Urban,2013-02-24 Scientology s long and complex journey to recognition as a religion Scientology is one of the wealthiest and most powerful new religions to emerge in the past century To its detractors L Ron Hubbard s space age mysticism is a moneymaking scam and sinister brainwashing cult But to its adherents it is humanity s brightest hope Few religious movements have been subject to public scrutiny like Scientology yet much of what is written about the church is sensationalist and inaccurate Here for the first time is the story of Scientology s protracted and turbulent journey to recognition as a religion in the postwar American landscape Hugh Urban tells the real story of Scientology from its cold war era beginnings in the 1950s to its prominence today as the religion of Hollywood s celebrity elite Urban paints a vivid portrait of Hubbard the enigmatic founder who once commanded his own private fleet and an intelligence apparatus rivaling that of the U S government One FBI agent described him as a mental case but to his followers he is the man who solved the riddle of the human mind Urban details Scientology s decades long war with the IRS which ended with the church winning tax exempt status as a religion the rancorous cult wars of the 1970s and 1980s as well as the latest challenges confronting Scientology from attacks by the Internet group Anonymous to the church s efforts to suppress the online dissemination of its esoteric teachings The Church of Scientology demonstrates how Scientology has reflected the broader anxieties and obsessions of postwar America and raises profound questions about how religion is defined and who gets to define it **Understanding Scientology: the Demon Cult** Margery Wakefield,2010-02-24 Understanding Scientology The Demon Cult **Free Zone Scientology** Aled Thomas,2021-04-08 In this novel academic study Aled Thomas analyses modern issues surrounding boundaries and fluidity in contemporary Scientology By using the Scientologist practice of auditing as a case study this book explores the ways in which new types of Scientologies can emerge The notion of Free Zone Scientology is characterised by its horizontal structure in contrast to the vertical hierarchy of the institutional Church of Scientology With this in mind Thomas explores the Free Zone as an example of a developing and fluid religion directly addressing questions concerning

authority leadership and material objects This book by maintaining a double focus on the top down hierarchy of the Church of Scientology and the horizontal fluid nature of the Free Zone breaks away from previous research on new religions which have tended to focus either on new religions as indices of broad social processes such as secularization or globalization or as exemplars of exotic processes such as charismatic authority and brainwashing Instead Thomas adopts auditing as a method of providing an in depth case study of a new religion in transition and transformation in the 21st century This opens the study of contemporary and new religions to a series of new questions around hybrid religions sacred and secular and acts as a framework for the study of similar movements formed in recent decades **Scientology** James R. Lewis,2009-03-11

Scientology is arguably the most persistently controversial of all contemporary New Religious Movements James R Lewis has assembled an unusually comprehensive anthology incorporating a wide range of different approaches In this book a group of well known scholars of New Religious Movements offers an extensive and evenhanded overview and analysis of all of these aspects of Scientology including the controversies to which it continues to give rise **Philosophical Explorations of New**

and Alternative Religious Movements Morgan Luck,2016-04-22 Philosophy of religion is focused chiefly on theism Yet there are a growing number of new and alternative religious movements that would also benefit from philosophical scrutiny This book is the first collection of philosophical essays by a team of international authors focusing on new and alternative religious movements The book begins with an examination of the definition of new religious movements before offering an introduction to and an analysis of core beliefs held by particular movements including Scientology Raelianism Siddha Yoga the Arica School the Church of the Latter Day Saints Mormonism Pantheism Digital Theology New Atheism and the Word of Faith movement Contributors offer an analysis of one or more of the core tenets of the religious movement providing readers with both an insight into the group and the methodology of philosophy of religion Going Clear Lawrence

Wright,2013-01-17 NATIONAL BESTSELLER NATIONAL BOOK AWARD AND NATIONAL BOOK CRITICS CIRCLE AWARD FINALIST From the Pulitzer Prize winning author of The Looming Tower comes an utterly necessary story The Wall Street Journal that pulls back the curtain on the church of Scientology one of the most secretive organizations at work today The Basis for the HBO Documentary Scientology presents itself as a scientific approach to spiritual enlightenment but its practices have long been shrouded in mystery Now Lawrence Wright armed with his investigative talents years of archival research and more than two hundred personal interviews with current and former Scientologists uncovers the inner workings of the church We meet founder L Ron Hubbard the highly imaginative but mentally troubled science fiction writer and his tough driven successor David Miscavige We go inside their specialized cosmology and language We learn about the church s legal attacks on the IRS its vindictive treatment of critics and its phenomenal wealth We see the church court celebrities such as Tom Cruise while consigning its clergy to hard labor under billion year contracts Through it all Wright asks what fundamentally comprises a religion and if Scientology in fact merits this Constitutionally protected label Going

Clear (Enhanced Edition) Lawrence Wright, 2013-01-17 National Book Award Finalist The enhanced eBook edition of Lawrence Wright's revelatory study of Scientology includes additional photographs and documents plus more than thirty minutes of original video taped interviews with former members of the church speaking about what drew them to Scientology and about discovering past lives the church's position on abortion and homosexuality and how the Guardian's Office functions and in interviews with the author Lawrence Wright speaks about his aims in writing this book his respect for his sources and methods of research A clear sighted revelation a deep penetration into the world of Scientology by Pulitzer Prize winning author of *The Looming Tower* the now classic study of al Qaeda's 9/11 attack Based on more than two hundred personal interviews with current and former Scientologists both famous and less well known and years of archival research Lawrence Wright uses his extraordinary investigative ability to uncover for us the inner workings of the Church of Scientology At the book's center two men whom Wright brings vividly to life showing how they have made Scientology what it is today The darkly brilliant science fiction writer L Ron Hubbard whose restless expansive mind invented a new religion And his successor David Miscavige tough and driven with the unenviable task of preserving the church after the death of Hubbard We learn about Scientology's complicated cosmology and special language We see the ways in which the church pursues celebrities such as Tom Cruise and John Travolta and how such stars are used to advance the church's goals And we meet the young idealists who have joined the Sea Org the church's clergy signing up with a billion year contract In *Going Clear* Wright examines what fundamentally makes a religion a religion and whether Scientology is in fact deserving of this constitutional protection Employing all his exceptional journalistic skills of observation understanding and shaping a story into a compelling narrative Lawrence Wright has given us an evenhanded yet keenly incisive book that reveals the very essence of what makes Scientology the institution it is

Handbook of Scientology James R. Lewis, 2017-01-05 The Handbook of Scientology brings together a collection of fresh studies of the most persistently controversial of all contemporary New Religions In recent years increasing scholarly attention has been directed at the Church of Scientology resulting in a small tsunami of new scholarship We have finally reached a point in time where a book on Scientology need not restrict itself to basics Thus for example the historical chapters in the present volume are not really aimed at providing elementary facts on Scientology's background but rather focus on understanding how the Church of Scientology developed over the years In short the Handbook of Scientology will provide a wealth of new information on a topic that one might otherwise have thought exhausted Contributors are Matthew Charet Dorthe Refslund Christensen Carole M Cusack Bernard Doherty Marco Frenschkowski Liselotte Frisk Kjersti Helles y Don Jolly James R Lewis Renee Lockwood Andr's M t T th G bor D niel Nagy Johanna Petsche Erin Prophet Susan Raine David G Robertson Mikael Rothstein Lisbeth Tuxin Rubin Nicole S Ruskell Shannon Trosper Schorey Michelle Swainson Inga B rdsen T llefsen Hugh G Urban Donald A Westbrook and Benjamin Zeller

QAnon & the #Pizzagates of Hell Michael J. Cat, 2022-07-01 Most of the rational world is currently

asking What is wrong with these Qanon people My book Pizzagates of Hell Unreal Stories of Occult Child Abuse by the CIA asks What is right with them Sure Qanon is an unhinged mostly right wing group of individuals that believe the world is run by a left wing cabal of satanic pedophiles But by the time of the 2020 U S presidential election their numbers were growing And not just in the United States There have been contingents in the U K Germany and Australia 89 Qanon supporters in the U S ran for Congress suggesting that Qanon has come to represent a minor political constituency My book doesn't ask what sort of deranged media and cultural environment gave rise to Qanon Instead it asks what it is about their ideology that has caught fire More specifically it asks is there something in the supposedly delusional ravings of this new political movement that might actually be accurate Pedo cabal Check Notorious pedophile and spook Jeffrey Epstein had ties to two U S presidents the king of Saudi Arabia two Israeli prime ministers and the British Royal Family Occultism Check British intelligence relied on Aleister Crowley the disputed grandfather of Satanism as a spy from World War One and beyond U S intelligence agent Lt Col Michael Aquino was an open Satanist accused of ritual sexual abuse of children at multiple daycare centers across the U S and possibly abroad The Illuminati Check The Illuminati may not exist per se but numerous secret societies do exert undue influence on global affairs from the Freemasons and Skull and Bones to Bilderberg and Le Cercle It's hard not to argue that we are ruled by a secret elite Turning Us All into Sex Slaves Question mark Though the long rumored Monarch Program is feasible when one examines the history of the CIA's MK ULTRA there is so far no proof of its existence Once we've asked what Qanon has gotten right

Among the Scientologists Donald A. Westbrook, 2019 The Church of Scientology is one of the most recognizable American born new religions but perhaps the least understood With academic and popular interest on the rise many books have been written about Scientology and surely more will follow Although academics have begun to pay more attention to Scientology the subject has received remarkably little qualitative attention Indeed no work has systematically addressed such questions as what do Scientologists themselves have to say about their religion's history theology and practices How does Scientology act as a religion for them What does lived religion look like for a Scientologist This is not so much a book about the Church of Scientology its leaders or its controversies as it is a compilation of narratives and histories based on the largely unheard or ignored perspectives of Scientologists themselves Drawing on six years of interviews fieldwork and research conducted among members of the Church of Scientology this groundbreaking work examines features of the new religion's history theology and praxis in ways that move discussion beyond apostate driven and expos accounts
