**Owning Ideas** Oren Bracha, 2016-12-01 *Owning Ideas* is a comprehensive account of the emergence of the concept of intellectual property in the United States during the long nineteenth century In the modern

information era intellectual property has become a central economic and cultural phenomenon and an important lever for allocating wealth and power This book uncovers the intellectual origins of this modern concept of private property in ideas through a close study of its emergence within the two most important areas of this field patent and copyright By placing the development of legal concepts within their social context this study reconstructs the radical transformation of the idea Our modern notion of owning ideas it argues came into being when the ideals of eighteenth century possessive individualism at the heart of early patent and copyright were subjected to the forces and ideology of late nineteenth century corporate liberalism     The Cambridge History of the Book in Britain: Volume 6, 1830-1914 David McKitterick,2009-03-05 The years

1830 1914 witnessed a revolution in the manufacture and use of books as great as that in the fifteenth century Using new technology in printing paper making and binding publishers worked with authors and illustrators to meet ever growing and more varied demands from a population seeking books at all price levels The essays by leading book historians in this volume show how books became cheap how publishers used the magazine and newspaper markets to extend their influence and how book ownership became universal for the first time The fullest account ever published of the nineteenth century revolution in printing publishing and bookselling this volume brings The Cambridge History of the Book in Britain up to a point when the world of books took on a recognisably modern form     *Encyclopedia of Nineteenth-Century Photography* John

Hannavy,2013-12-16 The Encyclopedia of Nineteenth Century Photography is the first comprehensive encyclopedia of world photography up to the beginning of the twentieth century It sets out to be the standard definitive reference work on the subject for years to come Its coverage is global an important first in that authorities from all over the world have contributed their expertise and scholarship towards making this a truly comprehensive publication The Encyclopedia presents new and ground breaking research alongside accounts of the major established figures in the nineteenth century arena Coverage includes all the key people processes equipment movements styles debates and groupings which helped photography develop from being a solution in search of a problem when first invented to the essential communication tool creative medium and recorder of everyday life which it had become by the dawn of the twentieth century The sheer breadth of coverage in the 1200 essays makes the Encyclopedia of Nineteenth Century Photography an essential reference source for academics

students researchers and libraries worldwide     *Necessity of Artspeak* Roy Harris,2003-05-01 Are contemporary art theorists and critics speaking a language that has lost its meaning Is it still based on concepts and values that are long out of date Does anyone know what the function of the arts is in modern society Roy Harris breaks new ground with his linguistic approach to the key issues He situates those issues within the long running debate about the arts and their place in society which goes back to the Classical period in ancient Greece Contributors to the debate included some of the most celebrated artists and philosophers of their day Plato Aristotle Leonardo Kant Hegel Wagner Baudelaire Zola Delacroix but none of these eminent figures or their supporters provided a reasoned overview examining the multilingual development of Western

artspeak as a whole Nor did they develop any explicit account of the relationship between the arts and language The Necessity of Artspeak shows for the first time that what have usually been considered problems of aesthetics and artistic justification often have their source in the linguistic assumptions underlying the terms and arguments presented It also shows how artspeak has been and continues to be manipulated to serve the interests of particular social groups and agendas Until the semantics of artspeak is more widely understood the public will continue to be taken in by the latest fads and fashions that propagandists of the art world promote Archives, Documentation, and Institutions of Social Memory Francis Xavier Blouin, William G. Rosenberg, 2007-08-02 Essays exploring the importance of archives as artifacts of culture

Photography and Other Media in the Nineteenth Century Nicoletta Leonardi, Simone Natale, 2018-02-05 In this volume leading scholars of photography and media examine photography's vital role in the evolution of media and communication in the nineteenth century In the first half of the nineteenth century the introduction of telegraphy the development of a cheaper and more reliable postal service the rise of the mass circulation press and the emergence of the railway dramatically changed the way people communicated and experienced time and space Concurrently photography developed as a medium that changed how images were produced and circulated Yet for the most part photography of the era is studied outside the field of media history The contributors to this volume challenge those established disciplinary boundaries as they programmatically explore the intersections of photography and new media during a period of fast paced change Their essays look at the emergence and early history of photography in the context of broader changes in the history of communications the role of the nascent photographic press in photography's infancy and the development of photographic techniques as part of a broader media culture that included the mass consumed novel sound recording and cinema Featuring essays by noteworthy historians in photography and media history this discipline shifting examination of the communication revolution of the nineteenth century is an essential addition to the field of media studies In addition to the editors contributors to this volume are Geoffrey Batchen Geoffrey Belknap Lynn Berger Jan von Brevern Anthony Enns Andr Gaudreault Lisa Gitelman David Henkin Erkki Huhtamo Philippe Marion Peppino Ortoleva Steffen Siegel Richard Taws and Kim Timby Culture and Science in the Nineteenth-Century Media Louise Henson, Geoffrey Cantor, Gowan Dawson, Richard Noakes, Sally Shuttleworth, Jonathan R. Topham, 2017-03-02 Written by literary scholars historians of science and cultural historians the twenty two original essays in this collection explore the intriguing and multifaceted interrelationships between science and culture through the periodical press in nineteenth century Britain Ranging across the spectrum of periodical titles the six sections comprise Women Children and Gender Religious Audiences Naturalizing the Supernatural Contesting New Technologies Professionalization and Journalism and Evolution Psychology and Culture The essays offer some of the first samplings and soundings from the emergent and richly interdisciplinary field of scholarship on the relations between science and the nineteenth century media *A Companion to Nineteenth-Century Art* Michelle Facos, 2018-09-10 A comprehensive

review of art in the first truly modern century A Companion to Nineteenth Century Art contains contributions from an international panel of noted experts to offer a broad overview of both national and transnational developments as well as new and innovative investigations of individual art works artists and issues The text puts to rest the skewed perception of nineteenth century art as primarily Paris centric by including major developments beyond the French borders The contributors present a more holistic and nuanced understanding of the art world during this first modern century In addition to highlighting particular national identities of artists A Companion to Nineteenth Century Art also puts the focus on other aspects of identity including individual ethnic gender and religious The text explores a wealth of relevant topics such as the challenges the artists faced how artists learned their craft and how they met clients the circumstances that affected artist s choices and the opportunities they encountered and where the public and critics experienced art This important text Offers a comprehensive review of nineteenth century art that covers the most pressing issues and significant artists of the era Covers a wealth of important topics such as ethnic and gender identity certain general trends in the nineteenth century an overview of the art market during the period and much more Presents novel and valuable insights into familiar works and their artists Written for students of art history and those studying the history of the nineteenth century A Companion to Nineteenth Century Art offers a comprehensive review of the first modern era art with contributions from noted experts in the field
