the deep links between image and poetic inspiration and reckons with Ron Silliman's *The Alphabet* a UAP classic In the book's second half Rasula engages in detailed conversations with a roster of fellow critics Their exchanges confront ecopoetics the corporate university the sheer volume of contemporary poetry and more This substantial set of dialogues gives readers a glimpse inside a master critic's deeply informed critical practice and lists his intellectual touchstones The balance between essay and interview achieves a distillation of Rasula's long established idea of wreading In his original use the term denotes how any act of criticism inherently adds to the body of writing that it purports to read how Rasula couldn't help but participate in his favorite poems In this latest form Wreading captures a critical perception that sparks insight and imagination no matter what it sees
