The Economics of Asymmetric Information B. Hillier, 1997-04-07 This book presents recent developments in the economics of asymmetric information. The problems of selection and moral hazard with hidden actions or hidden information are introduced by examining how they affect the market for investment finance. The ideas are then used to analyse the market for insurance, signalling and screening models of education, efficiency wages, industrial regulation, public procurement and auctions. Coverage is thorough while avoiding excessive mathematical detail. Diagrams and verbal reasoning make the ideas accessible to intermediate level undergraduate students and beyond.

Statistics For Business And Financial Economics (2nd Edition) Cheng Few Lee, John C Lee, Alice C Lee, 1999-08-16 News Professor Cheng Few Lee ranks 1 based on his publications in the 26 core finance journals and 163 based on publications in the 7 leading finance journals. Source: Most Prolific Authors in the Finance Literature 1959-2008 by Jean L Heck and Philip L Cooley. Saint Joseph's University and Trinity University. This is an extensively revised edition of a popular statistics textbook for business and economics students. The first edition has been adopted by universities and colleges worldwide including New York University, Carnegie Mellon University and UCLA. Designed for upper level undergraduates, MBA and other graduate students, this book closely integrates various statistical techniques with concepts from business, economics and finance and clearly demonstrates the power of statistical methods in the real world of business. While maintaining the essence of the first edition, the new edition places more emphasis on finance, economics and accounting concepts with updated sample data. Students will find this book very accessible with its straightforward language, ample cases, examples, illustrations and real life applications. The book is also useful for financial analysts and portfolio managers.
