

# THE RISE AND FALL OF THE BRITISH NANNY

JONATHAN GATHORNE-HARDY

Perhaps the most remarkable and envied of all British institutions is the British Nanny. Yet curiously she has never received the historical and literary treatment which the Nannied classes all over the world would certainly regard as her due. This long-felt gap is now most ably, and entertainingly, filled by the novelist Jonathan Gathorne-Hardy. He has researched the memoirs of the great for their Nanny-memories. He has spoken to dozens who have Nanny-memories – some bitter and alarming, many extremely affectionate. He considers the social role of Nannies in the production of empire-building generations. He does not omit psychology, child-upbringing and adolescent traumas where these are relevant to Nannies. He pinpoints the high seasons of the Nanny in the early years of this century, but also comments on her astonishing resilience. In a revolutionary world the stable values for which she stands might seem outmoded but are not. No *in part* incursion can replace her – she is unique; and this is a very brilliant and indeed important account of who and what she is.

Bardic Nationalism Katherine M Trumpener, 2021-01-12 This magisterial work links the literary and intellectual history of England Scotland Ireland and Britain's overseas colonies during the late eighteenth and early nineteenth centuries to redraw our picture of the origins of cultural nationalism the lineages of the novel and the literary history of the English speaking world Katie Trumpener recovers and recontextualizes a vast body of fiction to describe the history of the novel during a period of formal experimentation and political engagement between its eighteenth century rise and its Victorian heyday During the late eighteenth century antiquaries in Ireland Scotland and Wales answered modernization and anglicization initiatives with nationalist arguments for cultural preservation Responding in particular to Enlightenment dismissals of Gaelic oral traditions they reconceived national and literary history under the sign of the bard Their pathbreaking models of national and literary history their new way of reading national landscapes and their debates about tradition and cultural transmission shaped a succession of new novelistic genres from Gothic and sentimental fiction to the national tale and the historical novel In Ireland and Scotland these genres were used to mount nationalist arguments for cultural specificity and against internal colonization Yet once exported throughout the nascent British empire they also formed the basis of the first colonial fiction of Canada Australia and British India used not only to attack imperialism but to justify the imperial project Literary forms intended to shore up national memory paradoxically become the means of buttressing imperial ideology and enforcing imperial amnesia
