*The Rise of the Social Sciences and the Formation of Modernity* J. Heilbron, Lars Magnusson, Björn Wittrock, 2013-12-01  
This volume offers one of the first systematic analyses of the rise of modern social science. Contrary to the standard accounts of various social science disciplines, the essays in this volume demonstrate that modern social science actually emerged during the critical period between 1750 and 1850. It is shown that the social sciences were a crucial element in the conceptual and epistemic revolution which paralleled and partly underpinned the political and economic transformations of the modern world. From a consistently comparative perspective, a group of internationally leading scholars takes up fundamental issues such as the role of the Enlightenment and the French Revolution in the shaping of the social sciences, the changing relationships between political theory and moral discourse, the profound transformation of philosophy and the constitution of political economy and statistics.

**Frontiers of Sociology** Peter Hedström, Björn Wittrock, 2009-01-01. The 37th World Congress of the IIS focused on theory and research at the forefront of sociology and the relationship between sociology and its neighbouring disciplines. This volume constitutes a sustained effort by prominent sociologists and other social scientists to assess the current standing of sociology. It is a stocktaking of the unique nature of sociology in the light of advances within the discipline itself and within a range of neighbouring disciplines. Some of the chapters outline institutional and professional strategies for sociology in the new millennium. Others trace scholarly advances and propose ambitious research programmes drawing on recent developments not only within traditional neighbouring disciplines such as history, political science and economics but also within the cognitive, cultural and mathematical sciences. Contributors include Hans Peter Blossfeld, Raymond Boudon, Richard Breen, Christofer R Edling, S N Eisenstadt, Jack Goldstone, Philip Gorski, Peter G rdenfors, Ulf Hannerz, Peter Hedström, Hans Joas, Dietrich Rueschemeyer, Jens Rydgren, Neil Smelser, Aage B S rensen, Richard Swedberg, Piotr Sztompka, Peter Wagner and Björn Wittrock.

*Sociological Knowledge and Collective Identity* Stavit Sinai, 2019-03-28. Sociology emerging in the 19th

century as the study of national societies is the intellectual product of its time power relations and social imaginaries As a discursive practice that was enmeshed in the meta narratives of modernity the discipline of sociology bears the inherent capacity to shape socially shared concepts and construct collective identities This book examines the relationships between sociology and projects of national identity construction and presents a critique of Shmuel N Eisenstadt the prominent Israeli sociologist known as the father of Israeli sociology The book focuses on Eisenstadt s sociology of Israel as a case of knowledge construction within an ideological system and examines the relationships between his various sociological analyses of Israeli society and the Zionist imaginary namely the deeply entrenched political myths and historiographical narratives that constitute Israel s hegemonic national identity By emphasizing the interrelation between textuality identity and loaded language the volume seeks to demythologize Eisenstadt s sociology of Israel Three major concepts in Eisenstadt s scholarship are specifically thematized integration civilization and modernities In each of these foci the author shows how Eisenstadt s sociological conjectures reproduce dominant Zionist historiographical representations of the past rationalize prevalent social hierarchies reify the boundaries of a national collective Self and render legitimacy to Israel s governing ethnocratic tendencies underlying the premises of the Zionist settler colonial project Sociological Knowledge and Collective Identity will appeal to those interested in the interconnectedness of sociology and political memory as well as in a radical postcolonial reconstruction of sociology

**Culture and Context in World Politics** Stephanie Lawson, 2006-09-05 This wide ranging historically informed study examines the career of the culture concept and related notions of context in comparative and international politics tracing connections through the disciplines of anthropology and history as well as through issues in nationalism and democracy

**The Moral Fabric in Contemporary Societies** Grażyna Sknapska, Anna Maria Orla-Bukowska, Krzysztof Kowalski, 2003 These IIS annals delve into the issues of trust economic inequalities multiple modernities postcommunism corruption and finally genocide and its social consequences The book opens and closes with reflections on the theoretical aspects of what constitutes the moral fabric today

**Languages of Reform in the Eighteenth Century** Susan Richter, Thomas Maissen, Manuela Albertone, 2019-10-18 Societies perceive Reform or Reforms as substantial changes and significant breaks which must be well justified The Enlightenment brought forth the idea that the future was uncertain and could be shaped by human beings This gave the concept of reform a new character and new fields of application Those who sought support for their plans and actions needed to reflect develop new arguments and offer new reasons to address an anonymous public This book aims to compile these changes under the heuristic term of languages of reform It analyzes the structures of communication regarding reforms in the 18th century through a wide variety of topics

Axial Civilizations And World History Jöðhann Póllason, S. Shmuel Noah Eisenstadt, Björn Wittrock, 2005 A collection of essays by social theorists historical sociologists and area specialists in classical biblical and Asian studies The contributions deal with cultural transformations in major civilizational centres during the Axial Age the middle centuries of

the last millennium BCE and their long term consequences

### **The Anthem Companion to Auguste Comte** Andrew

Wernick, 2017-05-15 For most of the twentieth century Auguste Comte a controversial but highly influential nineteenth century figure and his vast treatises on positive philosophy politics and religion were disregarded and largely ignored More recently however Comte's life and writings have been reexamined together with the project of social reform to which his intellectual labors were devoted producing a much more complicated picture of his thought and its significance The Anthem Companion to Auguste Comte with ten new critical essays by leading Comte scholars sociologists intellectual historians social theorists and philosophers aims to further this reexamination while also providing a multifaceted introduction to Comte's thought and to current discussion about him The essays also examine Comte's relation to a multiplicity of other thinkers and his place more generally in the formation and legacy of modern Western thought *The Cambridge History of Science: Volume 7, The Modern Social Sciences* David C. Lindberg, Theodore M. Porter, Roy Porter, Ronald L.

Numbers, 2003-08-04 This volume provides a history of the concepts practices institutions and ideologies of social sciences including behavioural and economic sciences since the eighteenth century It offers original synthetic accounts of the historical development of social knowledge including its philosophical assumptions its social and intellectual organization and its relations to science medicine politics bureaucracy philosophy religion and the professions Its forty two chapters include inquiries into the genres and traditions that formed social science the careers of the main social disciplines psychology economics sociology anthropology political science geography history and statistics and international essays on social science in Eastern Europe Asia Africa and Latin America It also includes essays that examine the involvement of the social sciences in government business education culture and social policy This is a broad cultural history of social science which analyzes from a variety of perspectives its participation in the making of the modern world Public Spheres and Collective Identities

Shmuel Noah Eisenstadt, Wolfgang Schluchter, Björn Wittrock, Today it is assumed that we understand contemporary nationalism and nation building Researchers rarely consider the very different traditions from which such state building emerged Instead there is almost too much discussion of the global village with its supposed uniformity and inevitable trajectories We need to view modernity as something other than a single condition with a preordained future New visions of a modern civilization are emerging throughout the world calling for a far reaching appraisal of the older visions of modernization Following Eisenstadt's and Schluchter's introduction Björn Wittrock explores the varieties and transitions of early modern societies noting that only by looking at societies collective identities and their modes of mediating in the public sphere can the distinguishing factors between modernity be appreciated Sheldon Pollock discusses the use of vernacular language in India through its literary culture and polity 1000-1500 Sanjay Subrahmanyam sums up major developments in the recent historiography of South Asia from 1400 to 1750 David L Howell focuses on the boundaries of the early modern Japanese state including its political boundaries and the boundaries of collective identity and social status Mary Elizabeth

Berry examines public life in authoritarian Japan Frederic Wakeman Jr probes the boundaries of the political game and how they were affected by the increased political centralization that developed after the disorder of the Ming Qing transition during the seventeenth century Alexander Woodside discusses territorial order and collective identity tensions in Confucian Asia Bernhard Giesen argues that the French Enlightenment can be described as an extension of absolutist court culture Finally essay Vctor Prez Daz examines the state and public sphere in Spain during the Ancient Regime contrasting two ideal types of states a nomocratic model and a teleocratic model This volume addresses cultural and political practices not only from outside the European and American spheres but also over long periods of time in which the internal dynamics of other civilizations become visible Its broad ranging use of empirical materials enables us to think comparatively and historically about the ways in which different modernities took shape Shmuel N Eisenstadt is professor emeritus of sociology The Hebrew University of Jerusalem Wolfgang Schluchter is professor of sociology University of Heidelberg and dean of the Max Weber Center for Cultural and Social Studies University of Erfurt Bjrn Wittrock is Lars Hierta Professor of Government at Stockholm University and director and permanent fellow of the Swedish Collegium for Advanced Study in the Social Sciences SCASSS at Uppsala

**Social Studies of Science and Technology: Looking Back, Ahead** B. Joerges, H. Nowotny, 2012-12-06 BERNW ARD JOERGES AND HELGA NOWOTNY YET ANOTHER TURN The thing that doesn t fit is the thing that s most interesting Richard Feynman This volume was originally conceived as a contribution to yet another turn not captured by one of the many adjectives that have served to describe the collective meandering of the scholarly community in search of direction It was meant to mark the millennial turn a seemingly purely chronological event but one in search for great meanings and invested with loaded significances The editors wanted to seize the opportunity of the moment in order to pause and reflect on the sociology and history of social studies of science and technology The moment came and went and the new

millennium barely nine months later thrust its historical marker upon the world through a horrendous and cruel shock in an unforeseen and unforeseeable way Since then the world appears more vulnerable and volatile fragmented and fraught with uncertainty The universal values as bequeathed by the Enlightenment are either refused or appear refuted The dream of a universal civilization which has accompanied the unfolding of the existing multiple modernities in their historically unique trajectories has been discarded and its promises in tatters      Discourse and Knowledge Piet Strydom,2000-11-01 By closely analysing the contributions of such theorists as More Hobbes Vico Montesquieu Ferguson and Millar to the emergence of sociology in its original form Piet Strydom follows the discursive construction of sociology in the context of the society wide early modern practical discourse about violence and rights Parallels with the nineteenth and twentieth century discourse on poverty and justice and the contemporary discourse of risk and responsibility allow the author to reflect not only on the generation of knowledge through discourse but also on the role that sociology itself plays in this process      Identity, Culture and Globalization Yitzhak Sternberg,2021-10-01 This book is about contemporary sociological analysis its discussions contradictions and controversies Authors from various backgrounds discuss developments on all continents The 34 contributions are centered on six themes The first is multiple modernities showing us that there is no single road to the modernization of societies The second theme is globalization with new concepts like spatialization world languages and new social movements In part three multiculturalism and diaspora movements are viewed as the pivotal factors for change in many societies The fourth theme is the decline of the accountability of the state concentrating on the shortcomings of traditional states and the emergence of new resources In part five the concept of postmodernity is discussed from the angles of identity social reality detachment and legacy Finally the sixth part Toward a New Agenda looks into the future and lets sociology or rather social knowledge play a major part in today s society This volume is a rich collection of practical examples and solid arguments by some of the best sociologists in the world Also available in paperback ISBN 9789004128736

Geographies of Knowledge Robert J. Mayhew,Charles W. J. Withers,2020-08-18 A path breaking exploration of how space place and scale influenced the production and circulation of scientific knowledge in the nineteenth century Over the past twenty years scholars have increasingly questioned not just historical presumptions about the putative rise of modern science during the long nineteenth century but also the geographical contexts for and variability of science during the era In Geographies of Knowledge an internationally distinguished array of historians and geographers examine the spatialization of science in the period tracing the ways in which scale and space are crucial to understanding the production dissemination and reception of scientific knowledge in the nineteenth century Engaging with and extending the influential work of David Livingstone and others on science s spatial dimensions the book touches on themes of empire gender religion Darwinism and much more In exploring the practice of science across four continents these essays illuminate the importance of geographical perspectives to the study of science and knowledge and how these ideas made and contested locally could travel the globe

Dealing with everything from the local spaces of the Surrey countryside to the global negotiations that proposed a single prime meridian from imperial knowledge creation and exploration in Burma India and Africa to studies of metropolitan scientific cum theological tussles in Belfast and in Confederate America *Geographies of Knowledge* outlines an interdisciplinary agenda for the study of science as geographically situated sets of practices in the era of its modern disciplinary construction More than that it outlines new possibilities for all those interested in knowledge s spatial characteristics in other periods Contributors John A Agnew Vinita Damodaran Diarmid A Finnegan Nuala C Johnson Dane Kennedy Robert J Mayhew Mark Noll Ronald L Numbers Nicolaas Rupke Yvonne Sherratt Charles W J Withers *A History and Theory of the Social Sciences* Peter Wagner, 2001-07-17 Divided into two parts this book examines the train of social theory from the 19th century through to the organization of modernity in relation to ideas of social planning and as contributors to the rationalistic revolution of the golden age of capitalism in the 1950s and 60s Part two examines key concepts in the social sciences It begins with some of the broadest concepts used by social scientists choice decision action and institution and moves on to examine the collectivist alternative the concepts of society culture and polity which are often dismissed as untenable by postmodernists today This is a major contribution to contemporary social theory and provides a host of essential insights into the task of social science today *Sociology and Ideology* Eliezer Ben-Rafael, 2003-11-01 When examining how the social sciences have dealt with ideology one s first impression is often one of considerable confusion Sociology in particular is the scene of heated debates about ideology These debates go sometimes so far as to echo doubts of participants with regard to their opponents scientific endeavor even straightforward denials of their scientific status This volume brings together a series of articles that throw light on selected aspects of this intricate matter by well known sociologists Boudon Wittrock Arnason Touraine Smolicz Secombe Wieviorka Ben Rafael and Sternberg **The Social Sciences in the Looking Glass** Didier Fassin, George Steinmetz, 2023-02-20 In recent years social scientists have turned their critical lens on the historical roots and contours of their disciplines including their politics and practices epistemologies and methods institutionalization and professionalization national development and colonial expansion globalization and local contestations and public presence and role in society *The Social Sciences in the Looking Glass* offers current social scientific perspectives on this reflexive moment Examining sociology anthropology philosophy political science legal theory and religious studies the volume s contributors outline the present transformations of the social sciences explore their connections with critical humanities analyze the challenges of alternate paradigms and interrogate recent endeavors to move beyond the human Throughout the authors who belong to half a dozen disciplines trace how the social sciences are thoroughly entangled in the social facts they analyze and are key to helping us understand the conditions of our world Contributors Chitralekha Jean Louis Fabiani Didier Fassin Johan Heilbron Miriam Kingsberg Kadia Kristoffer Kropp Nicolas Langlitz John Lardas Modern Ivaro Morcillo Laiz Am n P rez Carel Smith George Steinmetz Peter D Thomas Bregje van
