Corpus Christi Bret Anthony Johnston, 2007-12-18 From an acclaimed and award winning young writer comes an intensely moving debut collection set in the eye of life's storms In Corpus Christi Texas a town often hit by hurricanes parents children and lovers come together and fall apart bonded and battered by memories of loss that they feel as acutely as physical pain A car accident joins strangers linked by an intimate knowledge of madness A teenage boy remembers his father's act of sudden and self righteous violence A hurricane party reunites a couple whom tragedy parted And in an unforgettable three story cycle an illness sets in profound relief a man's relationship with his mother and the odd shifting fidelity of truth to love Told in fresh lyrical voices and taut inventive styles these narratives explore the complex volatility of love and intimacy sorrow and renewal and expose how often these experiences feel like the opposite of themselves From the woman whose young son's uncanny rapport with snakes illuminates her own missed opportunities to the man confronting his wife and her lover in a house full of illegal exotic birds all the characters here face moments of profound decision and recognition in which no choice is clearly or completely right Writing with tough humor deep humanity and a keen eye for the natural environment Bret Anthony Johnston creates a world where cataclysmic events cut people loose from their regular lives floating and spiraling away from where we had been the day before Corpus Christi is a extraordinarily ambitious debut It marks the arrival of an important exquisitely talented voice to American fiction

Diseases and Diagnoses Sander L. Gilman, 2017-09-08 Diseases and Diagnoses discusses why such social problems as addiction sexually transmitted diseases racial predisposition for illness surgery and beauty and electrotherapy all of which concerned thinkers a hundred years ago are reappearing at a staggering rate and in diverse national contexts In the twentieth century such problems were viewed as only historical concerns Yet in the twenty first century we once again find ourselves confronting their implications In this fascinating volume Gilman looks at historical and contemporary debates about the stigma associated with biologically transmitted diseases He shows that there is no indisputable way to measure when a disease or therapy will reappear or how it may be perceived at any given moment in time Consequently Gilman

focuses on the socio cultural and political implications that the reappearance of such diseases has had on contemporary society His approach is to show how culture embedded in cultural objects both feeds and is fed by the claims of medical science as for example the reappearance of race as a cultural as well as a medical category If the twentieth century was the age of physics in the latter part of the past century and certainly in the twenty first century biological concerns are recapturing central stage Achievements of the biological sciences are changing the public s sense of what constitutes cutting edge science and medicine None has captured the public imagination more effectively than the mapping of the human genome and the promise of genetic manipulation which fuel what Gilman calls a second age of biology Although not without controversy the role of genetics appears to be key Gilman puts contemporary debates in historical context showing how they feed social and cultural concerns as well as medical possibilities

If the Sky Falls Nicholas Montemarano, 2005-10 If the Sky Falls is the debut short story collection from award winning fiction writer Nicholas Montemarano These eleven stories show why Jayne Anne Phillips has called Montemarano an American stylist capable of redeeming our darkest dreams Redemption in these intense and sometimes violent stories is found in the lyrical prose in the act of storytelling itself A young man tries to rescue his sister from her abusive lover and in the process must revisit his own family s violent history Note to Future Self a home healthcare worker pops pills and takes two men with cerebral palsy to a strip club The Usual Human Disabilities a man has a breakdown years after witnessing a brutal murder and doing nothing to help the victim The Other Man In The November Fifteen a man is taken from his home and tortured though he has no idea why when he returns home he finds a different kind of torture awaiting him Two of the stories Shift and the Pushcart Prize winning The Worst Degree of Unforgivable are stylistic tours de force But style in this collection is always at the service of story Montemarano s fiction maintains that rare balance between traditional storytelling and experimentation his work is innovative without being flashy sincere without being sentimental In an age of hype If the Sky Falls truly is the real thing an original and important achievement in the short story form
