Misunderstandings of biblical creation texts have resulted from a lack of appreciation of the cultural context of the inspired writers Views of nature have changed greatly over history At the time of ancient Israel people gazed up to the star studded firmament that separated the waters above from the waters below and the land Land was bounded by sea which merged with the waters above at the horizon The universe was close and intimate Pagan peoples believed gods occupied this realm and accounted for much of observed cause and effect Biblical writers also viewed nature in this context However they were distinctly monotheistic writing of a supreme God who made and gave meaning to everything God chose a covenant relationship with a select people This relationship was based on belief in God faith Fast forward through many twists and turns of intellectual history and we come to the modern scientific age We picture our home as a spherical planet rotating once a day and orbiting the sun yearly We gaze out at a vast space seeing distant suns the stars and enormous collections of stars galaxies Light travels at a known speed thus astronomers peer back to times billions of years in the past We need to avoid concordism conflating modern views with the biblical text The concordism error has occurred throughout church history up to the present The book addresses this as well as some discoveries of modern science that were unknown to ancient people Such discoveries give us good reason to bow in awe before the Creator Even though mankind s views of nature have greatly changed with time the message of the Bible is the same We come to God through faith as did Abraham who saw more than meets the eye **Thomas Troward: Ultimate Collection** Thomas Troward,2019-06-03

Forbidden Archeology's Impact Michael A. Cremo,1998 Examines the impact of the author s controversial 1993 book Forbidden Archaeology on the scientific community *Mystery of the Cure* Ronald J. Covington,2023-03-14 God has fine tuned our bodies in order to optimize our overall health and we can take advantage of that by eating in the same patterns as demonstrated in scripture Mystery of the Cure shows how the intermittent fasting eating pattern has unknowingly followed the exact eating patterns that were described in the Bible more than three thousand years ago The overall health benefits and the resulting weight loss for those who choose to adopt these time restricted eating patterns cannot be denied Author Ronald J Covington outlines how an innovative American Civil War doctor way ahead of his time made a discovery that a brilliant doctor at Johns Hopkins University would prove to be true 120 years later Full of uplifting personal narratives and helpful advice this guide uses scientific facts and biblical commentary to show how God created us to optimize our health by eating in the intermittent fasting patterns as demonstrated in the Bible [The Complete Works of Thomas Troward](#) Thomas

generally believed to be the very word of God that is words that were spoken by God at different ages through different people and mediums for the benefit of man. For this reason its contents are taken to be sacred, true and enduring forever. Hence the thought of doing intensive academic works on the various positions of the Bible is hardly done. This is perhaps to avoid questioning the words of God. You either believe the Bible to be true or question it and be looked upon as an unbeliever. On the other hand and unlike religion where one has to believe before seeing because God has said it even when you are not sure that it is God that had said it, science is seeing before believing. Science is a fact that has been tested and proven to be true with the ways and methods of carrying out the tests or experiments clearly written down for anyone who cares to try the process.
