Scots Law And The Mentally Handicapped:

Scots Law and the Mentally Handicapped Adrian D. Ward, 1984 The Care and Training of the Mentally Handicapped Charles Henry Hallas, William I. Fraser, Ronald Charles MacGillivray, 1978 *The Modern Management of Mental Handicap* G.B. Simon, 2012-12-06 The aim of this book is to provide parents staff and others involved with mentally handicapped children and adults with up to date basic information and advice in their management Methods of care treatment and management of a heterogeneous group of people such as the mentally handicapped must of necessity include many disciplines if they are to be given an adequate service This book is an attempt to bring the knowledge and experience of many people together The size of the book could have been increased to include more detail on other aspects of the subject but this might easily have diminished its value as a convenient reference to as wide a readership as possible both professional and non professional The contents deal essentially with the needs of the severely mentally handicapped and should have an application in most parts of the world Much of the information and advice on services and on treatment and management is based on the experience of specialists working in the United Kingdom this now being standard practice in most parts of the world **Mental Health and Scots Law in Practice** Jim J. McManus, Lindsay D. G. Thomson, 2005 Written for those studying the law of contract under the Scottish law system this volume obviates the need for the pile of scribbles and photocopies that students normally rely upon when revising the previous terms work **Rights of Personality in Scots Law** Niall Whitty, 2014-02-08 Explores the law on rights of personality in Scotland compared to other jurisdictions Taking a comparative perspective this book explores the trends and issues affecting the law on rights of personality in jurisdictions drawn from the families of common law civilian law and mixed legal systems The main focus is on the private law of personality rights with due regard paid to the impact of constitutional legislation and other instruments protecting human rights **The Development of Disability Rights Under International Law** Arlene S. Kanter, 2014-11-27 The adoption of the Convention on the Rights of People with Disabilities CPRD by the United Nations in 2006 is the first comprehensive and binding treaty on the rights of people with disabilities It establishes the right of people with disabilities to equality dignity autonomy full participation as well as the right to live in the community and the right to supported decision making and inclusive education Prior to the CRPD international law had provided only limited protections to people with disabilities This book analyses the development of disability rights as an international human rights movement Focusing on the United States and countries in Asia Africa the Middle East the book examines the status of people with disabilities under international law prior to the adoption of the CPRD and follows the development of human rights protections through the convention s drafting process Arlene Kanter argues that by including both new applications and entirely new approaches to human rights treaty enforcement the CRPD is significant not only to people with disabilities but also to the general development of international human rights by offering new human rights protections for all people Taking

a comparative perspective the book explores how the success of the CRPD in achieving protections depends on the extent to which individual countries enforce domestic laws and policies and the changing public attitudes towards people with disabilities This book will be of excellent use and interest to researchers and students of human rights law discrimination and disability studies **The Learning Society and people with learning difficulties** Riddell, Sheila, Baron,

Stephen, 2001-05-16 There is a growing concern about the social exclusion of a range of minority groups including people with learning difficulties Lifelong learning is seen as one of the central means of challenging the exclusion of this group but also of enhancing their economic status This book demonstrates that policy based on human capital premises has produced forms of lifelong learning which exacerbate the marginalisation of people with learning difficulties The Learning Society and people with learning difficulties reviews the range of policy fields which increasingly intervene in the lifelong learning arena maps the agencies involved in service delivery and describes their sometimes conflicting ethos provides in depth accounts of the lived experiences of individuals with learning difficulties as they navigate lifelong learning options Its exploration of the links between community care education training employment housing and benefits policies in the context of lifelong learning is unique This book makes a significant contribution to debates about how people with learning difficulties may achieve social inclusion and the part which lifelong learning may play in this It is therefore invaluable reading for policy makers practitioners and academics interested in these issues Aggression and Violence Brodie Paterson, John

Turnbull, 1999-11-11 Aggression and violence directed towards staff in the caring services is a growing problem and one that is receiving increasing attention Despite the interest and concern few successful approaches to the subject have been devised leaving the majority of staff feeling vulnerable This book addresses the issue of violence from a theoretical organisational legal and practice perspective in order to provide a framework for future practice in this area Particular attention is paid to the provision of support for victims *The Scottish Law Reporter*, 1885 *Mental Health, Legal*

Capacity, and Human Rights Michael Ashley Stein, Faraaz Mahomed, Vikram Patel, Charlene Sunkel, 2021-09-02 Provides practical solutions for ending coercion in mental health care and realizing the universal right to legal capacity **Forensic Psychiatry** John Gunn, Pamela Taylor, Ian D. Hutcheon, 2014-01-06 Highly Commended BMA Medical Book Awards

2014 Comprehensive and erudite Forensic Psychiatry Clinical Legal and Ethical Issues Second Edition is a practical guide to the psychiatry of offenders victims and survivors of crime This landmark publication has been completely updated but retains all the features that made the first edition such a w New Medicalism and the Mental Health Act John Fanning, 2018-08-09

Ten years have passed since the Mental Health Act MHA 2007 came into force in England An amending statute the Act reformed the MHA 1983 and reshaped the law governing the compulsory care and treatment of people suffering from mental disorders Primarily driven by concerns about risk it sought to remove legalistic obstacles to civil commitment and extend the law s coercive reach into the community At the time of its introduction the 2007 Act was written off as a retrograde step and

a missed opportunity for radical rights focused reform Despite this little attention has been paid to its impact in the years since Published to coincide with the tenth anniversary of the 2007 Act this book offers a timely evaluation of mental health law and policy in England It argues that the current MHA defies easy categorisation within any of the descriptive models which have customarily narrated the mechanics of civil commitment namely legalism new legalism and medicalism It therefore makes the case for a new model new medicalism to account for the 2007 Act s enhancement of the discretion of mental health professionals for the express purposes of facilitating the management of situations of risk In doing so the book critically examines the problems inherent in civil commitment frameworks organised around the concept of risk explores the theoretical foundations of new medicalism considers the challenges facing proponents of future reform in the era of the UN Convention on the Rights of Persons with Disabilities and reflects on the 2007 Act s practical impact The Journal of the Law Society of Scotland ,1996 *Genetic Counselling* Angus Clarke,2006-12-05 Contributions to this study are drawn both from health professionals engaged in genetic counselling and from observers and critics with backgrounds in law philosophy biology and the social sciences This diversity will enable health professionals to examine their activities with a fresh eye and will help the observer critic to understand the ethical problems that arise in genetic counselling practice rather than in imaginary encounters Most examinations of the ethical issues raised by genetics are concerned in a broad sense with the application of new technology to human reproduction This volume focuses on genetic counselling and screening as such providing valuable insights for the health professional social scientist philosopher lawyer and bioethicist *History of Scottish Child Protection Law* Kenneth McK. Norrie,2020-07-06 No detailed description available for A History of Scottish Child Protection Law **Medico-Legal Aspects of Reproduction and Parenthood** J.K. Mason,2017-07-05 Those involved in family and sexual relationships today face a bewildering variety of medico legal dilemmas These are encountered from as early as the preconception state of the embryo and continue throughout the period of child raising until the status of the mature minor is achieved This book dissects a wide range of legal medical and ethical issues surrounding reproduction and the parental relationship with the resultant child Questions posed in the various sections include what constitutes sexual intercourse what are the implications of contraception and sterilization is the abortion issues dead Is there a right to reproduce and if so how is this applied to the modern methods of assisted reproduction Is surrogate motherhood acceptable or workable The concept of fetal rights is explored and specific attention is given to the management of defective neonates in the light of recent judicial decisions Other chapters look at the parent child relationship in respect of medical treatment and the book concludes with a review of the interfamilial protection of young children under both the civil and the criminal law Many of the views expressed are novel in that they represent those of a medical doctor exploring the legal field It is neither a conventional book on family law nor one on medical law rather it draws on both to examine a specific area which affects both in a particularly significant way Both statute and case law have been extensively updated since the publication of the first
