Early Scottish Poetry George Eyre-Todd, 1891

Scottish Poetry of the Sixteenth Century Various, 2019-12-19

Scottish Poetry of the Sixteenth Century is an insightful anthology that captures the rich tapestry of poetic expression during a period marked by social upheaval and cultural transformation. The collection showcases works from key figures such as Robert Henryson and William Dunbar, offering a diverse range of themes including love, morality, and national identity. The poems employ intricate forms and a distinctive use of Scots language, reflecting a unique literary style that bridges medieval traditions and early modern sensibilities. Readers will appreciate the historical context framing these works as the Scottish Reformation and the rise of a distinctive Scottish identity permeate the verses, revealing the intricate interplay between poetry and the socio-political landscape of the time. The diverse authors featured in this anthology offer a glimpse into the minds that shaped Scottish literature during a crucial juncture in its history. Their backgrounds, ranging from court advisors to common folk, inform their work, infusing it with authentic emotions and local color. This compilation also illustrates the impact of the Renaissance on Scottish literature, as poets embraced themes of humanism while often reflecting on their national heritage. This anthology is an essential read for scholars, students, and lovers of poetry alike. It invites readers to engage deeply with the linguistic artistry and thematic depth of the sixteenth century's Scottish poetic tradition, enriching one's understanding of Scotland's literary heritage and the enduring power of verse.

Flodden Field that long slope looking north ward by the deep and dark and sullen Till where on a September afternoon in 1513 the flower of Scotland fell round James the Fourth stands darkly marked on the page of history both of the Scottish nation and of Scottish poetry. It was for the North the burial place of one era and the birth place of another. The English billmen who on Flodden closed round the last desperate ring of Scottish spears hewed down with their ghastly weapons not only James himself and his nobles but the feudal system in church and state with all that sprang from it the civilization and poetry of the Middle Ages in Scotland. The national spirit which had burst into leaf at Bannockburn was touched now as by an autumn frost and a time of storm and darkness must ensue before the country could feel the re-awakening influences of a new spring. The medi val world with its charm and its chivalry its splendour cruelty and power was passing away while the modern world was in the throes of being born. Had James IV lived he would doubtless have continued firm handed as he was to hold in check both churchmen and nobles and the reforms which were in the air might have taken effect like leaven and not as they did like gunpowder. They might have been grafted upon the existing stem as in England instead of overturning it. But during the long minority of James V the abuses of the feudal system political and ecclesiastical attained too rank a growth to be pruned by the hand of that king when he came of age notwithstanding his energy and good intentions. The system as Macaulay has pointed out had served its purpose in the Middle Ages as perhaps no more modern system could have done. In the feudal castles and monasteries had been preserved certain lights of chivalry and

learning which without such shelter must amid the storms of these centuries have flickered and disappeared These lights were now however burning more and more dimly The corruptions of the clergy and the rapacity of the nobles outran all bounds and between the two no man's life was safe and no woman's honour Like other human institutions therefore which have outlived their usefulness feudalism was doomed

The narrative grotesque in medieval Scottish poetry Caitlin Flynn, 2022-04-05 The Narrative Grotesque examines late medieval narratology in two Older Scots poems Gavin Douglas's *The Palyce of Honour* c 1501 and William Dunbar's *The Tretis of the Tua Mariit Wemen and the Wedo* c 1507 The narrative grotesque is exemplified in these poems which fracture narratological boundaries by fusing disparate poetic forms and creating hybrid subjectivities Consequently these poems interrogate conventional boundaries in poetic making The narrative grotesque is applied as a framework to elucidate these chimeric texts and to understand newly late medieval engagement with poetics and narratology

Kingship and Love in Scottish Poetry, 1424-1540 Joanna Martin, 2016-04-22 Looking at late medieval Scottish poetic narratives which incorporate exploration of the amorousness of kings this study places these poems in the context of Scotland's repeated experience of minority kings and a consequent instability in governance The focus of this study is the presence of amatory discourses in poetry of a political or advisory nature written in Scotland between the early fifteenth and the mid sixteenth century Joanna Martin offers new readings of the works of major figures in the Scottish literature of the period including Robert Henryson William Dunbar and Sir David Lyndsay At the same time she provides new perspectives on anonymous texts among them *The Thre Prestis of Peblis* and *King Hart* and on the works of less well known writers such as John Bellenden and William Stewart which are crucial to our understanding of the literary culture north of the Border during the period under discussion
