Scientific Study Of Mummies:

The Scientific Study of Mummies Arthur C. Aufderheide, 2003 The fact that bodies decay after death has concerned humans throughout the ages Many cultures have attempted to arrest this decay so that bodies are preserved or mummified in a state as near to life as possible but spontaneously mummified bodies are also found Mummies are being studied increasingly to answer questions about the health social standing and beliefs of the population from whence they came and the lessons that they have for modern populations Originally published in 2003 this authoritative reference work explores why people mummify bodies and the mechanisms by which they are preserved details study methods and surveys the myriad examples that can be found worldwide evaluates the use and abuse of mummified bodies throughout the ages and how mummified remains can be conserved for the future Lavishly illustrated *The Scientific Study of Mummies* will be of value to all those interested in paleopathology archaeology and anthropology

The Scientific Study of Mummies Arthur C. Aufderheide, 2003 Review of DH. Ubelaker, 2004 Occasionally forensic scientists are requested to examine mummified remains Even relatively recent remains can become mummified under certain conditions Preserved soft tissue of great antiquity from archeological contexts also can become the subject of forensic analysis Such cases can prove challenging for the forensic scientist because many different factors can lead to unusual soft tissue preservation and human curiosity and travel can disperse such materials continents away from their original sources Analysis of such cases requires not only specialized techniques and knowledge associated with preserved soft tissue but also awareness of the geographical and temporal range of cultural practices that can result in such preservation This new book provides an overview of the relevant issues and a unique summary of the information needed to properly interpret mummified remains

The Virtopsy Approach Michael Thali, Richard Dirnhofer, Peter Vock, 2009-05-14 Charred badly decomposed or mummified corpses as well as those restrictions forced upon coroners by certain religious sects often make autopsies impossible to perform In addition lack of manpower among the personnel charged with performing autopsies frequently creates a backlog of cases in the coroner's office This delay increases the likeli
