Long Turn Toward Light:

CAVENOMICS:Turning Towards Light Binu Peniel,2018-07-04 The allegory of the cave by Plato is the genre of this book Plato claims that knowledge gained through the senses is no more than opinion and in order to have real knowledge we must gain it through philosophical reasoning A journey through this book is intended to create a lasting influence in the lives of people through creating values I believe that enlightenment is possible only through awareness and through a mind shift This work brings value to your life which is Christ centered innovative motivational and empowering and it is a journey towards light There are many people who journey with me in this process of healing recovery and restoration from a labor trafficking situation I truly believe no one can be a slave until and unless one gives up ones willpower and ones own desire to be set free Cavenomics is an attempt to enlighten your mind your spirit your soul and your being Liberation freedom recovery and restoration is possible Cavenomics is the mantra for success
