Rommel's North Africa Campaign Jack Greene, 1999 *The War in North Africa, 1940-1943* Colin F. Baxter, 1996-03-30

Few of the major campaigns of World War II aroused as much controversy as the War in North Africa 1940-1943. Figures such as Rommel, Montgomery, and Eisenhower would become world famous because of the fighting in North Africa. This book opens with seven historiographical essays that evaluate and critically assess the major contributions to the literature on the War in North Africa. It then includes an alphabetically arranged bibliography of the 504 entries cited in the essays. The material is easily accessible with cross references between the text and the bibliography and a full index. The volume includes chapters on the Desert War 1940-42, the Axis Powers in North Africa, Montgomery, Alam Halfa, and El Alamein, TORCH, the Landings in French North Africa, and the Tunisian Campaign. Full attention is given to questions and issues historians have raised on such controversies as the Auchinleck-Montgomery dispute, the debate over Operation TORCH, and the Darlan affair. Emphasis is on English language works, but the most significant Italian, German, and French works are cited and assessed. The book has been written for use in public college, university, and institutional libraries and to serve general readers and military historians.

Rommel's North Africa Campaign Jack Greene, Alessandro Massignani, 1994-05-21. In the deserts of North Africa and the Middle East, some of World War II's greatest legends were born. As Erwin Rommel, the Desert Fox, led his Afrika Korps against the Desert Rats of the British 8th Army led by Bernard Montgomery, both sides recruited local people to their cause, winning stunning victories but planting the seeds of conflicts to come.

Hitler and His Allies in World War Two Jonathan Adelman, 2020-03-25. In an area where in-depth studies of Hitler's relations with Nazi Germany's allies and the failure of Nazi Germany to make more effective use of them during the war are scant, this is a survey that looks at the Soviet Union, Japan, France, Italy, Spain, Romania, and Hungary and their relationship to Nazi Germany. Using a comparative approach, seven case studies examine themes such as co-operation and resistance, military and economic aid, treatment of Jews, relations with the enemies, and the popular sentiment towards Germany. Jonathan Adelman has provided students of the Second World War with a welcome mine of information and a unique perspective on a much studied topic.

Fighting Rommel Kaushik Roy, 2019-09-10. *Fighting Rommel* examines how and why some armies innovate under pressure while others do not. Focusing on the learning culture of the British Imperial Forces, it looks at the Allied campaign during the Second World War against the Afrika Korps of Rommel. The volume highlights the hitherto unexplored yet key role of the British Indian Army, the largest volunteer force in the world. It also introduces learning culture as a heuristic device. Further, it goes on to analyze military innovation on the battlefield in victory and defeat. A major intervention in the study of the Second World War, this book will be indispensable to scholars and researchers of military history, especially British and German battlefield history and defence and strategic studies.

Rommel's Desert Commanders Samuel W. Mitcham

Jr.,2007-02-28 Perhaps the most famous and admired soldier to fight in World War II was Field Marshal Erwin Rommel who achieved immortality as the Desert Fox Rommel's first field command during the war was the 7th Panzer Division also known as the Ghost Division which he led in France in 1940 During this campaign the 7th Panzer suffered more casualties than any other division in the German Army at the same time inflicting a disproportionate number of casualties upon the enemy It took 97 486 prisoners captured 458 tanks and armored vehicles 277 field guns 64 anti tank guns and 4 000 to 5 000 trucks It captured or destroyed hundreds of tons of other military equipment shot down 52 aircraft destroyed 15 more aircraft on the ground and captured 12 additional planes It destroyed the French 1st Armored Division and the 4th North African Division punched through the Maginot Line extension near Sivry and checked the largest Allied counteroffensive of the campaign at Arras When France surrendered the Ghost Division was within 200 miles of the Spanish border No doubt about it Rommel had proven himself a great military leader who was capable of greater things His next command in fact would be the Afrika Korps where the legend of the Desert Fox was born Rommel had a great deal of help in France much more than his published papers suggest His staff officers and company battalion and regimental commanders were an extremely capable collection of military leaders that included 12 future generals two of them SS and two colonels who briefly commanded panzer divisions but never reached general rank They also included Colonel Erich von Unger who would no doubt have become a general had he not been killed in action while commanding a motorized rifle brigade on the Eastern Front in 1941 as well as Karl Hanke a Nazi gauleiter who later succeeded Heinrich Himmler as the last Reichsfuehrer SS No historian has ever recognized the talented cast of characters who supported the Desert Fox in 1940 No one has ever attempted to tell their stories This book remedies that deficiency

The Bloody Road to Tunis David Rolf,2015-02-03

Tank Warfare Jeremy

Black,2020-10-27 An insightful and informative overview of the role of tanks in combat from the First World War to the present day Dennis Showalter author of *Armor and Blood* The story of the battlefield in the twentieth century was dominated by a handful of developments Foremost of these was the introduction and refinement of tanks In *Tank Warfare* Jeremy Black a recipient of the Samuel Eliot Morison Prize from the Society for Military History offers a comprehensive global account of the history of tanks and armored warfare in the twentieth and twenty first centuries First introduced onto the battlefield during World War I tanks represented the reconciliation of firepower and mobility and immediately seized the imagination of commanders and commentators concerned about the constraints of ordinary infantry The developments of technology and tactics in the interwar years were realized in the German blitzkrieg in World War II and beyond Yet the account of armor on the battlefield is a tale of limitations and defeats as well as of potential and achievements *Tank Warfare* examines the

traditional narrative of armored warfare while at the same time challenging it and Black suggests that tanks were no silver bullet on the battlefield Instead their success was based on their inclusion in the general mix of weaponry available to commanders and the context in which they were used An excellent overview of the subject Alaric Searle author of Armoured Warfare A Military Political and Global History

The Second Great War John Alexander Hammerton,1943 Warlord Hitler Alan Donohue,2023-10-24 This book is a study of Adolf Hitler in his role as military commander and strategist from the beginning of the Second World War until the end of 1942 examining in detail the campaign in southern Russia that year The thesis challenges the post war narrative of Hitler as a dilettante who was solely responsible for the strategic and operational errors that led to Germany s defeat in the war Instead this research highlights that decisions made by Hitler with respect to such disparate themes as strategy operations logistics intelligence economics air and naval power and coalition warfare were generally sound if viewed from his perspective even if they were not ultimately successful It also gives an overview of his own ideas concerning all aspects of military affairs such as intelligence command and morale The careful analysis of Hitler s decision making process offers a unique contribution to Second World War scholarship and moves beyond a superficial understanding that the war s outcome was a result of Hitler s ineptitude as a military leader Warlord Hitler will appeal to postgraduates and specialists in military history as well as general readers interested in a deeper study of the Second World War

Historical Abstracts ,1971 Vols 17 18 cover 1775 1914

The North African Campaign of World War II Charles River Charles River Editors,2017-09-12 Includes pictures Includes contemporary accounts of the fighting Includes online resources and a bibliography for further reading It may almost be said Before Alamein we never had a victory After Alamein we never had a defeat Winston Churchill The fighting in North Africa during World War II is commonly overlooked aside from the famous battle at El Alamein that pitted the British under General Bernard Montgomery against the legendary Desert Fox Erwin Rommel But while the Second Battle of El Alamein would be the pivotal action in North Africa the conflict in North Africa began all the way back in the summer of 1940 when Italian dictator Benito Mussolini declared Italy s entrance into the war From his perspective the fact that the British and French had their hands full with the Germans created an opportunity for Italy to enlarge its colonial holdings in Africa by seizing portions of the British Empire However British troops in the colony of Egypt responded to Italy s declaration of war by driving through the Egyptian Ethiopian border and attacking Italian troops stationed in the Italian colony of Ethiopia By September 13 1940 Italian commanders in Ethiopia were finally ready to put Mussolini s plan into action and attack British colonial holdings but British troops had already attacked a series of Italian frontier posts and had inflicted 3 500 casualties among Italy s North African troops Although British maneuvering in North Africa began successfully against the Italians the British forces suffered a series of defeats over the next two years due to several problems the British army faced as a result of inadequate preparation and weaponry For example when the war began junior officers were unprepared for the kind of cooperation between units that was necessary in

the battles of North Africa At the same time while British tanks were capable of opposing Italian tanks they were vastly inferior to German models Dealing with the Italians was one thing but the British faced an entirely different monster in North Africa when Erwin Rommel a German general who had gained much fame for his role in the invasions of Poland and France was sent to North Africa in February 1941 Rommel's directives from the German headquarters were to maneuver in a way that would allow him to hide the fact that his ultimate goal was the capture of Cairo and the Suez Canal The ultimate plan was that Rommel would not reveal the Germans true intentions in North Africa until after the Germans had made headway in their invasion of the Soviet Union The Second Battle of El Alamein was a turning point in the campaign While the scale of the battle paled in comparison to the battles of the Eastern Front where the majority of German troops were concentrated it still marked an important victory in World War II especially from the British perspective The British who had suffered through three years of war in which they seemed to teeter on the brink of defeat were able to hang their hats on the victory reviving the nation's morale and reaffirming its military might Over the next few weeks the Allies made steady progress and forced Rommel to conduct a fighting retreat to safety until his army linked up with another Axis army in Tunisia but the fighting at the end of 1942 inevitably compelled all Axis forces to quit the theater the first time since the beginning of the war that Africa was safe for the Allies The North African Campaign of World War II The History and Legacy of the Decisive Allied Victory in North Africa examines one of the most important campaigns of the war Along with pictures depicting important people places and events you will learn about the North African campaign like never before What Made Us who We are Today ,2002 a glimpse into the lives of US military and civilian men women and children during World War II While historically accurate the emphasis is on real people rather than a history of the war itself The vignettes reveal a slice of life the experiences of people living working and serving during wartime The stories are grouped around US holidays Pearl Harbor Remembrance Day Memorial Day Independence Day Patriots Day American Gold Star Mothers Day and Veterans Day

Tapping Hitler's Generals Sönke Neitzel,2007 This edition includes an updated Introduction Notes and Biographies and a new Foreword by Ian Kershaw T p verso Current Biography ,1951 *The Desert War* Alan Moorehead,1965 Covering the North Africa campaign in 1940 this acclaimed account of the tussle between Montgomery's Eighth Army and Rommel's Afrika Corps is a remarkable account of one of the most complicated and epic stand offs in the history of World War II Beautifully documented and historically relevant Moorehead's celebrated insight that tank battles in the desert reflected battles at sea the lumbering tanks like ships lost in a vast ocean of sand and the breadth and penetration of his vision that encompasses the whole panorama of war illustrate why this account is considered to be the definitive reference of the African campaigns From describing the soldier stubbing out his cigarette before going into action to the expression on a tank commander's face as he is hit this poetically scribed documentation is a thorough and fascinating journey into one of history's most pivotal war campaigns *Eighth Army Versus Rommel* James Colvin,2020-10-19 An explanation of why things

went wrong for the Eighth Army for so long despite the best efforts of brave and determined men **At Rommel's Side**

Hans-Joachim Schraepler, 2009-07-27 Erwin Rommel Hitler's so called Desert Fox is possibly the most famous German Field Marshal of WWII. He is widely regarded as the one of the most skilled commanders of desert warfare and in contrast to other leaders of Nazi Germany is considered to have been a chivalrous and humane officer. The letters of his adjutant provide a unique picture of Rommel during his time in Libya. Hans Joachim Schraepler was by Rommel's side in North Africa for ten crucial months in 1940-41. During that time he wrote to his wife almost every day. In most cases the correspondence went via the usual channels but occasionally he used other methods to avoid the censor's gaze. Through his letters Schraepler supplies a vivid image of the first phase of the North Africa campaign. He covers the siege of Tobruk, the capture of Benghazi and the difficulties experienced by those fighting in Cyrenica and the wider North African theatre. He also complains that the Italians were poor Allies lacking training and leadership and that Berlin regarded North Africa as a theatre of only secondary importance. Schraepler also provides insights into Rommel's character, his dynamism and tactical skill along with the growing cult of personality which seemed to surround him. One of his unofficial tasks for example was to respond in Rommel's name to much of the fan mail that arrived at the Afrikakorps HQ. Hans Albrecht Schraepler was only seven years old when his father died. The cache of letters was held by his mother and remained untouched for sixty years. His father's last letter found the day of his death remains unfinished.
