American Palestine Hilton Obenzinger, 2020-07-21 In the nineteenth century American tourists scholars evangelists writers and artists flocked to Palestine as part of a Holy Land mania Many saw America as a New Israel a modern nation chosen to do God's work on Earth and produced a rich variety of inspirational art and literature about their travels in the original promised land which was then part of Ottoman controlled Palestine In American Palestine Hilton Obenzinger explores two infidel texts in this tradition Herman Melville's *Clarel A Poem and Pilgrimage to the Holy Land* 1876 and Mark Twain's *The Innocents Abroad or The New Pilgrims Progress* 1869 As he shows these works undermined in very different ways conventional assumptions about America's divine mission In the darkly philosophical *Clarel* Melville found echoes of Palestine's apparent desolation and ruin in his own spiritual doubts and in America's materialism and corruption Twain's satiric travelogue by contrast mocked the romantic naiveté of Americans abroad noting the incongruity of a fantastic mob of Yanks in the Holy Land and contrasting their exalted notions of Palestine with its prosaic reality Obenzinger demonstrates however that Melville and Twain nevertheless shared many colonialist and orientalist assumptions of the day revealed most clearly in their ideas about Arabs Jews and Native Americans Combining keen literary and historical insights and careful attention to the context of other American writings about Palestine this book throws new light on the construction of American identity in the nineteenth century

Freedom Burning Richard Huzzey, 2012-08-22 After Britain abolished slavery throughout most of its empire in 1834 Victorians adopted a creed of anti slavery as a vital part of their national identity and sense of moral superiority to other civilizations The British government used diplomacy pressure and violence to suppress the slave trade while the Royal Navy enforced abolition worldwide and an anxious public debated the true responsibilities of an anti slavery nation This crusade was far from altruistic or compassionate but Richard Huzzey argues that it forged national debates and political culture long after the famous abolitionist campaigns of William Wilberforce and Thomas Clarkson had faded into memory These anti

slavery passions shaped racist and imperialist prejudices new forms of coerced labor and the expansion of colonial possessions In a sweeping narrative that spans the globe Freedom Burning explores the intersection of philanthropic imperial and economic interests that underlay Britain's anti slavery zeal from London to Liberia the Sudan to South Africa Canada to the Caribbean and the British East India Company to the Confederate States of America Through careful attention to popular culture official records and private papers Huzzey rewrites the history of the British Empire and a century long effort to end the global trade in human lives Britain's Imperial Century, 1815-1914 Ronald Hyam, 1976 **E.D. Morel, 1873-1924** Catherine Ann Cline, 1980 **Pan-African Chronology II** Everett Jenkins, Jr., 2011-02-28 This continuation volume of the Pan African Chronology set covers the most significant events in the African diaspora from the end of the American Civil War through the pre World War I years This was a time of great change for black Americans Reconstruction the founding of the NAACP the formation of the separate but equal doctrine and the migration of blacks from the rural South to Northern cities The eradication of slavery as a legalized institution was finally realized in the Americas while the struggle to end it in Asia was also taking place European colonialism in Africa was accelerated ironically coinciding with humanitarian efforts to end the slave trade on the African continent These events and many others are covered here *German Diplomatic Relations 1871-1945* William Young, 2006-09-04 The continuity issue has been a theme in German historiography for half a century Historians have examined the foreign policy of Wilhelmine and Nazi Germany that led to two world wars Dr William Young examines the continuity of German Foreign Office influence in the formulation of foreign policy under the leadership of Otto von Bismarck 1862 1890 Kaiser William II 1888 1918 the Weimar Republic 1919 1933 and Adolf Hitler 1933 1945 He stresses the role and influence of strong German leaders in the making of policy and the conduct of foreign relations *German Diplomatic Relations 1871 1945* will be of value to individuals interested in the history of Germany Modern Europe and International Relations Into Africa Martin Dugard, 2004-04-13 What really happened to Dr David Livingstone The New York Times bestselling coauthor of *Survivor The Ultimate Game* investigates in this thrilling account With the utterance of a single line Doctor Livingstone I presume a remote meeting in the heart of Africa was transformed into one of the most famous encounters in exploration history But the true story behind Dr David Livingstone and journalist Henry Morton Stanley is one that has escaped telling *Into Africa* is an extraordinarily researched account of a thrilling adventure defined by alarming foolishness intense courage and raw human achievement In the mid 1860s exploration had reached a plateau The seas and continents had been mapped the globe circumnavigated Yet one vexing puzzle remained unsolved what was the source of the mighty Nile river Aiming to settle the mystery once and for all Great Britain called upon its legendary explorer Dr David Livingstone who had spent years in Africa as a missionary In March 1866 Livingstone steered a massive expedition into the heart of Africa In his path lay nearly impenetrable uncharted terrain hostile cannibals and deadly predators Within weeks the explorer had vanished without a trace Years passed with no word While debate raged in England

over whether Livingstone could be found or rescued from a place as daunting as Africa James Gordon Bennett Jr the brash American newspaper tycoon hatched a plan to capitalize on the world's fascination with the missing legend He would send a young journalist Henry Morton Stanley into Africa to search for Livingstone A drifter with great ambition but little success to show for it Stanley undertook his assignment with gusto filing reports that would one day captivate readers and dominate the front page of the New York Herald Tracing the amazing journeys of Livingstone and Stanley in alternating chapters author Martin Dugard captures with breathtaking immediacy the perils and challenges these men faced Woven into the narrative Dugard tells an equally compelling story of the remarkable transformation that occurred over the course of nine years as Stanley rose in power and prominence and Livingstone found himself alone and in mortal danger The first book to draw on modern research and to explore the combination of adventure politics and larger than life personalities involved Into Africa is a riveting read

David Livingstone Andrew C. Ross, 2006-09-15 Now in paperback Ross's biography is already established as the leading authority on its subject

The Paradox of Planetary Human Entanglements Inocent Moyo, Sabelo J. Ndlovu-Gatsheni, 2022-12-30 The Paradox of Planetary Human Entanglements provides a nuanced understanding of the complexity of planetary human entanglements in this age of increased borderisation and territorialisation racism and xenophobia and inclusion and exclusion One of the greatest paradoxes of the 21st century is that of increased planetary human entanglements enabled by globalisation on the one hand and by the rising tide of exclusionary right wing politics of racism xenophobia and the building of walled states on the other The characteristic feature of this paradox is the unrestrained move towards the detention and incarceration of those who attempt to migrate This brings to the fore the issue of borders in terms of their materiality and symbolism and how this mediates belonging citizenship and the ethics or lack thereof and politics of living together This book shows that at the core of border and migration restrictions is the desire to exclude certain categories of people which aptly demonstrates that borders in their materiality are not for everyone but for those who are considered undesirable migrants The authors examine questions of borders nationalism migration immigration and belonging setting the basis of a campaign for planetary humanism grounded on human dignity which transcends ethnicity and nationality This book will be a useful resource for students scholars and researchers of African Studies Border Studies Migration Studies Development Studies International Studies Black Studies International Relations and Political Science

'Legitimate' Commerce Robin Law,2002-08-08 This edited collection written by eleven leading specialists examines the nineteenth century commercial transition in West Africa the ending of the Atlantic slave trade and the development of alternative forms of legitimate trade mainly in vegetable products Approaching the subject from an African rather than a European or American perspective the case studies consider the effects of transition on the African societies involved They offer significant insights into the history of pre colonial Africa and the slave trade the origins of European imperialism and longer term issues of economic development in Africa *The Economics of the Indian Ocean Slave Trade in the Nineteenth Century* William Gervase Clarence-Smith,2013-12-16 First Published in 1989 Well over a million slaves were exported from Indian Ocean and Red Sea ports in Eastern Africa during the nineteenth century and millions more were shifted around the interior of the continent and along the coast of East Africa And yet we still know remarkably little about this great movement of people particularly from an economic point of view This is a collection of twelve essays looking at the economics of the Indian Ocean and the Red Sea Slave trades of the nineteenth century **The Library Catalogs of the Hoover Institution**

on War, Revolution, and Peace, Stanford University Hoover Institution on War, Revolution, and Peace,1969 **Modern Spain** Pamela Beth Radcliff,2017-05-08 Modern Spain 1808 to the Present is a comprehensive overview of Spanish history from the Napoleonic era to the present day Places a large emphasis on Spain's place within broader European and global history The chronological political narrative is enriched by separate chapters on long term economic social and cultural developments This presentation of modern Spanish history incorporates the latest thinking on key issues of modernity social movements nationalism democratization and democracy **The African Inheritance** Ieuan Ll. Griffiths,2005-09-30 Africa

is a continent gripped by civil wars and widespread famine The causes of many of the continent's problems are deep rooted and can be traced to Africa's colonial past when European powers divided the spoils of the continent into separate sovereign states The African Inheritance examines the effect this balkanization of Africa has had and is having on the political and economic well being of the continent From a brief history of pre colonial Africa and its subsequent European partition and inevitable decolonization the book discusses the consequences of such an inheritance small and weak states destructive secessionist movements irredentism and African imperialism Attempts to tackle these problems and assert independent development are inhibited by the colonial inheritance *War and the World* Jeremy Black,2008-10-01 In this brilliant history of warfare Jeremy Black is the first to approach the entire modern era from a comprehensive global perspective He provides a wide ranging account of the nature purpose and experience of war over the past half millennium and argues the importance of viewing the rise of European power within a wider international context Investigating both land and sea

warfare Black examines weaponry tactics strategy and resources as well as the political social and cultural impact of conflict The book takes issue with established interpretations not least those that emphasize technology and challenges the view that European military and naval forces were dominant throughout the period European mastery at sea did not always translate into equivalent success on land says Black and many non European military systems the Ottomans in their expansionist years Babur and the Mughals in sixteenth century India and the Manchu in China in the following century for example were formidable in their own right The author contends that in the nineteenth century the focal period of Europe s military revolution the international military balance shifted decisively Black shows how military developments combined with political economic and ideological shifts influenced the nature and success of European imperialism Linking debates on early modern history with those of more recent centuries he offers a fundamental reexamination of the role of war in the progress of nations
