Psychology and the Developing World Stuart C. Carr,John F. Schumaker,1996-04-18 Previous leading commentators on the development of psychology in the Third World have conceived of three major stages an attempt to assimilate Western psychology with predictably negative results the study of indigenous constructs with more relevant applications and finally transcending stage one and stage two to choose theories and methods

on their applied merit alone Psychology and the Developing World has been assembled to document how close psychology has come to researching that stage Contributors were carefully selected to provide a unique overview of the latest applications of the discipline as a whole Their work reveals how psychology is being applied to educational needs management needs and health needs This book shows how development studies and allied disciplines cannot ignore psychology s potential for the Third World

Gene Drives on the Horizon National Academies of Sciences, Engineering, and Medicine, Division on Earth and Life Studies, Board on Life Sciences, Committee on Gene Drive Research in Non-Human Organisms: Recommendations for Responsible Conduct, 2016-07-28 Research on gene drive systems is rapidly advancing Many proposed applications of gene drive research aim to solve environmental and public health challenges including the reduction of poverty and the burden of vector borne diseases such as malaria and dengue which disproportionately impact low and middle income countries However due to their intrinsic qualities of rapid spread and irreversibility gene drive systems raise many questions with respect to their safety relative to public and environmental health Because gene drive systems are designed to alter the environments we share in ways that will be hard to anticipate and impossible to completely roll back questions about the ethics surrounding use of this research are complex and will require very careful exploration Gene Drives on the Horizon outlines the state of knowledge relative to the science ethics public engagement and risk assessment as they pertain to research directions of gene drive systems and governance of the research process This report offers principles for responsible practices of gene drive research and related applications for use by investigators their institutions the research funders and regulators
