**Science, World, and Faith** Henry Jackson, 2005-08-22 *Science World and Faith* by Henry Jackson tackles the ongoing debate between science and religion providing many answers to the questions asked by those who are hesitant to embrace the truths of Christianity Jackson addresses the serious doubts readers might have about the existence of God and supplies them with reasonable and reliable answers Both educated and insightful Jackson is well versed in the world of science and makes a compelling argument for the sincere truth and authenticity of the Christian faith *Never-Ending Prayer* Bert Hoedemaker, 2022-01-01 Is Christian tradition to be maintained as the absolute body of truth Can it be used selectively depending on the preferences of individual believers What can religious truth possibly mean in our age of opinions and overwhelming cultural diversity These are unsettling questions for Christians their effect aggravated by our daily encounter with non western cultures and non Christian religions and by the increasing presentation of secularism and atheism as the normal way of life In *Never Ending Prayer* Bert Hoedemaker outlines the continuing importance of tradition while showing that in facing these challenges our understanding of tradition needs a reset Drawing on his own experiences of world Christianity he reconstructs the Christian tradition in such a way that it no longer defines and defends itself as a specific body of concepts and practices over against the world but as a living community originating in and remaining in interaction with humanity's permanent struggles It is presented as a system of religious imagination in which prayer is the driving force and reconciliation is seen as the destination of humankind **Evolution of Faith and Religion** Ajit Randhawa, 2009-08

**The Philosophy of Kant** Victor Cousin, 1854

**Reformed Dogmatics** Herman Bavinck, John Bolt, John Vriend, 2003-10. In English for the first time. Bavinck's magnum opus covers the history, literature and foundations of dogmatic theology.

**An Uncertain Certainty** Graham Buxton, 2014-09-25. Many people in Christian ministry are tired of simplistic certainties. What they need is permission to live with uncertainty, with mystery, ambiguity and paradox. Because we live in a world that is far removed from the modernist version of reality with its rational, clinical and superficial presentation of life, we need the courage and wisdom to embrace the presence of uncertainties in the midst of certainty. In this book, the author offers snapshots of a number of central Christian topics: God, the gospel, the church, salvation, ministry, inviting us to treat them as features of a landscape to explore rather than a set of propositional statements to sign up to. Each chapter, short enough to provoke interest and curiosity, will be a catalyst for deeper reflection and enquiry, inviting us to discover a new freedom in ministry as we embrace a more generous both/and perspective in place of a more narrow either/or interpretation of the Christian faith. In the process, we may find ourselves rediscovering the Life we have lost in living as we imaginatively participate in the life, ministry and mystery of the triune God of grace in our midst.

**An Esoteric Cosmology** Rudolf Steiner, 2017-09-03. Based on a series of lectures delivered by Rudolf Steiner in Paris 1906 and transcribed by Eduard Schur. *An Esoteric Cosmology* is a concise but powerful book and essential reading for students of Steiner. **Test of Faith** Jenny Baker, 2009

**The Cultural Defense** Alison Dundes Renteln, 2005. Publisher's description: In a trial in California, Navajo defendants argue that using the hallucinogen peyote to achieve spiritual exaltation is protected by the Constitution's free exercise of religion clause, trumping the state's right to regulate them. An Ibo man from Nigeria sues Pan American World Airways for transporting his mother's corpse in a cloth sack. Her arrival for the funeral, face down in a burlap bag, signifies death by suicide according to the customs of her Ibo kin and brings great shame to the son. In Los Angeles, two Cambodian

men are prosecuted for attempting to eat a four month old puppy The immigrants lawyers argue that the men were following their own national customs and do not realize their conduct is offensive to American sensibilities What is the just decision in each case When cultural practices come into conflict with the law is it legitimate to take culture into account Is there room in modern legal systems for a cultural defense In this remarkable book Alison Dundes Renteln amasses hundreds of cases from the U S and around the world in which cultural issues take center stage from the mundane to the bizarre from drugs to death Though cultural practices vary dramatically Renteln demonstrates that there are discernible patterns to the cultural arguments used in the courtroom The regularities she uncovers offer judges a starting point for creating a body of law that takes culture into account Renteln contends that a systematic treatment of culture in law is not only possible but ultimately more equitable A just pluralistic society requires a legal system that can assess diverse motivations and can recognize the key role that culture plays in influencing human behavior The inclusion of evidence of cultural background is necessary for the fair hearing of a case

years She highlights the ways these two spheres point to universal human values showing readers they don't have to choose between science and Christianity Breathing fresh air into debates that have consisted of more opinions than data Ecklund offers insights uncovered by her research and shares her own story of personal challenges and lessons In the areas most rife with conflict the origins of the universe evolution climate change and genetic technology readers will find fascinating points of convergence in eight virtues of human existence curiosity doubt humility creativity healing awe shalom and gratitude The book includes discussion questions for group use and to help pastors small group leaders and congregants broach controversial topics and bridge the science faith divide     Disturbing Revelation: Leo Strauss, Eric Voegelin, and the Bible  
John J. Ranieri, 2008 Ranieri shows how Leo Strauss and Eric Voegelin drew on biblical texts in their philosophies to explore the relationship between religion politics and violence while maintaining a deep ambivalence about the Bible's vision of life and its influence on politics and finally compares their thought with that of Ren Girard Provided by publisher
