostenible

❖ Dos caminos divergentes; uno hacia la riqueza, el otro hacia la pobreza

Los países del tercer mundo son los que en su mayoría acogen zonas rurales y padecen de empobrecimiento, desintegración social, una emigración ascendente y desastres ambientales. No obstante, todavía existen debates en cuanto a la asignación de responsabilidades, pero la mayor parte de los sectores rurales siguen en la constante lucha para salir adelante para sobrevivir. Precisamente el debate moderno, busca un desarrollo rural, tratando de alcanzar la sostenibilidad que se presenta en los países tercermundistas.

En la búsqueda de la modernización de los países de América Latina se pone en marcha el progreso en términos frívolos. En cuanto al desarrollo agrícola se premia a los productores encargados de suministrar los recursos y conocimientos orientados a modernizar la producción rural mediante métodos innovadores y agresivos.
