Japanese Literature John Whittier Treat,2018-04-03 The Rise and Fall of Modern Japanese Literature tells the story of Japanese literature from its start in the 1870s against the backdrop of a rapidly coalescing modern nation to the present John Whittier Treat takes up both canonical and forgotten works the non literary as well as the literary and pays special attention to the Japanese state s hand in shaping literature throughout the country s nineteenth century industrialization a half century of empire and war its post 1945 reconstruction and the challenges of the twenty first century to modern nationhood Beginning with journalistic accounts of female criminals in the aftermath of the Meiji civil war Treat moves on to explore how woman novelist Higuchi Ichiyo s stories engaged with modern liberal economics sex work and marriage credits Natsume Soseki s satire I Am a Cat with the triumph of print over orality in the early twentieth century and links narcissism in the visual arts with that of the Japanese I novel on the eve of the country s turn to militarism in the 1930s From imperialism to Americanization and the new media of television and manga from boogie woogie music to Yoshimoto Banana and Murakami Haruki Treat traces the stories Japanese audiences expected literature to tell and those they did not The book concludes with a classic of Japanese science fiction a description of present day crises writers face in a Japan hobbled by a changing

economy and unprecedented natural and manmade catastrophes The Rise and Fall of Japanese Literature reinterprets the end of literature a phrase heard often in Japan as a clarion call to understand how literary culture worldwide now teeters on a historic precipice one at which Japan's writers may have arrived just a moment before the rest of us **The Meiji**

Restoration W. Beasley, 1972-06-01 First there are questions concerning the role and relative importance of internal and external factors in the pattern of events Did the activities of the Western powers prompt changes in Japan that would not otherwise have taken place Or did they merely hasten a process that had already begun Similarly did Western civilization give a new direction to Japanese development or do no more than provide the outward forms through which indigenous change could manifest itself Was it a matrix or only a shopping list Second how far was the evolution of modern Japan in some sense inevitable Were the main features of Meiji society already implicit in the Meiji reforms only awaiting an appropriate trigger to bring them into being More narrowly was the character of Meiji institutions determined by the social composition of the anti Tokugawa movement or did it derive from a situation that took shape only after the Bakufu was overthrown This is to pose the problem of the relationship between day to day politics and long term socioeconomic change One can argue paraphrasing Toyama that the political controversy about foreign affairs provided the means by which basic socioeconomic factors became effective or one can say with Sakata that the relevance of socioeconomic change is that it helped to decide the manner in which the fundamental political ramifications of the foreign question were worked out The difference of emphasis is significant Finally have recent historians in their preoccupation with other issues lost sight of something important in their relative neglect of ideas qua ideas Ought we perhaps to stop treating loyalty to the Emperor as simply a manifestation of something else After all the men whose actions are the object of our study took that loyalty seriously enough certainly as an instrument of politics if not as an article of faith The Undefeated Robert Harvey, 1994
